#### A Big Success.

The barbecue on the 4th was a success in every way. People came from everywhere and the crowd on the picnic grounds was estimated at nearly four thousand.

The parade, consisting of a large number of floats and a number of decorated vehicles, led by the band wagon and followed by the fire company, formed at the school house and marched to the grounds. Upon arrival at the grounds Mr. H. W. Carothers delivered the address of welcome after which the tournament was run, in which Mr. Jim Hopkins of Garwood won first prize, Nat Matthews of Matthews, second and A. M. McDow, third.

After the tournament was over came the barbecue dinner. The meats had been prepared by Messrs. J. W. Thatcher, Gray Payne and J. T. Vick and were cooked in a most tempting style. There was plenty to eat and every one seemed to enjoy the dinner.

The first thing after dinner was the gun shoots. In the first shoot Mr. G. Y. Morgan won the first prize, making ten straight; in the second shoot Mr. John Guynn carried off the honors with a record of ten straight; and in the third shoot Mr. Morgan again captured the prize with another ten straight "dead birds."

At 4:30 o'clock the base ball game between Eagle Lake and Alvin was begun and resulted in an overwhelming defeat for Alvin by a score of 9 to 0. Scurry Peebles was in the box for Eagle Lake and made the pitcher's record of the local diamond, getting eighteen strike-outs to his credit. Dancing was indulged in all the afternoon and until after 12 o'clock at night.

Everything, including the ball at night, was free. Everything passed off quietly. There was no rowdiness exhibited on the grounds and the splendid manner in which the large crowd was entertained and the pleasant manner in which the program was carried out was the general comment of all present. Eagle Lake did herself proud on the glorious Fourth!

If the lake could be fixed up nicely, pumped full of water and kept full, it would be the biggest drawing card Eagle Lake could have. There is a move on foot to make a park, and surely there is no prettier spot than the lake for such. It would make an ideal park and nature intended that it should be one.
