SOMETHING broken down? Maybe it's the plow or the mowing machine.

What's to be done? Delay means loss. The nearest supply depot may be miles away. It may be that the necessary part can only be obtained in some distant city.

The Bell Service does the work. The farmer gets into quick communication with the dealer and shipment is made without

### A Good Way to Improve Eagle Lake.

By Mrs. Henry Beck of Des Moines, Iowa.

In your last issue you invite all who are interested in Eagle Lake to make some suggestions as to improvements. Now I am not a resident of Eagle Lake or even of Texas, but I am an Eagle Lake booster all right as we have land near there, where we are hoping in the near future to build a home. The HEADLIGHT is a welcome visitor at our home as we can hardly wait until it comes. I think one good way to boost Eagle Lake is for the merchants and tradespeople to do more advertising. If they have bargains, they ought to tell the people, and

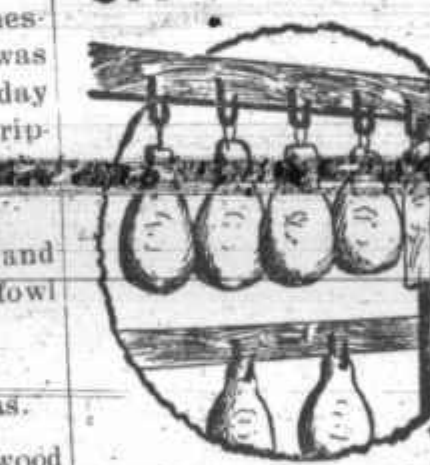

not only advertise a sale but tell what they have and the price of each article. They should remember that "Competition is the life of trade." Once I heard a story of little Johnny in school who proved the fact that "It pays to advertise." Here in our spring gardens and putting in Irish potatoes (for Good Friday is potato day in Iowa). While in the Sunny South you are enjoying the nice weather, we are still shivering and wondering if spring will ever come. Wishing all prosperity to Eagle Lake! Mrs. HENRY BECK.

Mrs. T. J. Roberts returned home Monday afternoon from a visit to her daughter, Mrs. Albert Pennington, in San Antonio.
