EAGLE LAKE, TEXAS.

A Narrow Escape.

About 10 o'clock Thursday night, just after the close of the band concert and before the majority of those who attended had reached their homes, the fire alarm was given, the fire being at Paschall's meat market, a frame building on the south side of Main street, two doors below Brosig's saloon. The cause of the fire is unknown, but the supposition is that it originated in the engine room in the rear of the building. The fire company was soon upon the scene and the boys did heroic work. All the inside of the building was blazing, as is shown now by its charred condition, but the gallant fire boys rushed into the burning building with the hose and soon had the fire under control. When the alarm was turned in the water pressure was in the neighborhood of 40 and in ten minutes' time the pumps at the standpipe were going at full speed and the pressure registered 90. The fire company did gallant work and had it not been for their timely arrival and our city waterworks, most of the business portion of Eagle Lake would now be in ashes, for at the time of the fire a strong south wind was blowing and as the fire was right in the midst of the frame building district it would have been impossible to keep it from sweeping the town. The building in which the fire occurred is the property of Mr. Oly Davis on which there was no insurance, and the damage done by the fire is quite a loss to him. Mr. Paschall had \$1000 insurance on his fixtures and tools, \$500 in the German of Freeport and \$500 in the Union Assurance.

Had the fire occurred later in the night it might have resulted seriously. The street was thronged with people, men, women and children, who had not yet gotten home from the band concert. Too much cannot be said in praise of the fire boys, and but for them Main street would now be in ruins. Three cheers for our fire company!

Money in Potatoes.

The planters of Simon on this year made an experiment of planting Irish potatoes and 550 acres in that vicinity were planted in potatoes, and the outcome has surpassed even their most sanguine expectation. We were shown a sample of the potatoes brought here from that place Wednesday and they were the finest we have ever seen. The yield, so we are reliably informed, averaged 125 to 175 bushels per acre and sold from 75c to \$1.00, and the last sale was made at 87c. The potatoes were shipped to Cincinnati, Indianapolis, St. Louis, Topeka, Kansas City and Fort Worth. During the season seven buyers have been at that place and have paid cash for their purchases. Ninety-three cars have been shipped from that point and about forty more carloads will be shipped. The seed used by these planters were one-half Red River Dakota Triumph.

Next Confederate reunion will meet at Birmingham, Ala.
