among the business visitors to Houston this week. Mr. Baughman is enthusiastic over the drilling for oil out near the lake. He is meeting with considerable encouragement in the movement and it is likely that a company will be organized to make a test drill for oil near this place. Mr. Baughman says oil people who have looked over the location state that oil prospects are flattering at the point where they expect to drill and he feels confident that oil in paying quantities will be found.

MRS. ELLA GUYNN IS DEAD

One of Eagle Lake's Most Beloved Women Buried at Columbus.

Mrs. Ella Guynn died in San Antonio Wednesday, where she had been taken for medical treatment in her last illness. She was buried in Columbus, the home of her girlhood, Thursday. The funeral services were conducted at the Episcopal church by Rev. Samuel G. Porter, Rector of the Eagle Lake church. A large number of Eagle Lake people went up on the ten o'clock train, returning on the late afternoon train. The chancel of the church was banked with floral offerings. A lovely pillow of small white flowers was from Mr. H. W. Rayner, a Harp from her sons, an elaborate wreath on which was poised a white dove from Messrs. Roberts, Peter-

list of pallbearers, those from here who attended the funeral were, Dr. and Mrs. Bruce, Mr. and Mrs. M. E. Guynn and little Virginia Guynn, Mr. and Mrs. W. C. Guynn, John Guynn, J. R. Westmoreland, W. Y., R. T. and J. C. Westmoreland, Mrs. J. W. McCarty, S. O. McCarty, Rev. J. A. Steven, Mrs. J. J. Whatley, T. J. Balhorn, Robert Johnson, H. P. Hahn, Geo. W. Keith, W. S. Strickland, Mrs. Dallas, Capt. and Mrs. Ziegler, O. J. Winterman, C. R. Barbe, O. R. Davis, Mrs. Emanuel Roos, Mrs. W. D. Walker, Miss Ruth Westmoreland, Mrs. Odom, Mrs. W. K. Frazar, Mrs. Emma Pat-ney, and others whose names we failed to note.

Mrs. Guynn was one of the most universally loved women of Eagle Lake, and we regret that owing to the nearness of our press hour that we are not able to give a complete obituary but same will be printed in next week's paper.

To the three heart-broken sons, Milby E., John A. and Cleveland, this paper extends its deepest sympathy in their hour of sore affliction, in the removal from this earth their dearest and sincerest friend, their mother.

A Shameful Disappointment

The county fair managers had advertised they would give one hundred dollars to any young couple that would consent to marry in the band stand when the festivities were at their best. An old maid of about thirty-four made her appearance at the appointed time.

"I'm ready," she said simply.

"Fine!" answered the head promoter. "You get the one hundred dollars. Where's the bridegroom?" She looked crestfallen.

"Oh, I thought you supplied the man," she said. "In fact that's what made the proposition so interesting to me."

Was in the Team

The smoking car was so dull that when the stout man produced a bottle his seat mates—three of them—smiled in joyous relief.

"Who's gotta corkscrew?" he demanded.

Nobody responded. The stout man looked around. Across the aisle was a thin person in a shabby black suit and a white tie. He was reading, in a short-sighted way, a gilt-top volume with a limp cover.

The stout man leaned forward.

"Betch a tenner th' parson has a corkscrew," he hoarsely whispered.

"Done," said the man with the gray side whiskers.

The stout man leaned across the aisle.

"Beg pardon," he said, "but have you such a thing as a corkscrew about you?"

The man with the white tie hesitated. For a moment he seemed pained. Then he flushed a little and, reaching down into his pocket, drew out the article they wanted.

Ten minutes later the stout man said he was going back to look for a friend. At the next station the white-tie man gathered up his goods and chattels and left the car. Then came the conductor.

"Did Fatty Frost and 'the parson' show you any of their team work?" he laughingly asked.

"Team work!" echoed the side-whiskered man.

"They're the cleverest swindling pair in the country," said the conductor, and passed on.

There were great clusters of lillies and of violets, a lovely crescent, a cross, and indeed there were too many to be reported accurately. Mr. and Mrs. Wm. Green, Mrs. J. J. Whatley, Mr. W. A. Among the telegrams was one from Mrs. Mollie Connor Cook, "Deepest sympathy to all; telegram received too late to come."

From Hamman, Dunn & Corley, Houston, "Have just heard of your bereavement and desire to express to you our sincere sympathy and consolation."

From Beverly D. Harris, Houston, "All friends join me in expressions of sorrow and sympathy for you in the loss of your beloved mother."

Look Suspicious

A banker in central Kentucky was in the habit of wearing his hat a good deal during the business hours, as in summer the flies used his bald pate for a parade ground and in winter the cold breezes swept over its polished surface. A negro workman on the railroad each week presented a check and drew his wages, and one day, as he put his money in a greasy wallet the banker said:

"Look here, Mose, why don't you let some of that money stay in the bank and keep an account with us?"

The darkey leaned toward him, and, with a quizical look at the derby the banker wore, answered, confidentially:

"Boss, I'se fes' afeared. You look like you was always ready to start somewheres."

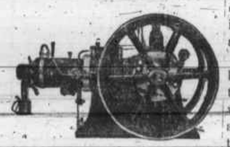
The Muncie

Crude oil engine makes good in Arkansas rice fields.



The following is copied from the "New Era" of DeWitt, Ark. It sounds like an advertisement, but in reality was inserted by Mr. McKuskey, who is so enthusiastic that he wants all of his neighbors to know of this wonderful engine.

"The above power operator is one of the most successful pumping plants in the county, located on the Walton farm, 2½ miles south of DeWitt. Although only 40 h. p., this machine puts out a full pipe of water 24 hours in the day and every day in the week, caring for 220 acres of rice. The season just closed in a first class manner. It operates on practically half the volume of fuel required by other internal combustion machines and uses a low grade of oil, which costs less than half the price of naptha. The longest run made during the season just closed was 516 hours without missing an explosion, throwing a continuous stream which varied between 1100 and 1200 gallons per minute, and consuming between 3½ and 4 gallons of low grade oil (32 degrees gravity at 4 cents per gallon) per hour.

The machine is very simple in construction and although it has pumped as much water as 50 and 60 horse power machines on neighboring plants, it has gone through the season without any of its working parts being taken apart or one cent expense for repairs."

The Muncie is the most simple, most reliable and most economical engine built today.

Most Simple

Because it has no elecrical equipment, carburetor, inlet or exhaust valves, gears noa cam shafts to get out of order. Absolutely the only mechanically operated parts are the governor and the fuel pump.

Most Reliable

Because 90 per cent of the source of trouble in the ordinary gasoline engine have been eliminated.

Most Economical

Because it runs on crude oil costing less than 4c per gallon, instead of solar oil at 10c or naptha at 16 cents.

The saving in fuel will pay for this engine in less than 6 months continuous operation. Give us a chance to prove these statements.

Mrs. Nickels Entertains

Mrs. Emma Nickels entertained in a most hospitable way with a week-end house party at the beautiful country home of the Dorman's, the occasion being Mrs. Dorman's (her mother's) birthday.

The plans were kept a secret from Mrs. Dorman, and little did she dream of what was going on till the guests began to arrive.

The Dorman hospitality is known throughout this section of the state and the house party was simply a return of the pleasant days that have been spent on the old Southern plantation.

Friday, the honoree's birthday, a bountiful repast was served, consisting of turkey, chicken, Waldorf salad, roast pork, cream potatoes, asparagus tips, French rolls, sweet pickles, salted pecans, Melange Marie Antoinette, whipped cream, gelatine, fruit cake, angel food and coffee.

Those present were Mesdames Sallie Lott, Emma Putney and E. A. Toliver of Eagle Lake; Mesdames O. S. Gibson and E. L. Stone and little Wesley Stone of Lane City; and Mesdames Hood, Jessie Burford and Eddie Dorman of Glen Flora.—Wharton Spectator.

Mr. I. Nathan of Marlin was here the early part of the week visiting the family of his brother, Mr. J. Nathan. Mr. Nathan is a prominent and successful business man of Marlin. He has often visited Eagle Lake and has made many friends among the people here, who are always glad to see him.

Quick relief may be had by applying Chamberlains Salve. It allays the itching and smarting almost instantly. Many cases have been cured by its use. For sale by all dealers.—Adv.

Messrs. W. O. Prewitt and Walter Adams left Sunday afternoon for Dallas to attend the Woodman of the World convention in session in that city, they being delegates from the Eagle Lake lodge.

Dr. W. W. Lott came in the first of the week from Columbus and is spending a few days in the city visiting his mother, Mrs. Sallie Lott, and sister, Mrs. E. A. Toliver.
