I AM OPERATING IN THE COAST COUNTRY

With my headquarters at Eagle Lake, Colorado County, Texas,

For The purpose of Selling Farm Lands

If you have a good tract of land of any size that you wish to dispose of quick, list it with me and I will find you a cash buyer, no matter how many others have failed. I make the sale of south Texas lands a specialty. Have purchased the Drummers Home Cottage, have moved my family here to live because we like the place, people and surrounding country. Will do all I can for the upbuilding of this city and section of country. Make farm lands a specialty and do not have any side issues such as loans, cattle, insurance or banking. I have an organized force in the north working for me all the time bringing in purchasers. I know the power of printers ink, when, how and where to use it to the best advantage. My sales of south Texas land last year amount to, in round numbers, over one million dollars. About two years ago I subdivided and sold out and brought in new settlers for about thirty thousand acres of land in Colorado and Wharton Counties owned by Mr. John Linderholm. I have sold out of the King pasture in Nueces County, Texas, about forty, owned by Mr. John Linderholm. I have sold out of the King pasture in Nueces County, Texas, about forty, owned by Mr. John Linderholm, I have sold out the Drummers Home Cottage, the past four years and have placed settlers on these lands who are successful and they are my best friends today which will demonstrate that I can do business and at the same time treat my customers fairly. I do not want one cent of commission until I make the sale and give both the buyer and seller a square deal, with no third party mixed up in the trade to cover up profit. During the past two years I have furnished most of the purchasers for the lands, acreage and town lots for the Alamo Beach, family health and pleasure resort. You will find my office opposite the Southern Pacific Station in the Drummers Home Cottage. If you wish to list your land call on me or write me stating what you have and I will make you the lowest price. I will go and look your property over and if I think I can sell it I will accept it for sale providing you will give me the exclusive sale of it in writing. Do not look for me on the streets but come direct to my office. I am subdividing and offering for sale in small tracts a Caney Valley plantation, the richest soil that I know of that does not overflow.

Mr. Francis Potter, Editor of the Herrington Kan. Sun, who made a trip South in January, says:

"One is agreeably disappointed in the sort of land men that you meet down here. Not a man in this party has been annoyed for a minute by importunities to invest. Every question has been answered fully and courteously, every opportunity is given the intending investor to find out all he wishes to know, not from real estate men alone, but from the inhabitants and farmers themselves. Mr. Herbert D. Hurd, vice president and manager of the Fidelity Immigration Company, a Texas corporation, with offices at Kansas City, Eagle Lake, Chesterville and Houston is a special example of this sort of land seller. He has been with our party nearly all the way and not only the writer, but every member of the party, is indebted to him for courtesies and kindnesses that have added very materially to our trip. It makes no difference whether you are an intending investor or just a tourist, his quiet courtesy is just the same. He never importunes you to buy land, but is always ready to show or tell you about his propositions if asked. We are told he closes more deals than any other man in this section of the country, so it appears that his plan works well."

"YOU KNOW 'EM"

The Latest.

When we think of what might happen in regard to ladies wearing apparel, we are inclined to shudder, for whatever is said whatever fashion decrees is worn—if the police do not interfere, as they did in gay Paris the other day, when two ladies appeared dressed in the latest sheath gowns at the races. The jeers and sneers of even a Parisian audience caused the gendarmes to hasten to the ladies, throw their long coats over them, place them in a closed carriage and hurry them homeward. We never thought these creations of the demimonde sections of Paris would reach America, but we reckoned wrong, for we now read of their appearance in New York. Oh, how we Americans do tody sometimes!

The low neck, no sleeves, the peek-a-boo and drop stitch are limits beyond which our imagination cannot dwell with equanimity and poise, says the Dalton (Ga.) Citizen.

The pastor of the Second Baptist church of Hoboken, in a sizzling letter denounced the sheath creation as follows:

Fashion has decreed the sheath gown a dress making so immodest an exposure of the wearer's form that any respectable woman ought to be most heartily ashamed to be seen wearing it. In the name of God, I ask—yes, in the name of purity and morality—what are our women coming to?

I believe that the way our women are dressing themselves is immodest, impure and immoral in its tendency.

Talmage and Beecher in their day spoke out against the evils of the decollete dress. All honor to these men of God. A year or two ago a rector of an Episcopal church stated that the women of his church must raise the necks of the dresses at the services. Recently a Catholic priest forbade the women of his parish to enter into the communion service until they should properly modestly dress. All honor, I say, to those men who dare to speak out against a popular and growing evil.

Let pulpit and press join with Paul in urging that "the women adorn themselves with modest apparel."

BOY'S LIFE SAVED.

My little boy, four years old, had a severe attack of dysentery. We had two physicians; both of them gave him up. We then gave him Chamberlain's Colic, Cholera and Diarrhoea remedy which cured him and believe that saved his life.—W. H. Stroling, Carbon Hill, Ala. There is no doubt but this remedy saves the lives of many children each year. Give it with castor oil according to the plain printed directions and a cure is certain. For sale by all druggists.

The Telephone Girl.

When you lift the telephone receive from the hook and ask Central for a number, do you always couch your request in a kind tone? And if Central fails to respond instantly or to understand at the first request do you always refrain from becoming irritated? Or do you in angry tones demand of Central if she has been asleep?

Go to Central office through which the conversation of your city is ceaselessly flowing—stand for thirty minutes and watch the incessant play of the tiny electric bulbs on the switchboard in front of which sits the "Central" usually a girl in her "teens," answering the demands made by the flash of the electrics, watch the girlish fingers in their lightning like flight, the hands moving with ceaseless rapidity and all the time in a sweet yet sometimes plainitive voice "Hello" goes into the telephone sometimes with a faltering cadence that almost betrays the high nervous strain under which the operator works. Two wires are connected a thousand others cry for recognition. The central girl has never a moment's leisure, strives to keep the switchboard free from the glare of an electric bulb. And yet some patrons of the telephone company become angry if a delay of a moment is experienced when they take down the receiver—say unkind things to the pretty girls at the other end of the line—things that they would not think of saying to her face—wound the feelings of the "Central" whose work demands ceaseless and instantaneous action of thought and oft times worried and irritated almost to the point of desperation rarely fails to keep her temper sweet and send the same pleasant "Hello" to you through the telephone.—Brownwood Bulletin.

Pen Points.

When money begins to talk people sit up and take notice.

With the numerous courts in session these are trying times.

The multiplication table does not satisfy a small boy's hunger.

Somehow a compliment is pleasing to a woman even when she knows it isn't sincere.

It's surprising how brave the average man is when there isn't any real danger in sight.

A girl will forgive a young man quicker for kissing her against her will than for not being interested enough to try.

When you are willing to go in debt for things you don't need, just because your neighbor has them, it's time to stop.—Chicago News.

The Jake Herring home put on its party dress Monday evening when it needless complimented the Underwood visitors, Misses Bruce and Davis of Eagle Lake and Reed of Holland. It was an evening of guesses and games, mirth and music, cake and cream, fair feminity, frocks, frills and furbelows with a dash of masculinity to give the proper deep tone to the chord in the Caprice. Mrs. Herring was well gowned in a becoming canary crepe garnished with lace and a French tone in the use of black velvet. The honorees were fetching in their dainty lingerie and lace trimmed organdies. The guests, too, seemed to have, by some subtle telepathic influence, with one accord donned their brightest and best, and the lower floor with the parlor, library, hall and sitting room open en suite, made a bright picture well worth the looking. Mrs. Herring's genial welcome to each incoming guest placed them en rapport with their surrounding, starting the evening off with a happy impetus not abated before its close. Requests for music were gracefully responded to by Misses Inez Powell, Bruce, Davis, Solomon and Mr. Wynne Lay. Score cards nominating partners for the floral contest were unique hearts tied with white ribbon, and the contest was both spirited and exciting until the correct solutions of the questions were read aloud by Mr. Ben Powell.—Huntsville Post Item.

What The Kidneys Do.

Their Unceasing Work Keeps us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys.

Mrs W. J. Putnam, living near School No. 11, Eagle Lake, Texas, says: "My husband places great faith in Doan's Kidney Pills, as he used them a couple of years ago with the best of results. Recently he again had need of a kidney remedy. His back became very lame and every effort to stoop was so painful that he had to abandon the attempt. He again procured Doan's Kidney Pills at Calvert's drug store and the contents of one box strengthened his back and disposed of the pains."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's and take no other.

His Name Was Bob.

A Paris, Texas, physician was called upon a few years ago to officiate at the birth of the fifth son in the Boone family. Now names were scarce in the old man's mind so he called upon the doctor to give the youngster an appropriate name. The doctor studied a minute, then said: "Well, the other boys have long names, suppose we call this one "Bab." Without trying the combination, the parents adopted the name as suggested. A month later the doctor got the best tongue lashing of his life from the mother carrying in her arms little Bab Boone.—Ex.
