NUMBER 25.

Last Sunday's San Antonio Light contained a picture, "Trio of stars in the football limelight at the Texas State University." Among the trio was a fine like who is captain of the Varsity team. In commenting, the Light says: "The figure on the right is one of the fastest ends and best captains that has ever been on Clark field. He is 'Little' Bowie Duncan, brother of the famous 'varsity end and Captain Vance Duncan of the 1902 team. Duncan received his early training on the West Texas Military Academy team in 1902, and from there he went to Bingham, where he played for two years. He entered the university in 1905 and has played for two years in every game on Clark field. Another exception was made in selecting the all southern the last two years, when Duncan was placed at right end, even over the famous Bob Blake of Vanderbilt."

The revival services, being conducted by Rev. William Mundy at the Christian church the past week have been well attended considering the close, sultry weather. Rev. Mundy is not an eloquent or oratorical minister in that sense of the word, but he is a man who uses plain, everyday language, talks easily and sincerely, and whose thoughts flow smoothly, making his discourses interesting, entertaining and at the same time convincing. It is a pleasure to hear him, and those who are not attending his services are missing a treat. His presence here seems to have had the desired effect in arousing the local Christian congregation, for the church is being re-organized.

Several members of that faith have handed in their church letters and the rite of Baptism has been administered to three. Mrs. Emma Nance, daughter of Ed. better and Will Riemenschneider, Rev. Mundy will close the meeting Friday night, and an earnest, sincere invitation is extended all to attend these two last nights. —Hallettsville Herald.

IS THE PRICE OF LUMBER TOO HIGH?

If you'll study the above picture carefully, and do a little figuring, you can't help seeing that lumber is no higher, relatively, than farm products, labor and merchandise of all kinds.

Would you like to go back to the hard times of 1897, just so you could buy lumber cheaper? You were probably kicking then because prices were so low. Now that prices are up, and YOU can get decent prices for what YOU have to sell, surely you don't want another dose of "1897 prices" to strike the lumber business? BECAUSE WHEN THEY DO, THEY'LL CATCH YOU, TOO.

You can build just as economically today as you ever could, or ever can, because when lumber prices go down, you can bet your last nickel that WELL ALL GO DOWN TOGETHER. So don't foolishly put off building till you can buy lumber cheaper, but go ahead and build. You'll not save a cent by waiting. Let us make you an estimate on that bill.
