Baptismal Services at River.

Baptismal services were conducted last Sunday evening by Rev. Oscar Ferrell of the Baptist church at the Colorado river near Mr. Womack's plantation. The candidates immersed were Mr. and Mrs. Wm. J. Magee and their son and daughter. Quite a number from town attended, going out in automobiles.

City Attorney Pushing Suits.

City Attorney Emanuel Roos is using every effort to collect the delinquent taxes, and all whose property has been advertised and who have not paid up, will be sued at this term of the court. Mr. Roos is pushing the matter and is collecting a considerable amount of the delinquent taxes. He is making our city a first class attorney.

Those who have not already paid up their delinquent taxes had better do so at once, for they won't have one chance in a thousand to win their cases when City Attorney Roos takes them into court, and then the costs will be more than ever.

School Grounds Need New Fence.

The trees in the school grounds are now beginning to grow nicely. Much effort has been put forth in setting out these trees and now that they are just beginning to grow, a new and substantial fence should be built around the school grounds. The writer and the school grounds late one evening last week and noticed several of the old nuisances—the town cow—grazing leisurely in the enclosure. These trees should be protected from the cows and horses. A new fence is needed, but as the school board has not the means to build the fence, the city officials should take the matter up and see what can be done. Since the trees are growing nicely they should be protected before they are ruined by the stock. We need a stock law and we need it badly.

Big Type Order Placed.

THE HEADLIGHT has this week placed an order with the type foundry for three hundred pounds of job type, which is an unusually large order of its kind for a country weekly newspaper. This type is bought that our job printing department will be enabled to turn out an even better grade of printing. With the HEADLIGHT, the motto is: "There is nothing too good for its job printing customers."

Within the next month we expect to place another order for type of the same kind as the job type. We are rapidly weeding out all of the old type in the office and replacing it with nothing smaller than twenty-five pound fonts of the very latest job faces turned out by the foundry.

Who Will Be Manager of The Opera House?

Now is the time that an opera manager should be looking the attractions for this season. Some good, live man who understands the business can make a good thing by taking over the Eagle Lake opera house and putting in some good shows here this season. The opera house was newly fitted up last season and is quite an attractive little play house. If the right kind of a manager gets hold of the opera house here, he can make a success out of the show business.

Best School We've Ever Had.

The Eagle Lake high school is this year the best in the history of our city. With an enrollment of two hundred and fifty and ten teachers employed, the school work is flourishing. The school board—and the members draw no salary for their work—with Prof. Morgan's valuable assistance, has worked hard and overtime to bring about this condition, and the school board and faculty should have the hearty co-operation of every patron of the school, for the opportunity is now ours to make Eagle Lake's school the best in this whole section of the country. While the enrollment is already 250, there are fully twenty or twenty-five yet to enter, and a quantity of new desks have been ordered that every pupil may receive proper attention. The school board is doing something, and the members have shown by their works that they deserve your good will and your co-operation to further the building up of our school to the highest possible standard. Are you going to help them or are you going to enter that much despised and ancient order of "chronic school kickers?"

A traveling salesman out of Houston was in Eagle Lake recently and had to talk over the telephone to one of his customers in a neighboring town. When he had completed the conversation he asked the demure little operator how much the charges were, and she replied, "Forty cents." At this the Houston traveling salesman irately declared that in Houston he could talk to hell and back for forty cents. The operator quietly replied: "Yes, sir, but this is a long distance call."
