Card of Thanks.

To our dear, sweet friends who came so nobly to us in the hour of our deepest trouble. There has come to us a time, when, in trying to express our gratitude, words seem so shallow. Mayor Strickland requests the HEADLIGHT to state that every ordinance on the city's ordinance book is going to be strictly enforced, and that some of our citizens get into trouble before they know it, they had better look in to the city's laws. There is a law requiring the merchants to have a barrel or box at their place of business for waste paper etc., and it is against the laws of the city for any person to throw paper on the streets.

Another of the city's ordinances prohibits the hitching of horses, mares or mules along the sidewalk on Main Street or on either side of the square along the sidewalk. These two laws are violated every day, but hereafter both are going to be strictly enforced, so those of you who have been in the habit of throwing or sweeping trash out the back door, and those who have been accustomed to riding or driving up to a store and hitching in front of same had better be careful in future.

Is your business going to be represented in the HEADLIGHT's special edition? Don't neglect the matter, but attend to it now, for if you are not in it you'll regret it after the paper is issued.

During the summer kidney irregularities are often caused by excessive drinking of being overheated. Attend to the kidneys at once by using Roney's Kidney Cure. Sold by Eagle Lake Drug Company.

Some person shot the fine bird dog of John Guyon this week. The penitentiary is too good for any man who is low down enough to shoot or cripple in any way a fine, harmless registered bird dog.

Plowin' Pays.

S. W. Minnough says plowin' in dry weather pays. That he knows by experience and observation. One renter plowed his cotton crop nine times, and across the turn row, cotton planted in same ground under exactly same conditions except the last was not plowed so much. The much plowed land will make over 1 of a bale to the acre while the scanty plowed land won't make a half bale. We say so too.—Richmond Coaster.
