Mr. John York fell while skating at the rink Thursday night and broke his right arm between the wrist and elbow. Dr. Robinson promptly reset the injured member and it is doing as nicely now as could be expected. Last year Frank York sustained a broken arm in like manner and it seems like the York boys are unlucky skaters, but John says it isn't so much this as it is "bum performing."

Cashier M. E. Guynn of the Eagle Lake State Bank, made us feel mighty good this week when speaking of the HEADLIGHT's high-grade job printing. We had printed him a large order of printing, a duplicate order which had been done by one of the large city printing houses. Mr. Guynn said when the city solicitor came around again last week and compared the two jobs, he admitted that the HEADLIGHT's work was far superior to that of his own house.

Coming City Election.

There are three aldermen and a city attorney to be elected at the approaching city election in April. The retiring aldermen are Messrs. Geo. W. Keith, W. A. Dallas and M. E. Guynn. While neither of the three above named gentlemen has announced for re-election the HEADLIGHT suggests that all three be elected for another term. They have made our city efficient and conservative "city dads" and we think it will be a very wise idea to retain these same gentlemen in office for another term. They are familiar with our town's wants and have many contemplated improvements underway, and should they be chosen by the people, the good work in which they have been so instrumental, will go on without an interruption, which would naturally arise should new and inexperienced men be placed in office to succeed them.

In this article it is not our intention to cast any reflections on others who might have aspirations to this office, for we have heard of no other prospective candidates, neither has it been intimated to us that either of the three is a candidate for re-election, but the HEADLIGHT for one wants them for another term if usefulness.

There is considerable talk at this time as to whether a marshal's election will be held in connection. Mr. Abe Beakes, who is now serving on appointment, is making a good officer and we believe is giving general satisfaction in his official capacity. The question that has arisen is, can a full term or does his appointment, hold good only until the next city election following his appointment? This is a question of which this paper knows nothing, and we shall not attempt to decide it. The board of aldermen is now investigating this and doubtless will give out something definite in regard to same in a day or so. This is a question being freely discussed by the voters and we are stating these facts only as a matter of news.

Two candidates have announced for the office of city attorney, the present incumbent Mr. P. P. Putney, and Mr. W. M. Williamson. Both are pleasant gentlemen and are capable of filling the office in every sense, and early indications are that the race gives promise of being a warm one.

Mr. Howard Duke was up from Glen Flora Sunday and spent the day in the city with friends and relatives and while here called at the HEADLIGHT office and renewed his mother's subscription to the paper and at the same time ordered a set of new papers for a year.

Poll Tax List For 1906.

Through the kindness of Tax Collector Febrtekamp we are enabled to give the poll tax list of Colorado county, which is as follows:

Columbus, Precinct 1.....	320
Altair.....	47
Garwood.....	183
Rock Island.....	98
Oakland.....	184
Weimar.....	475
Borden.....	56
Burscher.....	44
Shaw's Bend.....	57
Santa Anna.....	53
Brushy.....	75
Freelsburg.....	203
Mentz.....	66
Bernard.....	72
Alleyton.....	65
Eagle Lake.....	855
Total.....	2350

Total number of poll taxes collected last year was 2616, which makes a total in the county of two hundred and sixty-six polls less than last year.

Notification was received Thursday by Mr. T. W. Davis that a car of coal shipped from the Indian Territory and consigned to him at this place had been confiscated for railroad purposes. This makes the second car of coal that has been confiscated by the railroads this year while in transit to Eagle Lake. This confiscating business may be all right, and doubtless is, but in the face of the fact that fuel is needed here as badly as it is at present, it don't seem right to us. Why is it that big corporations like railroad companies can not make arrangements for their own coal, and at least allow one carload to reach Eagle Lake?

Millinery and Notions

I have purchased the millinery business of Mrs. J. D. Odum & Co and will appreciate a share of your patronage.

Mrs. O. W. Westmoreland.

Card of Thanks.

I wish to thank you one and all for your good will, influence and patronage the past year, and now that my brother, J. G. is of age, he takes charge (for himself) of the business you have so generously assisted him and me to build up. I bespeak for him success and your future support. Again thanking you all.

I remain respectfully,
B. K. TRAYLOR.

Judging from the amount of applause the company received at the opera house Tuesday night the St. Plankard performance must have delighted the large audience that was out to witness it. While there is scarcely any plot to the play, the performance is laughable throughout and as a whole it is a good show. Most every one in the cast was perfectly at ease on the stage and some of the actors were exceptionally clever. The show is deserving of a good patronage.

Our deepest sympathy is extended to Mr. and Mrs. Sam P. Damon of Smithville in the death of their little twelve months' old son, Charles Protivis, which occurred at their home in Smithville Tuesday morning. The little casket was brought here on the early Cape Belt train Wednesday morning, the funeral taking place at three o'clock in the afternoon from the residence of Mr. T. W. Davis, interment in the Masonic cemetery.

LAST—Somewhere between Eagle Lake and Lissie, about two weeks ago, a small box containing one dozen pair of heavy woolen socks, iron hooks and some other things, finder was liberally rewarded by returning same to—
J. S. ARNOLD.

Another Grand Ball.

The young men of Eagle Lake will give a grand ball at Frazier's opera house next Monday night, February 11th. The committee in charge has requested the HEADLIGHT to say that on account of the shortness in time, owing to the beginning of Lent, no invitations will be issued, but that all the dancers of Eagle Lake and of all the neighboring towns are invited to be present. In this connection they have also authorized us to say that no children will be expected. The dance will be given complimentary to the young men of the Lakeside sugar refinery and to the young ladies of this city. The committee has also asked us to say that all gentlemen attending will be expected to be accompanied by a lady, in order to prevent so many gentlemen and so few young ladies as has been the case at the two dances of the previous month. The Herb & Lewis orchestra of Houston has been engaged to furnish music for the occasion and the young men are working hard to make this dance the grandest social event of the season.

Notice! Notice!

Having sold my Eagle Lake stock of Men's furnishings to my brother, J. G. Traylor, I naturally wish to collect those outstanding accounts in order to close the 1906 books, so I respectfully ask those who are indebted to me to call and settle same with J. G. Traylor at once, he having my accounts for collection. Thanking you in advance for a prompt compliance.

I remain respectfully,
B. K. TRAYLOR.

They Got The Limit.

The open season for quail shooting was brought to a close with the first day of February, but before the season closed our popular merchant, Mr. H. Nussbaum joined the tribe of local sports and in company with Dr. Norris went out hunting on the 31st and brought home the limit—twenty-five birds, and the doctor got the same number. Mr. Nussbaum and the doctor are entitled to the blue ribbon.

Mrs. G. S. Watson left yesterday for a visit to relatives in Weimar.

Who's YOUR Tailor?

What would you think of a physician who, walking through a hospital ward, would examine the patients and then say, "Give 'em all six grains of quinine daily."

The same principle applies to the merchant who says, "All men need clothes—give them all the same kind."

Prices being about equal, there is only one way to dress correctly—our WAY. We believe that each case requires individual treatment and so our "patients" are diagnosed with a tape line and then prescribed for and their clothes made exactly as the requirements of their forms dictate.

This method means garments that have "life," "dash" and "go." Equally important it means clothes that hold the original shape that we give them—YOUR SHAPE, as long as you care to wear them.

Come in and look over the 1000 new Spring Fabrics and select your spring clothes.
