"An' dear ole Massa; how he did love his pipe! I hopes he am well, Missus."

"Alas! he has been dead ten years," answered her old mistress, sadly.

Large groves are being planted in many localities by the old settlers. The Nurseryman and Horticulturist especially recommend our prairie soil with its rich, clay subsoil for this fruit. These trees are recommended to stand a freeze or temperature of 10 degrees above zero without receiving injury. The fruit is very choice. The trees are ornamental. Orange blossoms are nicer than roses. They add beauty, comfort and value to every city or farm house. Every family in the city or country who owns their own home, should have at least half a dozen of these fine fruit trees and One or two Dooderose Lemon trees. I have a few Satsuma trees that I am offering for sale. Anyone interested should call at my house at once.

Among the lands offered for sale by our company, we call espe attention to the following:

80 ACRES well drained black sandy prairie 2½ miles from Eagle Lake, creek crosses one corner, graded wagon road along one side. No improvements. Price, $16.00 per acre.

160 ACRES 2 miles from Chesterville. Water for rice irrigation guaranteed. Level except 25 acres along a big creek which affords best drainage. Price, $25 per acre; usual terms.

Serving Watermelon.

Many hostesses refuse to use watermelon on any except informal family occasions. They say it is too sloppy and hard to serve.

Certainly the old way of serving was not dainty. The whole watermelon was brought to the table on a large waiter and was cut with the carving knife into hunks or segments.

Nowaday the rind does not make an appearance. The heart of the melon is cut into regular shaped pieces about five inches square and two and one-half inches thick. These are heaped in a low cut glass or colonial dish have bits of ice scattered over the top, and sprigs of geranium leaves or any bright green foliage tucked in the edge.

A salad fork or an asparagus fork is passed with it for serving.

This method of preparing watermelon is not only attractive to the eye, but makes the melon much more convenient to eat.

DON'T TAKE THE RISK.

When you have a bad cough or cold do not let it drag along until it becomes chronic bronchitis, or develops into an attack of pneumonia, but give it the attention it deserves and get rid of it. Take Chamberlain's Cough Remedy and you are sure of prompt relief. From a small beginning the sale and use of this preparation has extended to all parts of the United States and to many foreign countries. Its many remarkable cures of coughs and colds have won for it this wide reputation and extensive use. Sold by all druggists.

A METHODIST preacher, Dr. E. W. Alderson of Terrell, took the prize on Golden Wyandotte chickens at a recent poultry show. It is fit. It also shows that preachers of Methodist persuasion can raise 'em as well as eat 'em.—Galveston News.

Very few of Miss Mary's Eagle Lake friends at first recognized her, for when she left Eagle Lake she was only a small girl and now she returns grown into a beautiful young lady.
