

Wear Good Clothes

and you will wear the very best when you wear the

Alco System Clothes.

Alco Clothes are hand tailored. They are superior to any grade of clothes on the market. We have just gotten in this week a full and complete shipment of Alco system Clothes. Come in and inspect our large and elegant line of clothing.

We have the blues and greys in handsome suits and these are the prevailing colors for spring and summer wear. We can fit you. Our line of clothing includes all sizes and all styles to fit all forms. The Alco system of Clothes are made to fit and to wear.

B. H. DAILY.

Letter From the People.

It seems to me that both the democrat and republican parties are evading one of the most important questions of the needs of the people of our country. Why the republicans ignore it we can understand, dominated as the party is, by the national banks, but why the democratic party has had so little to say in regard to it and has never referred to it in its platform has long been a puzzle to me, unless as a green backer said to me one day speaking of another question, "Yes, of course, what you say is true and all that but it would not be good policy to spring it now. I refer to postal savings banks.

Did you ever stop to consider, Mr. Editor, the vast sums of money that are kept out of circulation and hidden away in dark corners by people who are afraid of banks and who cannot lend it on such security as would suit them? It has been said that if the extra session of congress called by Grover Cleveland to repeal the Sherman bill, had enacted a law establishing a system of postal savings banks, it would have put twice as many dollars in circulation as did the sale of the two hundred and sixty million dollars worth of bonds then issued. Our government, nor the national banks do not provide any security for the money placed in our banks as has been demonstrated by the millions of dollars lost in bank failures every year when thousands of our honest toilers, both men and women, see the slow accumulations of their hard earned dollars wiped away by the rascality of one or two men.

For this reason people are

afraid of banks, and the distrust similar to which have proved is rapidly growing, and today of such infinite benefit to the nations of New Zealand, etc. No one other issue would bring us more votes from the great independent class at least. Letters from the people in the Commoner.

Don't be Afraid of Work.

"I am not going to work myself to death for anybody."

We have heard this assinine expression so very often from peevish, self-lying men and women that we have come to lose a rainy day if it should come, or if not to build a modest home or secure them against want when disease or old age should come instead of becoming burdens to their children or the state. While it seems to me that those who are financially interested in national banks would see the necessity of providing some such security as would have been furnished by the bill offered by Mr. Bryan while a member of congress, and showing that they would be more than compensated by the vastly increased deposits that would flow into their vaults if people who have money to deposit it knew there was no danger in losing it through a bank failure. However, it appears as if this side of the question had never entered their minds. Even now, I believe this security alone, if they would furnish it to the people would solve their question with no other provision for an elastic currency. However, the people need not hope for relief from that source. Then why should not the Commoner take up the fight and see that the next national democratic platform contains a demand for the establishment by the government of a system of postal savings banks.

Continued and conscientious individual effort never fails to attract notice.

Don't be afraid of hurting yourself with work. You can and will hurt yourself by allowing yourself to rust. Fort Worth Telegram.

Trades That Cure.

"Oil workers are never bald

Visit our oil regions or those of Russia; examine the workmen's hair. It is soft and thick and glossy. For petroleum cures baldness, and if your hair is thinning, rub some in. Never mind the smell. It will do you good."

The speaker, a druggist, went on earnestly.

"Shepherds enjoy remarkable

health. The odd odor of a sheep seems to drive away disease. Sheep are especially good for whooping cough. In the sheep country, when a child takes whooping cough, it is the custom for the mother to put it to play among the sheep, and the next day it is well.

If he would decrease his whining capacity and increase his steam pressure, he wouldn't have to do a lick of work for anybody,"

The man who is afraid to do a little more work than he was hired to do is the man who never rises higher than his job. With jealous eyes he sees young, energetic fellows step over him, and asks where they got their pull.

They got their pull from their steady push.

The men and women who work among lavender, gathering it or distilling it, never have neuralgia or nervous headache. Lavender, moreover, is as good as a sea voyage for giving tone to the system. Run down persons often work for nothing in lavender plants in order to build themselves up.

Salt miners can wear summer clothes in blizzard weather without fear of catching cold, for colds are unknown among salt workers.

Breweries and tanneries and printing and factories, bar out locomotion into motion. A little extra exercise on the part of an insignificant clerk in a big corporation may lead to gigantic re-

The Hen and the Editor.

A hen sits on her nest and lays eggs. An editor sits on his office chair and lies in his paper. The hen cackles after she has laid a good fresh egg, the editor cackles about what he intends to do, but seldom does it. Sensible hen. The hen scratches for a living; so does the editor. The hen hatches chickens that come to some good; most editors hatch schemes that never amount to anything. The hen presents her bill when she wants something and gets it in the craw; the editor presents his bill and gets it in the neck. The hen has a comb which she doesn't use; the editor may have a comb and he may use it sometimes, but not always. The hen is a high-flier; the editor is too sometimes. The hen broods and raises a large family; the editor broods over how he is going to raise the large family he already has. The hen is a rooster when she sleeps; that's queer; the editor is a queer rooster all the time. The hen often gets cooped; the editor gets scooped, too. Sometimes the hen grows; the editor crows almost all the time, but no one ever knows why. El Campo Citizen.

DONT SCRATCH HOPPER'S TETTER CURE.
CURES ALL SKIN TETTER, HAND, FOOT AND SCALP TROUBLES, DEATH TO RED BUG, SURE CURE FOR DANDRUFF.
Crown Fine Linen Filled Handkerchiefs, six for **25c.**
