You Are Going To Buy Clothes This Fall.

You'll thank me many times if I am the means of your being more comfortably and stylishly dressed without causing you to spend any more money than you now spend.

Most people think the shrinking of the woollens is what makes a garment hold its shape. This is wrong. The shrinking of the cloth is as necessary in making a suit of clothes as needle and thread. All makers of clothing, whether of ready-made, shelf clothing, or fine custom tailoring, shrink the woollens. And they all shrink them just alike... with steam.

But very few shrink the canvas and haircloth --- why? Because it adds to the cost of making a garment and does not show on the outside. But leaving the canvas and haircloth unshrunk is the direct cause of coat fronts sagging, puckering, twisting and breaking --- because if these are not shrunk before being put into the coat they begin to shrink themselves the first damp or rainy day. Of course this leaves the outside of your coat bigger than the inside, and naturally you become disgusted with your clothes soon after you buy them.

We shrink our canvas and haircloth just the same as we shrink the woollens. It costs us more to do this, but it pays big dividends because it makes our clothes last longer. We personally guarantee our coats to hold their shape until worn out --- no matter if you wear it three or four years, if a coat of our make loses its shape we'll make another free of charge. This is something to say of tailoring service --- its the way we guarantee all our tailoring, and its the kind of insurance you want.

We do not charge anything more for a suit or overcoat because of the extra expense and care we use in tailoring. This is taken care of by the large volume of business we do. Our prices are \$15.00 to \$45.00 for suit or overcoat made to your own measure. We have just received our new Fall and Winter Line of Samples. We want you to see them. They are beautiful --- the best and prettiest we have ever had.

TRAYLOR The Tailor and Gents' Furnisher

"To be glad of life because it gives you the chance to love and to work and to play and to look up at the stars; to be satisfied with your possessions, but not contented with yourself until you have made the best of them; to despise nothing in the world except falsehood and meanness, and to fear nothing except cowardice; to be governed by admiration rather than by your disgusts; to covet nothing that is your neighbor's except his kindness of heart and gentleness of manners; to think seldom of your enemies, often of your friends, and every day of Christ; and to spend as much time as you can, with body and with spirit, in God's out-of-doors; these are little guide-posts on the footpath to peace."--Henry Van Dyke.

GRANULATED SORE EYE (URID). "For twenty years I have suffered from a bad case of granulated sore eyes, says Martin Boyd of Henrietta, Ky. "In February, 1903, a gentleman asked me to try Chamberlain's Salve. I bought one box and used about two-thirds of it and my eyes have not given me any trouble since." This salve is for sale by all druggists.

WHAT IS BEST FOR INDIGESTION? Mr. A. Robinson of Drumquinn, Ontario, has been troubled for years with indigestion, and recommends Chamberlain's Stomach and Liver Tablets as "the best medicine I ever used." It troubled with indigestion or constipation give them a trial. They are easy to take and pleasant in effect. Price, 25c. Samples free at all druggists.

TO RAISE SALARY. One of the amendments to be voted on at the November election is one proposing to raise the Governor's salary from \$4,000 year to \$8,000. This amendment will likely come about as near carrying as the one voted on last year to raise the salary of county Representatives. No use to raise the salary of an office as long as men wait it at the present salary, and want it bad enough to pay \$10,000 for it. Clarksville Times.

SHE LIKES GOOD THINGS. Mrs. Chas. E. Smith, of West Frankfort, Maine, says: "I like good things and have adopted Dr. King's New Life Pills as our family laxative medicine, because they are good and do their work without making a fuss about it." These painless purifiers sold at Calvert's drug store. 25c.

For a good every day house hold angel, give us a woman who laughs. Home is not a battlefield, nor life one long unending row. A trick of always seeing the bright side, or, if the thing has no bright side, of shining up the dark one, is a very important faculty and one of the things no woman should be born without. We are not all born with the sunshine in our hearts, as the Irish pretty phrase it, but we can cultivate a cheerful sense of humor if we only try. Exchange.

When certain of the ants hear a Sunday school singing "Perfect Submission" they take it for a state convention at San Antonio. Galveston News.

"Mr. B --- is making a great speech," said a countryman to the bored counsel.

"Oh, yes; Mr. B --- always makes a great speech. If you or I had occasion to announce that two and two are four, we'd be just fools enough to blurt it out. Not so Mr. B ---. He would say: 'If by that particular rule known as addition, we desire to arrive at the sum of two integers, we would find I say it boldly, sir without the fear of successful contradiction--we, I repeat, should find by that particular arithmetical formula before mentioned--and, sir, I hold myself perfectly responsible for the assertion I am about to make--that the sum of the two given integers added to the other two integers would be four.'--Tid-Bits.

"Mrs. Brown Scored." Brown had spent a jolly evening, one of many, such--at the club. His usual excuse on arriving home after these late nights was "Overtime again; business very pressing," which excuse, he could not fail to see, was received with a certain amount of dubiousness by his better half.

"On this occasion, however, Mrs. Brown was very sweet and sympathetic, waited on him and anathematized overwork and exacting employers. Brown could not quite understand it, but congratulated himself that he lulled his wife's fears to rest.

He arrived at the office in good spirits next day, and was presently called into the manager's room. This individual was holding an open letter in his hand.

"Were you working overtime last night?" he asked.

"No, sir," was the reply. "Been working overtime much recently?"

"No, sir."

"Then," said the manager, with a twinkle in his eye, as he handed Brown the letter, "perhaps you will reply to this letter of complaint from your wife."

Brown has not been to the club much lately.
