

Rice Farmers Attention!

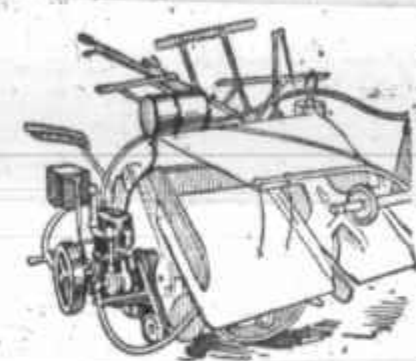

THE FOUR H. P. CUSHMAN BINDER ENGINE

has been perfected to a degree where we are authorized by the Manufacturers to absolutely guarantee that it will cut the heaviest Japan or Honduras rice and will give satisfaction. Write or inquire of any of the following gentlemen who either own one or have seen it used:

E. P. Deyo, East Bernard, Texas; F. C. Boyden, Nottawa, Texas; Ray Eignus, Nottawa, Texas; A. F. Harbert, Eagle Lake, Texas; E. A. Eignus, Mgr., Southern Rice Growers Ass'n, Eagle Lake; A. P. Borden executor Pierce Estate, Pierce, Texas, (used 8 last year.)

YOU CAN RUN NO RISK!

THE MANUFACTURERS GUARANTEE SATISFACTION.

Satisfy yourself by getting the information from people who use the engine, then place the order early as the allotment for this territory is limited, and it is necessary to specify our requirements before July 1st.

SMITH AUTO CO., AGENTS. EAGLE LAKE, TEX.

To be equal to and ready for any responsibility, to be self-poised and confident, yet reverently mindful of established ordinances, obedient to the right,

earnest to resist evil; to be diligent in business, patient under its exactions, generous but not wasteful; to be quick to acknowledge error, prompt to repay obligations, chaste in thought and upright in deed, ever courteous; in a word, to be alike noble in soul and in bearing—this is to be God's gentleman. — Anonymous.

J. N. W. Callison, Tax Assessor and Collector of the City of Eagle Lake, Colorado County, Texas, hereby certify that the above-listed lands and personal property are delinquent for taxes for the year 1911, as shown by the tax rolls of said city.				
Witness my hand and seal of office, this 27th day of May, A. D. 1912.				
N. W. CALLISON, City Tax Assessor and Collector of the City of Eagle Lake, Texas.				

"Blue Laws" of Connecticut.

Frequent mention is made of the "Blue Laws" of the early days in the New England States, and of the rules by which the puritans of the early days in our republic were governed. We secured a copy of these laws which are herewith reproduced. The laws or rules of any time or country is but the crystallization of the sentiment, the conditions, and the environment of the people who adapt and use them.

In these crude rules of conduct, the conditions that prevailed in the early history of our country is revealed, and from them to our present code is a revelation of progress and development.

"No one shall be a freeman or have a vote unless he is converted and a member of one of the churches allowed in the dominion."

"Each freeman shall swear by the blessing of God to give allegiance to this dominion, and that Jesus is the only king."

"No dissenter from the essential worship of this dominion shall be allowed to give a vote for electing of magistrates or any officer."

"No food or lodging shall be offered to a heretic."

"No one shall cross a river on the Sabbath, but authorized clergymen."

"No one shall travel, cook victuals, make beds, sweep houses, cut hair or shave on the Sabbath day."

"No one shall kiss his or her children on the Sabbath or feast days."

"The Sabbath day shall begin at sunset Saturday."

"Whosoever wears clothes trimmed with gold, silver or bone lace above one shilling per yard, shall be presented by the grand jurors, and the selectmen shall tax the estate £300."

"Whosoever brings cards or dice into the dominion shall pay a fine of £5."

"No one shall eat mince pies, dance, play cards, or play any instrument of music, except the drum or Jewsharp."

"No gospel preacher shall join people in marriage. The magistrate shall join them, as he may do it with less scandal to Christ's church."

"When parents refuse their children convenient marriages, the magistrate shall determine the point."

"A man who strikes his wife shall be fined £10."

"A woman who strikes her husband shall be punished as the law directs."

"No man shall court a maid in person or by letter without the consent of her parents; £5 penalty for the first offence; £10 for the second; and for the third, imprisonment during the pleasure of the court."

Cornelius Bros., Messrs. Walter and Gus Cornelius who were residents of Eagle Lake many years ago, have returned to this city to make their home and have opened a cleaning and pressing business at Carey's barber shop. They will do a general cleaning, pressing and dyeing business and will make a specialty of ladies' garments.

Mr. and Mrs. Sam H. Little were visitors to Yokum last Thursday where they went to attend the funeral of Mrs. Little's niece, little Dorothy May Turner.

Mrs. R. T. Westmoreland and children and Misses Eva Yates and Esther Westmoreland spent several days with Mr. George Northington's family at Egypt the first of the week.

New Grand Opens Saturday Night.

The New Grand motion picture theatre, just completed by Messrs. Selhaver and Shute, will open for business tomorrow, Saturday night. The New Grand is one of the most handsome little theatres outside of the larger cities in Texas. The building is equipped with opera chairs and electric fans. A fine program will be given on the opening night. Messrs. Selhaver and Shute state that as soon as they can make arrangements to get on a first class circuit it is their intention to have an up-to-date vaudeville attraction in connection with the regular program about twice a month.

Will We Soon See by Wire?

Laugh, if you will, at the apparent folly of seeing by wire, but in the midst of your mirth, do not forget that the world is laughing just as heartily when there was rumor of talking over wires. And, if anyone had intimated that future generations would even talk without the aid of wires, over thousands of miles of ocean, granddad would have passed away with a stroke of apoplexy superinduced by congested laughter.

When it is remembered that the voice can be reproduced by mechanical means, inasmuch as it is but a series of vibrations in the air; that vision is but another kind of vibration in the ether, it looks as though seeing over wires would be quite as simple as talking over the telephone. The time may come, and not so very far away, either, when we will pick up the telephone and not only talk with our friends, hundreds of miles away, but see them quite distinctly as well.

Electricity travels at nearly the same speed as light, 180,000 miles a second, and it is planned to change the light vibrations into electrical vibration, send them over the wire, and then change them back into light vibrations, which will be visible to the naked eye. This is exactly what occurs in a telephone in a much simpler way. The sound waves are changed into electric waves, these electric waves are flashed over a wire, and the receiver changes them back again into sound waves with the aid of a delicate magnet and a metal disk.

Prof. Rosing of the Technological institute of St. Petersburg has already accomplished much in sending rays of light over the wire with the assistance of electricity. The Rosing apparatus is as yet in its infancy, but very small objects can be seen with it, and it is only reasonable to suppose that within a short time we will be able to see a person while speaking to him over telephone.

What She Needed.

A wandering peddler stopped at a Southern cabin and opened his sack.

"Mammy, let me show you some self-raising umbrellas," he began.

"No use, man, no use," interrupted the old colored woman, as she busied herself about a boiler of clothes.

"Cayn't use nothing like dat."

"Self-raising buckwheat?"

"No good to me—we eat corn pone. But, mister—"

"Well mammy?"

"If you'll tell me how to tahn dese beah fohten, bad chillan into self-raisin' pickaninnies, Ah'll be yo' friend' foh life, dat Ah will sah."—Everybody's.
