## W. J. WRIGHT

Sealy, Texas, January 11.—M. C. Michaels, section foreman on the Cane Belt railroad south of Sealy, dreamed about two months ago that a new railroad would be built near the Bernard river. On going out the next morning he found the rail broken just as he had dreamed the night before, and last night he had another dream that another rail was broken, and going out this morning found his dream to be true. However, the rail was within less than a mile of the place he dreamed it was.

## Crying For Help.

Lots of it in Eagle Lake But Daily Growing Less.

The kidneys cry for help. Not an organ in the whole body so delicately constructed. Not one so important to health. The kidneys are the filters of the blood.

When they fail the blood becomes foul and poisonous. There can be no health where there is poisoned blood. Backache is one of the first indications of kidney trouble. Let the kidneys cry for help. Heed it.

Doan's Kidney Pills are what is wanted.

Are just what overworked kidneys need. They strengthen and invigorate the kidneys; help them to do their work, remove all poisonous matter from the blood.

Read the proof from an Eagle Lake citizen.

Mrs. M. E. Cooper, of Eagle Lake, Texas, says: "A member of our family was afflicted with tracks of lumbago, during which the person's back would become so sensitive and lame that the simplest movement caused suffering. The kidneys secretions at times were far too frequent in passage and were distressing. Doan's Kidney Pills, procured from Calvert's Drug Store, brought relief at once and before long removed the pain and lameness in the back."

For sale by all dealers. Price 50 cents. Foster-McLburn Co., Buffalo, New York, sole agents for the United States.

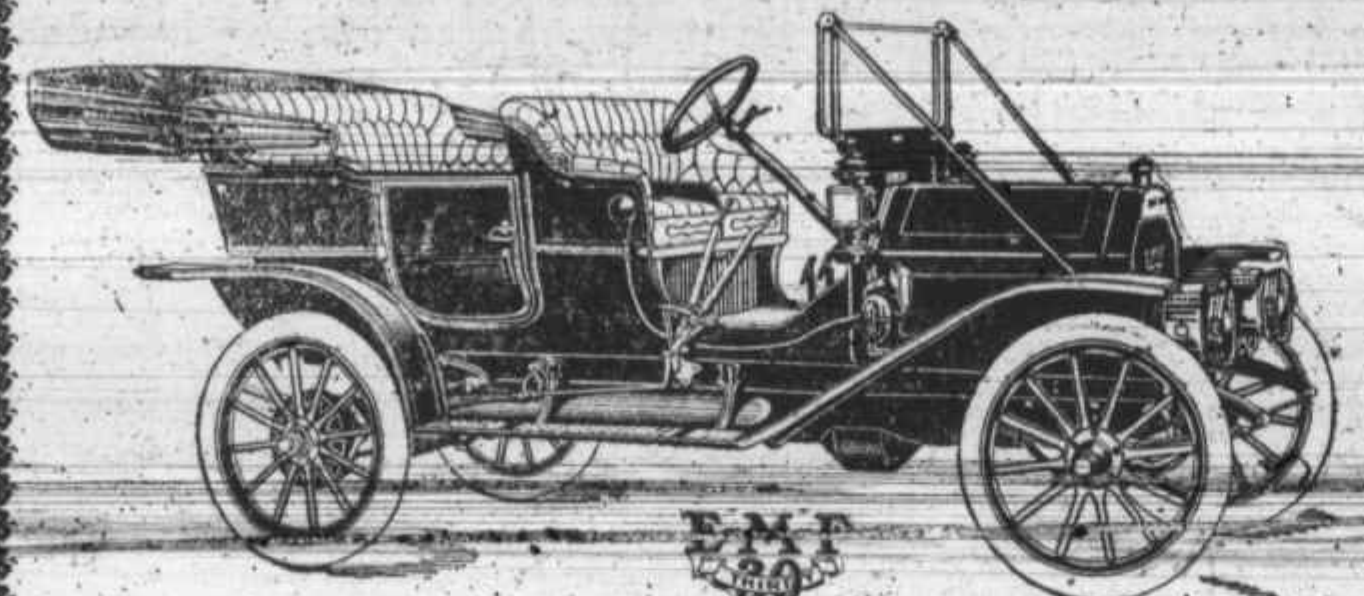

Remember the name—Doan's—and take no other.

## Story of A Modern Prodigal Son.

The following concerns a young man who went from Denison to the gold fields of Nevada. Like unto the prodigal of whom the Bible speaks, the aforesaid young man was dead, (so he told his parents, but like Mark Twain's illness was greatly exaggerated.) He was dead, yet he liveth. The young man wanted to make a raise. He was in distress and owed a board bill, and his name was on all the saloon keepers' books. When he left here and struck the gold fields, he spent his money in "riotous living." The young fellow was dead broke, which is a hard situation when the thermometer drops down to 30 below zero, and a square meal is worth 50c to \$1, but he had in reserve resources of brain and struck upon a scheme, to quote Bill Shakespeare, "To put money in thy purse."

He telegraphed his father under the very common name of Dr. Smith, that his son lay dead at the gold fields and asked what disposition should be made of the remains. The cost of the coffin and shipment to Denison was set forth in a telegram at \$200. It wasn't many hours before Dr. Smith was notified by wire that the \$200 was on the way. Dr. Smith was requested by the distracted parents to accompany the body home.

The young man confided to a chum the "ten-strike" that he had made, and the method employed to get it. The chum, who had some conscience, (a rare thing in a mining camp) telegraphed the father that the boy was alive. The father has dispatched another son to go to the gold fields and bring his brother home. The kind of reception that the "dead-but-come-to-life" will receive on his arrival in Denison is only guess-work. There may or may not be the fatted calf. The father may have a staffed club in reserve, or he may fall

## What Does it Cost to Maintain an Automobile?

The figures below tell a wonderful tale of the low maintenance cost of six E. M. Ford cars on country roads. The owners of these six cars have not stopped for rain or mud, and the results speak volumes for the dependability and low upkeep cost of this wonderful car. This is not a record performance in New York or some other far away place, but shows what is being done right here at home.

The total cost of repairs on all of these cars, exclusive of tires and springs, to date is Four Dollars, and that was replaced by the E. M. F. Company free of charge.

## Booger Red is Not Dead.

The El Campo Citizen last week published an article wherein it was stated that Booger Red, the famed broncho buster, had been killed in Gonzales by a Mexican. The Citizen was misinformed for Booger Red showed here Friday night, and was the ugliest, liveliest dead man we ever saw. He informed us that he hadn't been in Gonzales and never had had any words with a Mexican.—Waelder News.
