A TRAVELING MAN'S EXPERIENCE.

"I must tell you my experience on an East bound O. R. & N. R. train from Pendleton to LaGrande, Ore." writes Sam A. Garber, a well known traveling man. "I was in the smoking department with some other traveling men when one of them went out into the coach and came back and said, 'There is a woman sick unto death in the car.' I at once got up and went out, found her very ill with cramp colic, her hands and arms were drawn up so you could not straighten them, and with a deathlike look on her face. Two or three ladies were working with her and giving her whiskey. I went to my suit case and got my bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I never travel without it. I ran to the water tank, put a double dose in the glass, poured some water into it and stirred it with a pencil, then I had quite a time to get the ladies to let me give it to her, but I succeeded. I could at once see the effect and I worked with my rubbing not hands, and in ten minutes she was another person. By this time we were almost to LaGrande, where I was to leave the train. I gave the bottle to the bus conductor to be used in case of an emergency should be needed, but by the time the train reached LaGrande she was all right, and I received the thanks of every passenger in the car. I have sold by all druggists."

Where to Put Her Feet.

A teacher was instructing her class, and a certain girl called Jane had tried her patience many times, and when the teacher looked up and saw the little girl chewing sweets with her feet sprawling over the form, her desk she said: "Jane, last that sweet out of your mouth and put your feet in."

PAVING INVESTMENT.

Mr. John White, of 28 Highland Ave., Guilford, Maine, says: "I have been troubled with a cough every winter and spring. Last winter I tried many advertised remedies, but the cough continued until I bought a 50c bottle of Dr. King's New Discovery, before that was half gone, the cough was all gone. This winter the same happy result has followed; a few doses have banished the annual cough. I am now convinced that Dr. King's New Discovery is the best of all cough and lung remedies." Sold under guarantee at Calvert's drugstore, 50 cents and \$1.00. Trial bottle free.

"I suppose John is still taking life easy," said the woman in the spring wagon.

"Yes," answered the woman who was carrying an armful of wood. "John has only two regrets in life. One is that he has to wake up to eat, and the other is that he has to quit eating to sleep."—Washington Star.

FOR A SPRAINED ANKLE.
A sprained ankle may be cured in about one-third the time usually required by applying Chamberlain's Liniment freely, and giving it absolute rest. For sale by all druggists.

To Cook Steak.
Procure a nice cut of round steak, beat it well, cut in suitable pieces for serving salt and pepper each piece. Make a paste of flour and water, salted; cover each piece of steak with paste, then roll in dry flour to cover completely. Fry brown in deep fat. Make a nice gravy. Serve with mashed potatoes.

Nothing but the Truth.
"Human sympathy," remarked the home-grown philosopher, "reminds me of the early strawberry box."

"What's the answer?" queried the very young man.

"The bottom of it is very near the top," answered the philosophy dispenser.

"An acre is 6,272,640 square inches. An inch of water on an acre is therefore 6,272,640 cubic inches. That amount, at 227 cubic inches to the gallon, equals 22,000 gallons; or 220,000 pounds, or 110 tons."

"An inch of rain is in other words, rain falling at the rate of 100 tons to the acre."
