The Literary and Civic Club met with Miss Ruby Watts on the 17th of December, having as guests Mrs. Travis Smith and Mrs. Batt Smith of Bay City. Tempting refreshments of cake and gelatin were served. During the business part of the meeting, it was moved and carried that a fine of ten cents be imposed upon each member arriving late, and twenty cents upon each member being absent without having sent in her regrets to the hostess. The report from the piano fund was very encouraging. On March 3, a prize will be given to the boy or girl raising the largest amount of money to pay for the piano that will then belong to the school. At present, there are six girls and two boys in the race, and they should find no difficulty in securing from our people promises of one cent a day for three months for such a laudable object. The next meeting will be with Miss Fannie Williamson. (The above report was sent in for last issue, but as we issued no paper last week, the article was held over for today's paper.—EDITOR.)

High Grade Tailoring.
Only good tailors are real tailors. Their garments are always distinctive. They bear the stamp of craftsmanship. They are never extreme, never exaggerated. Merchant tailoring is a trade which is an art. The impulse which leads men to prefer an original painting to a lithographed reproduction will always keep merchant tailoring rooted to its place of leadership. It cannot be displaced except by a logical substitute, something which up to now has not appeared.
Geo. Redford,
Merchant Tailor.
