PAIN

Pain in the head—pain anywhere, has its cause.
Pain is congestion, pain is blood pressure—nothing
else usually. At least, so says Dr. Shoop, and to
prove it he has created a little pink tablet. That
tablet—called Dr. Shoop's Headache Tablets—
cures blood pressure away from pain centers.
Its effect is charming, pleasingly delightful. Gently,
though safely, it surely equalizes the blood cir-
culation.

If you have a headache, it's blood pressure.
If it's painful periods with women, same cause.
If you are sleepless, restless, nervous, it's blood
congestion—blood pressure. That surely is a
certainty, for Dr. Shoop's Headache Tablets stop
it in 20 minutes, and the tablets simply distribute
the unnatural blood pressure.
Bruise your finger, and doesn't it get red, and
swell, and pain you? Of course it does. It's con-
gestion, blood pressure. You'll find it where pain
is—always. It's simply Common Sense.
We sell at 25 cents, and cheerfully recommend
