Special Train Will Arrive at 1 P. M. Monday and Columbus Citizens Will be Guests of Our School.
All Autos in City Requested to Meet Train.

The citizens of Columbus have decided to come down and visit our school next Monday. Their school will be suspended and the business men will close their stores and all come down on a special train which will reach Eagle Lake at 1 p. m.

Automobiles will meet the train and convey them to the school building. After a very brief formal welcome they will be afforded every opportunity in operation and to inspect the school building. The orchestra will furnish music during a part of the evening, while the ladies of our city will serve punch, sand-wiches, etc., throughout the evening. A baseball game will be played

on the school ground between the schools of the two towns, beginning at 3 p. m.

Committees have been appointed to look after the different features of the entertaining of our guests.

The following committee of ladies will meet at the school building Monday morning for the purpose of making the sand-wiches and punch: Mesdames, Bruce, Stoermer, Hanly, Carey, Chester, Thatcher, S. O. McCarty, Frazer, Baring, Williamson, Gordon, Hoenighaus, Gynn, Lenhart, Smith, Carney, Sawyer, Van der Kerk, Joe Perry, McRea, Strickland, Middleton, W. D. The Lakeside Irrigation Company is putting in a fine steel bridge with concrete foundation on the main Wharton county road over the canal about one mile south of town. A good bridge has been needed at this point for some time, and the bridge being erected by the canal company will be a most substantial one. County Commissioner T. J. Roberts has just completed the steel and concrete bridge over the creek between here and Chesterville and is at present at work on a bridge of the same kind over the bayou near Matthews, on the road to the potato growing section. These bridges will last for a long time, and are so constructed as to make them practically indestructible.

To My Laundry Patrons:

After the first of April, we will not deliver laundry to any one. Our laundry company has put us on a strictly CASH basis and we will have to do the same with our customers. While we will be glad to continue doing your laundry work, we must insist on cash before the laundry leaves the house. We had rather do a small cash business than a large credit business. This rule will be carried out to the letter. Respectfully,

H. E. CAREY, Agent, Texas Steam Laundry.

The larger per cent of the farmers of this country let their chickens roost in trees, on fences and in exposed places. If he had a nice warm house and trained them to go to it at night, and keep them out of the cold in the winter, he would carry in just as many eggs at night as the back-lotter. Any farmer can make a few hundred dollars more just as easy by raising a few more hens as a few more potatoes.

Perhaps by the next meeting of the order the new hall in the Masonic building on north square will be in readiness, which provides a great deal of delight for the members in anticipation of their new home. They contemplate furnishing the reception hall, which duty they have assumed, and they will make it one of the neatest halls of its kind in this part of the state.
