Chunks of Truth.

Merchants employ clerks to sell goods, but it is part of the business of the merchant to furnish customers for these clerks to serve. But many merchants do not act as though they think they should hire the clerk and bring in the customers too; and so these merchants lose money. The successful merchant seeks an audience, and he finds it through the columns of the local paper. He tells the readers about his goods and all about the prices and, the bargains; and if the merchant stands well and is regarded as reliable, the people come in great numbers to his store. Then the clerk gets busy, for there is work for him to do. The clerk turns in his day's sales and feels good over having earned his salary; and the merchant counts the money and thinks to himself, that clerk is all right. But the secret of his success is in the large advertisement in the local paper. There are some merchants who spend $300 a month for clerk hire and $10 a month for advertising. Of course their clerks are never busy. There are still other merchants who do not advertise at all, and they do not need any clerks for they can wait on all the customers that come their way. If there happens to be but one proprietor he hires a cheap priced boy or girl to watch the store when he is at his meals or out on the streets talking dull times.

In Tyler it is notorious that merchants who advertise in the local paper are the ones who are selling the goods, while the merchants who don't advertise are disgrunted and put in their time complaining of dull trade, and with them trade is dull. They think the buyer should hunt them up, but the buyer don't know them. The customer goes to the stores which send out through the press an invitation to everybody to come and buy their goods.—Tyler Courier and Times.

Woman.

It takes a hundred men to make an encampment, but one woman can make a home. I not only admire woman as the most beautiful creature that was ever created, but I reverence her as the redeeming glory of humanity, the sanctuary of all the virtues, the pledge of all perfect qualities of heart and head. It is not just nor right to lay the sins of men at the feet of woman. It is because women are so much better than men that their faults are considered greater. A man's desire is the foundation of his love, but a woman's desire is born of her love. The one thing in this world that is constant, the one peak that arises above all clouds, the one window in which the light forever burns, the one star that darkness cannot quench is woman's love. It rises to the greatest height, it sinks to the lowest depth, it forgives the most injuries. It is perennial of life and grows in every climate. Neither coldness nor neglect, harshness nor cruelty, can extinguish it. A woman's love is the perfume of the heart. This is the real love that subdues the earth; the love that has wrought all miracles of art; that gives us music all the way from the cradle song to the grand closing symphony that bears the soul away on wings of fire. A love that is greater than power, sweeter than life and stronger than death.—Robert G. Ingersoll.

SAVE MONEY BY BUYING CHAMBERLAIN'S COUGH REMEDY.

You will pay just as much for a bottle of Chamberlain's Cough remedy as for any of the other cough medicines, but you save money in buying it. The saving is in what you get, not what you pay. The sure-to-cure-you quality is in every bottle of this remedy, and you get good results when you take it. Neglected colds often develop serious conditions, and when you buy a cough medicine you want to be sure you are getting one that will cure your cold. Chamberlain's Cough remedy always cures. Price 25 and 50 cents a bottle. For sale by all druggists.

Honor is Better Than Gold.

The following article credited to Exchange, is going the rounds of the press. Men, young and old, should read it:

"A young man, Texas reared in a christian home, went not long since to a merchant to pay what he owed. The debt was contracted the year before with the understanding that it was to be paid in twelve months. The young man had been away during the interim and returned to discharge his obligations one cold day in January. After greeting the merchant he warmed himself by the fire a few moments and then asked for his account. The merchant turned to the bookkeeper and asked if the young man had an account, and after looking in the books the answer was no. The young man said he felt sure he must owe something and another search was made in the books, with no results. And the young man warmed himself and said he was better off than he thought. He talked with the merchant about other matters, but with some embarassment, and finally asked again if he was certain he owed him nothing. And yet again the search revealed no indebtedness. He was assured he was mistaken and still he, like one of old, undergoing temptations, warmed himself. At last he bade the merchant goodbye and got as far as the door, when he suddenly wheeled around and came back with flashing eyes. His voice trembled and he said: "I was brought up to be honest. I was taught that I must guard my integrity as I would my life, and yet I am about to sell myself for forty dollars. I do owe you, I do not care what your books may show, and here is the money. I know what it is to a cent, and when I was hesitating and quibbling with you I was a cowardly thief. My feet almost slipped, and if I had gone out into the world I would have had a few more dollars, but ever with me, wherever I went, would have gone a dishonest man, a man who had sold his birthright to an upright life for a pittance." With that he threw the money down and walked out again, not haltering and slumbering as before, but with his head high and step buoyant. He had fought a hard battle and won. Reader, you may say it was only a skirmish, but when the demon of dishonesty fights with you, you have an adversary who is worthy of your greatest valor. The amount involved, gauged by dollars and cents, may be small, but the worth of all the gold of your heart and character is at stake."—Waxahachie Light.

The Reason.

A boy in school had been late both morning and afternoon for three successive days. When asked the reason he replied that he had taken time to eat all he wanted for breakfast and dinner. "You are more successful in getting food than knowledge, I fancy," said the teacher.

"Yes," replied the boy, "for I feeds myself and—you teach me."

A Square Deal

Is assured you when you buy Dr. Pierce's Favorite Prescription, for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our America, for their specific virtues in curing diseases. Not a drop of alcohol enters into their composition. A much better alcohol-free cordial, healing and preserving, the medicinal principles used in them, viz.—pure triple-refined glycerine. This agent possesses ultimate therapeutical properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption, in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate chronic coughs which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

The Railroad Across The Sea.

One of the most notable railroads in the world is one which goes to see from Miami, Fla., and which is now approaching completion, the road from Miami to Key West.

Work on this road was begun in July, 1905, and has been in progress ever since, with the expectation that it would be the greatest achievement of Henry M. Flagler, the multimillionaire railroad builder, who conceived the idea.

Already the road is completed and in operation nearly a hundred miles south of Miami and the extension will take it over a stretch of thirty miles of open ocean and thirty miles more of submerged keys and lagoons, to connect Key West with Miami, 156 miles. Only about thirty miles of the road remains to be constructed to connect the line from the north with that which is being constructed from the south. The most important part of the work yet remaining to be done is the eleven mile gap between Knight's Key and Hahia Honda, where the track is to be carried over the ocean on concrete arches.

When the line is completed to Key West huge railroad car floats will take entire trains across the Florida Straits to Havana, a distance of ninety miles, without compelling passengers to leave their car seats or sleeping car berths and without the necessity of breaking bulk on a single consignment of freight. Thus there will be practically an all rail route from New York to Havana, though for nearly a hundred miles of the distance the railway trains will be carried on floats.—Exchange.

Soldier Balks Death Plot.

It seemed to J A Stone, a civil war veteran, of Kemp, Texas, that a plot existed between a desperate lung trouble and the grave to cause his death. "I contracted a stubborn cold," he writes, "that developed a cough that stuck to me in spite of all remedies, for years. My weight ran down to 130 pounds. Then I began to use Dr. King's New Discovery, which restored my health completely. I now weigh 178 pounds." For severe colds, obstinate coughs, hemorrhages, asthma, and to prevent pneumonia it's unrivaled. 50c and $1. Trial bottle free. Guaranteed by Mont G Calvert.

The Secret of Long Life

A French scientiest has discovered one secret of long life. His method deals with the blood. But long ago millions of Americans had proved Electric Bitters prolongs life and makes it worth living. It purifies, enriches and vitalizes the blood, rebuilds wasted nerve cells, imparts life and tone to the entire system. Its a godsend to weak, sick and debilitated people. "Kidney trouble had blighted my life for months," writes W M Sherman, of Cushing, Me., "but Electric Bitters cured me entirely." Only 50c at Mont G Calvert's.

Citation By Publication.

THE STATE OF TEXAS,
To the Sheriff or any Constable of Colorado county—Greeting:

YOU ARE HEREBY COMMANDED to summon Wm. Lange by making publication of this Citation once in each week for four successive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published therein, but if not, then in any newspaper published in the Twenty-fifth (25) Judicial District; but if there be no newspaper published in said Judicial District, then in a newspaper published in the nearest District to said 25th Judicial District, to appear at the next regular term of the district court of Colorado county, to be holden at the court house thereof, in Columbus, on the 2nd Monday in February A. D. 1909, the same being the eighth (8) day of February A. D. 1909, then and there to answer a petition filed in said court on the 26th day of December A. D. 1908 in a suit, numbered on the docket of said court No. 7470, wherein T. J. Vick is plaintiff, and Wm. Lange is defendant, and said petition alleging: That he is lawfully seized and possessed of the following described land and premises in the town of Eagle Lake, Colorado county, Texas, to wit: A part of the P. Reels survey on the north side of and fronting on the G. H. & S. A. R. R. right of way. Beginning on the S. E. corner of Lake Ave. Thence S. E. along the north side of said right of way, 210 feet and corner; thence N. E. 210 feet to Church street, thence N. W. 210 feet to Lake Ave., thence S. W. along the east side of Lake Ave 210 feet to the place of beginning containing one acre of land. 2nd tract joins above tract on the east, beginning at the S. E. corner of said track on the said right of way; thence S. E. along said right of way 297 feet and corner on the B. C. Jones estate land, now the property of Mrs. Althea Jones Franz. Thence N. E. along her west line 210 feet to Church street; thence N. W. along the south side of Church street 297 feet to the N. E. corner of the first mentioned tract; thence S. W. along the east line of said tract 210 feet to the place of beginning, containing about 2½ acres of land.

Plaintiff alleges that defendant is setting up some kind of claim to said premises which cast a cloud upon plaintiff's title to said tracts of land, which plaintiff alleges that he purchased said tracts of land from the defendant on the 9th day of March, 1895, for value in good faith, and obtained a general warranty deed from this defendant, conveying said premises to this plaintiff. That he immediately entered in and upon said premises and took possession thereof and made valuable improvements thereon, which possession has been continuous from said date to the present time. That he has been in peaceable possession of said premises and has cultivated, used and enjoyed the said premises as a homestead under title and color of title for more than than five years and has consecutively and continuously paid the taxes thereon for more than five years, and claim the same adversely to every one since the date above mentioned to the present time. Plaintiff specially pleads the statutes of five and ten years limitation. Plaintiff avers that the deed above mentioned was by him filed with the county clerk of Colorado county, Texas, for record on the 9th day of March 1895, and was by said clerk duly recorded in Colorado County Deed Records in Vol. 19 Deed Records pages 308-9 and in said deed a vendor lien was retained by defendant to secure the payment of two notes, one for Two Hundred Dollars and one for Three Hundred Dollars; said notes were due and payable to the order of said defendant on the first day of July 1895, and on first day of January 1896 respectively.

Plaintiff further avers that each of said notes were by this plaintiff paid to said defendant, both principal and interest, and this defendant executed an instrument in writing, acknowledgment of the receipt of the money for said notes, and releasing the said tracts of land for said vendors lien. This instrument was and is dated March 18th 1896, and delivered the same to this plaintiff, but the defendant failed to acknowledge the execution of the said instrument in the manner required by law, which casts a cloud on plaintiff's title to the said tracts of land.

Wherefore the premises considered plaintiff prays that defendant be cited publication in the manner required by law, to answer plaintiff's petition at the next term of your Honorable court, and on a hearing that plaintiff have judgment, cancelling above mentioned lien and removing the cloud upon the title to the above mentioned tracts of land, and for such other and further orders and decrees both general and special as plaintiff may be entitled.

HEREIN FAIL NOT, but have before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

GIVEN UNDER MY HAND and the Seal of said Court, at office in Columbus, Texas, this the 26th day of December A. D. 1908.

W. C. PAPENBERG.
Clerk, Dist. Court, Colorado Co.

Many Sleepless Nights, Owing to a Persistent Cough. Relief Found at Last.

"For several winters past my wife has been troubled with a most persistent and disagreeable cough, which invariably extended over a period of several weeks and caused us many sleepless nights," writes Will T. Hayner, editor of the Burley, Colorado, Bulletin. "Various remedies were tried each year, with no beneficial results. In November last the cough again put in an appearance and my wife, acting on the suggestion of a friend, purchased a bottle of Chamberlain's Cough Remedy. The result was, indeed, marvelous. After three doses the cough entirely disappeared and has not manifested itself since." This remedy is for sale by all druggists.

A verdant-looking old fellow recently entered the office of a down-town Woman's Exchange, and after a moment's hesitation inquired of the lady in charge, "Is this here the Woman's Exchange?"

"It is," replied the lady.

"Well," continued the countryman, somewhat sheepishly, "I'd like to swap off my old woman fer 'most anybody you happen to have on hand."
