There are two aldermen to be elected at the April city election, and to date no one has announced for that office. The selection of aldermen, and especially right at this time, is a very important matter. There is much improvement work under way with the city council right now, and what we need in the council are men who are progressive, yet conservative. Don't think before they act. In this the two retiring aldermen, W. E. Lenhart and E. W. Hanly, have been both. They have made good officers. They are progressive men, yet they are conservative in their progressiveness. We have not learned whether either will offer for re-election or not, and without their consent the HEADLIGHT places in nomination to succeed themselves as aldermen of the city of Eagle Lake at the approaching city election, the names of E. W. Hanly and W. E. Lenhart.

Mr. L. L. Lindsey, advance man for the Chase-Lister show was in the city today and paid our office a pleasant call. The people of Eagle Lake will hail with delight the fact that the Chase-Lister show will come to Eagle Lake on Monday, February 19th for a week's engagement. There never has been a show in Eagle Lake that made such a hit with the people as the Chase-Lister. The show is good, clean and free from the usual smutty stage sayings. The management is courteous and on the square. If good weather prevails this show will do a big business here. From its visit here in the past we feel no hesitancy in giving this show the best of recommendation.

A petition is being circulated and has been signed by 103 names calling for an election to determine whether or not the city shall have the right to build sidewalks, streets, etc., and assess the amount for so doing against the citizens where the streets and sidewalks thus improved touch their property, giving the citizens a period of five years in which to pay back to the city the amount thus expended. An election on this subject will likely be called in April at the same time of the city election. This paper will have more to say on the subject in future issues, when we are better informed as to the plan in view than we are at the present time.

Mr. and Mrs. Meyer Nathan who have been making their home in Marshall, where he has been in business having recently disposed of the same, arrived in the city yesterday from Waco where they have been visiting relatives for a few days. COAL COAL COAL!

Messrs. Adam and Joe Keyser of the Mentz community were business visitors in the city yesterday. Mr. Adam paying our office a pleasant call to renew the subscription of his father, Mr. W. Keyser, for another year. He reports that his father is down with the grip and has been sick for the past five weeks. The HEADLIGHT sincerely hopes that the old gentleman may soon be well again.

The HEADLIGHT learns that a compromise has just been made between Mrs. Leona Boyd of Houston, formerly Miss Leona Beakes of this city, and the street railway company of Houston, wherein Mrs. Boyd received \$5000 in settlement for damages for the death of her husband who was killed by the street railway in that city some two years ago.

Capt. Siegfried Bock of Mentz, the blue ribbon wine maker, was a visitor in the city Tuesday.

DON'T SHOCK YOUR LIVER WITH CALOMEL
Dodson's Liver-Tone Persuades It to Work Naturally and Safely—No Restriction of Habits or Diet.

If you have a sick horse, you cannot make him work by beating him, and if you try it you are liable to ruin him forever. It's the same way with your liver. When it becomes torpid and sluggish, you can take calomel and whip it into action, but the calomel will leave your body weaker and sicker than ever. Calomel is a very powerful chemical made from mercury.

A perfect substitute for calomel, that has all of its medicinal properties with none of its dangerous and uncertain follow-ups, is Dodson's Liver-Tone.

Calvert's drug store sells Dodson's Liver-Tone with the guarantee that if you don't find it a perfect substitute for calomel, this store will give you your money back. Dodson's Liver-Tone is a true tonic for the liver, purely vegetable, and with such a pleasant taste that it is no trouble to get children to take it. It is absolutely impossible for it to do anyone any harm, because it simply persuades the liver to do what it ought to do—no more and no less.

The people of Chesterville were very much excited last Saturday evening over what seemed to be a good prospect for another fire. A prairie fire had been burning all day, and a very brisk norther came up, sending the fire very swiftly toward town. The fire, however, did not cross the railroad track, and finally, about midnight, died out.

IOWAN LIKES THE PAPER

In Letter to the Editor He Boosts the Headlight.

This paper is in receipt of a letter from a gentleman in Iowa ordering the paper for a year, in which the Iowan says: "A copy of your paper has by chance fallen into my hands and I am sending the amount for a year's subscription. I admire the manner in which your paper is telling of the wonderful resources and improvements going on in your section. Many people in this state are becoming interested in Texas, desiring to move to a warmer climate to escape the severe winters, and your paper will do much in aiding immigration to your section, because I notice that it is not the custom of your publication to have long 'hot air' boost articles with nothing else to back it up with. The boosting that counts with the thinking Northern people who want homes in the South is the kind you are giving, that is telling in a local way of the improvements and building that are going on in your section. These long winded 'boost' articles have been over worked by the overzealous papers and have no weight with the thinking class of people. What we want is local news of your community that we may see what building and general improving is going on, and then we can pretty well form our opinion of the country. Your paper is giving us just what we want."
