Puts End to Bad Habit.
Things never look bright to one with "the blues." Ten to one the trouble is sluggish liver, filling the system with bilious poison, that Dr. King's New Life Pills would expel. Try them. Let the joy of better feelings end "the blues." Best for stomach, liver and kidneys. 25c at Mont G. Calvert's.

Regained Nerve.
An old merchant, after several adverse seasons in which he had done a credit business, sat in the back room of his store and vainly tried to pierce the gloom which surrounded him. With head resting in his hand and despair depicted on his countenance, he thought of unpaid bills and his inability to collect.

A mouse, who had watched him from his hole in the corner, finally gained enough courage to cross the room. In doing so he stepped into a little rill of whiskey which had leaked from a barrel standing near, and stopped to dry his foot in the usual manner, secured a taste of liquor and went back for more. It was not long before his mouseship plucked up courage to take a closer survey of the old man, and at last hopped upon the table, and shaking his paw in the merchant's face demanded: "Where is that cat that was looking for me a while ago?"

How The Boys Turn Out.
Twenty years hence the boys of today will be men. They will be the doctors and drunkards, lawyers and liars, editors and idiots, ministers and murderers, and so on down the line. It is impossible to tell to a certainty into what class each boy will be. Follow the boys of twelve and in 20 years some of them will be in jail. Every boy is training for a certain class and it is the duty of parents to know which. —Morilton Democrat.

They have back of them the men which has been in business since 1873 and who guarantee every **U. S. Separator** to be perfect in workmanship and materials.
