Mr. W. H. Griffin is now opening up the new addition of which this paper made mention several weeks ago. The new addition, Mr. Griffin says, will be known as "Automobile Addition!" The streets will be extended through the addition and there will be 210 lots, some of them, Mr. Griffin says, having already been spoken for.

Whiskey is a good friend but a poor master. Used in moderation it cheers, inspires and strengthens men. In this gray world why may we not touch elbows with our neighbors occasionally in a social glass? Why may we not make reasonable use of that prince of whiskies—I. W. Harper? Sold by Beckmann & Co.

Messrs. O. R. Davis & Co. have recently received from the factory at St. Louis, an up-to-date rubber-tired funeral car. It is a very costly one but the owners state that Eagle Lake is a growing city and the purchase of this handsome vehicle is in keeping with the growth and prosperity of the city.

What Does it Cost to Maintain an Automobile?

The figures below tell a wonderful tale of the low maintenance cost of six E-M-F "30" on country roads. The owners of these six cars have not stopped for rain or mud, and the results speak volumes for the dependability and low up-keep cost of this wonderful car. This is not a record of performance in New York or some other far away place, but shows what is being done right here at home.

The total cost of repairs on all of these cars, exclusive of tires and springs, to date is Four Dollars, and that was replaced by the E-M-F Company free of charge.

The table shows the names and addresses of each owner together with the distance traveled by each car.
