SATURDAY, APRIL 11, 1908.

Gainesville, Texas, March 30—It was quite noticeable that Hon. Joseph W. Bailey tried very hard to hold his temper at Fort Worth rally and even made an effort to [illegible] his speech of hate during the last session of the legislature.

He was evidently warned by some of his friends when he reached Fort Worth, but he had his own warning when he reached Gainesville, and said things here last Friday night that were a true indication of the man's nature.

Here are some of the choice morsels from his impromptu address at this place:

"I appeal to my friends to make it impossible for my enemies to exist in this town or county. I appeal to my friends to hate every man who has opposed me."

"I stated in that skating rink (pointing to where the rink stood until destroyed by fire last Sunday) that I would drive my enemies into the gulf. I propose to subject them to a fire three times as hot as the fire that destroyed the skating rink."

"I appeal to my friends to register in their memory every man who has not supported me in this contest. If any of them ever bob their heads up for office, I appeal to my friends to defeat them."

EVERY taxpayer in Texas, whether for or against Senator Bailey, is helping to pay the expenses of Senator Bailey, Judge Brooks and District Attorney Storey in their respective campaigns for delegates at large. Senator Bailey, who objected to General Joe Wheeler drawing pay while he was serving in the swamps of Cuba against a foreign foe, has drawn $15,000 and mileage from the federal treasury, during the past two years, and has been at his desk about three months of the time. Judge M. M. Brooks has made two campaigns, without losing one cent of the $4500 a year paid him by the state. Jim Storey draws an ex-officio salary from the state as district attorney. There ought to be a special session of the legislature called to vote Colonel Andy Baker pay from either the state or the nation. It's a queer spectacle—the taxpayers of Texas and the trusts contributing to a common cause.—Houston Chronicle.

THE Galveston News editorially remarks that it is wholly unable to understand why leading men whom the people honor and trust, should decline and refuse to take a stand, one way or the other, in a case like that of Senator Bailey. There are a few prominent men in this county, community who are refusing to declare themselves on this question. They should come out in the open, declare themselves and give the people the benefit of their knowledge, for in this day and time the world hates a straddler.

THE HEADLIGHT is opposed to Baileyism. It always has been and always will be, but it is not one of the kind to fall out with others who differ from it. While the editorial columns of this paper are controlled exclusively by the management, anything of interest to the other side of the question will be [illegible] in this paper, provided the editor is given possession of such information.

WITH all the candidate for congress in other districts announcing their candidacy, it looks as if Hon. George F. Burgess thought he had a cinch on his job. However, it may be that he wants to finish up his work in the present session of congress before taking a hand in the fight.—Hallettsville Herald.

Our Congressman evidently does not believe in announcing his candidacy in the newspapers of his district.

THE Mercury makes its point out by to the Eagle Lake Headlight for its remark that the Mercury is alongside the prettiest, neatest and best paper in the state. The compliment is appreciated, but we don't feel that the Mercury has any "edge" on the Headlight.—Weimar Mercury.

Well said and well deserved, on both sides.—Galveston News.

CONE JOHNSON has a letter from Joe Bailey asking him to become a candidate for Attorney General. But that was before the proofs of Bailey's double dealing were shown to the investigating committee, causing Cone Johnson to denounce his policy. Bailey doesn't think him capable of being Justice of the Peace now.

THE vulgarity of Joe Bailey continually obtrudes itself. It is his habit to insinuate dirty things concerning his opponents. He says he knows things that cannot be told before ladies. That sort of speech is insulting to the women present and ladies should resent it by leaving.

THE ground has been broken at El Campo for the erection of a new rice mill. The machinery from the mill at Brownsville will be installed upon the completion of the new building, and it will be ready for business by the beginning of next milling season.

THE attorney general holds that a woman is eligible to hold the office of county treasurer as there was no provision in the constitution that a county treasurer should be a qualified elector.

IT is noted that the historic, old Colorado Citizen under the new management retains its position on Baileyism and contends for purity in official service.

THE Nordheim News is offered for sale, its brilliant and scholarly editor, Brother Blanton on account of health, wishing a change to a mountainous district.

UNCLE SAM wants three hundred teachers for the Philippines. The places pay well, from $1,000 to $2,000.

ALL men are born illiterate and many of them most [illegible] it.—Brown County Democrat.

Bryan vs. Baileyism.

Mr. Bryan is authority for the warning to the effect that the trusts are ready to turn loose an enormous slush fund to debauch the southern states. Taking his warning as a cue, there has been started a movement to organize Bryan clubs over Texas. It is agreed, therefore that the big slush fund has come or is about to come to Texas. Whom do the trusts favor in this state? That they would be moved to do this? They must be backing one side or the other. Which side? Mr. Bryan says the trusts have been [illegible] for that, and the Bryan clubs are being organized in Texas to meet and defeat this effort to debauch the state. Which side in Texas politics are the "interests" backing. This is a serious question for every patriotic Texan to ask and to answer. The fund is here. Mr. Bryan says so. Who is getting the money.

The Modesty of Women

Naturally makes them shrink from the knife. Yet questions also arise as to advisability and expense of local treatments, which some physicians consider essential in the treatment of female weakness. Yes, if help can be had it is better to submit to this ordeal than let the disease fasten upon the vitals. It is man's province to relieve woman of the annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription write in appreciation of the cure which dispensed with the examinations and local treatments. There is no other medicine so sure and safe for delicate women as "Favorite Prescription." It cures alarming irregularities and female weakness. It always helps. It almost always cures. It is strictly non-alcoholic, none of its ingredients being printed on its wrapper, nor contains no deleterious or habit forming drugs, and every ingredient that entering into its composition has the full endorsement of those most eminent of the several schools of medical practice. Some of these numerous and strongest of professional endorsements of its ingredients will be found in a pamphlet wrapped around the bottle, also in a booklet mailed *free* on request, by Dr. R. V. Pierce, of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay, or non-professional testimonials.

The most intelligent women now a days insist on knowing what they take as medicine instead of opening their mouths like a lot of young birds and gulping down whatever is offered them. "Favorite Prescription" is of known composition. It makes weak women strong and sick women well.

Dr. Pierce's Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send to Dr. R. V. Pierce, Buffalo, N. Y., 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound.

If sick consult the Doctor, free of charge by letter. All such communications are held sacredly confidential.
