The negro show the "Rabbit's Foot Minstrels," did not show here last Saturday as advertised. The show was treated rather roughly by the boys throwing rocks at them in other towns, and when they reached here some of the boys, through a spirit of fun we suppose, said where it could be heard by the manager, that they would run them to the lake as soon as the sun went down, but when the sun went down the show had packed up and was well on its way to Houston.

The "Nobody's" band was here Tuesday and a dance was had at the opera house that night, the following dances being in attendance: Mr. and Mrs. J. J. Whatley, Mrs. Owen, Mr. and Mrs. L. V. Joe Hofernik, who escaped from jail at Hallettsville last Friday morning, is again behind the bars, having been captured at the home of Joe Peter, his step-father, about six miles below Hallettsville. He had been hiding in the bottoms and said that several times the officers were right at him. He says that Berry Moore, his partner in the many alleged horse stealing cases and who escaped from jail with him, separated from him Saturday night, saying he was going to get on a train somewhere and get away as far as possible. Hofernik and Moore were charged with the selling of a stolen horse here to Mr. Raezer, and were also charged with stealing Mr. W. B. Smith's horse in this city.

A Most Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black-Cherry bark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchial, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherrybark in promoting digestion and building up the system, thereby contributing the concomitant of a healthy condition of the whole system. Of course, it will not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, lingering coughs, bronchial and asthmatical troubles and chronic sore throat with hoarseness. In acute coughs it is not so effective. If in the lingering hang-on coughs, or those of long standing, even when accompanied by bleeding from lungs, that is, has performed its most marvelous cures.

Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago, says of glycerine:

"In dyspepsia it serves an excellent purpose. Holding a fixed quantity of the peroxide of hydrogen in solution, it is one of the best manufactured products of the present time in its action upon enfeebled, disordered stomachs, especially if there is ulceration of catarrhal gastritis (catarrhal inflammation of stomach), it is a most efficient preparation. Glycerine will relieve many cases of pyrosis (heartburn) and excessive gastric (stomach) acidity."

"Golden Medical Discovery" enriches and purifies the blood curing blotches, pimples, eruptions, scrofulous swellings and old sores or ulcers.

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about the native medicinal roots composing this wonderful medicine. There is no alcohol in it.
