114 Rice Seniors Graduate Before Overflow Crowd Mon.

One hundred and fourteen Rice High School seniors in the Class of 1976 completed their high school careers Monday night when they received their diplomas at the annual Commencement Exercises held in Raider gymnasium. An overflow gathering of nearly two thousand persons was on hand for the impressive ceremonies.

Members of the graduating Class entered the gym while Miss Brenda Kallina, a member of the Senior Class of 1977, played the processional. One of the class honor students, Miss D'Ann Daxi sang, "Sunrise, Sunset." Rev. Jerry Scott, Pastor of the First Baptist Church, gave the opening invocation.

Salutatorian of the class, Miss Phyllis Korenek, reminded the class members and audience that the day was to be a memorable one for the class members noting "graduation is one of the first major accomplishments of life."

She extended thanks in behalf of the class to the parents, the teachers, administration and friends for the assistance and guidance that led the class to this day.

Miss Korenek added that graduation during the Bicentennial year offered special challenges. "Let's help America to continue the progress that it has had in the past two hundred years," she challenged the class members, adding "We have been well prepared to take our place in life and to make a contribution to our country and to our fellowman." She concluded by noting that the "Moment is temporary, but the memory forever."

Members of the class sang the class song, "Lean on Me" accompanied by Miss Beryl Shorter, member of the class.

In the valedictory address Miss Cynthia Berger told the class members to look to the future with thankful hope, urging them to use their abilities to the utmost as they make their place in life.

She commented that while many people are worried about the future because of an unpredictable attitude on the part of youth, this is not so. "Today's youth are preparing well to take their place in leadership roles in this great country," she said.

Miss Berger also extended thanks to all who have guided the class members in their school education and formed a strong foundation for their future endeavors.

After Rice High School Principal Fred Grahmann certified the candidates as completing all requirements of the State Agency and the Rice District, Superintendent E. A. Krivacka called the roll of graduates as Mrs. James H. Clipson, Jr., president of the Rice Board of Edueation, presented the diplomas to the respective graduates.

After singing the Rice Alma Mater, accompanied by honor student Miss Sheryl Smith, Miss Mary Jo Spanihel, also an honor graduate, gave the closing benediction.

The recessional was made to music provided by Miss Kallina at the piano.

Ushers, seniors in the Class of 1977, included: Thomas Carter, Sherry Fajkus, Al Mahalitc, Frankie Rodriguez, Judy Spates, Monica Hoff, Gertson, Pam De La Cruz, and Virginia Scott.

Values of Homes Continue Rise

Families in Colorado County are finding that the homes they own are much more valuable than they had imagined. Many of them are worth more than twice as much as they paid for them.

Their value has gone sky-high because of inflation and because the demand for homes, now that the economy is improving and mortgages are easier to obtain, has risen sharply. In many areas they are in short supply because there has been very little construction for several years.

An official of the American Savings and Loan Association reports that prospective buyers are out in such force in some communities that they are outbidding each other for whatever is available. Prices are shooting up as a result.

The equity that Colorado County residents have in their homes, over and above the mortgage debt on them, is now approximately $39,115,000 and is rising steadily. The figure applies to one-family, non-farm dwellings that are owner-occupied.

The facts and figures on the housing situation, locally and elsewhere in the United States, are based upon data gathered by the Department of Commerce, the National Association of Home Builders and others.

They show that the average price in the United States of a new single-family house has gone from $37,900 to $42,300 in the past year alone. For used properties, the jump has been from $33,850 to $37,200. In some areas prices are higher than these and, in others, lower.

In Colorado County the increase has been considerable since 1970. At that time the median value of the 4,239 local dwelling units was $8,900 and their total value, $37,727,000, according to the Census Bureau.

The current value of one-family homes in the area, applying the average rate of increase locally, comes to approximately $81,490,000.

Summer Reading Program Begins At Sheridan

Monday, May 31st at 10 a.m. Mrs. Reinhardt will instruct readers in school grades one and two. Mrs. Fred Grabmann will be working with Mrs. Reinhardt on Monday. Friday, June 4th at 10 a.m., Mrs. Reinhardt, assisted by Mrs. Jerry Coble, will work with students of the third and fourth grade level.

There will be a required amount of books to be read by those participating in the summer reading program. Those completing the specified number will qualify for a certificate issued by the Texas State Readers Club. All are urged to attend these weekly meetings and be a part of the readers program.
