BULLETIN ON HIGHER EDUCATION IN TEXAS.

For Free Distribution.

The Educational Campaign Committee of the Hogg Organization, composed of F. M. Bralley, State Superintendent of Public Instruction and Executive Secretary, Austin, Texas; President W. B. Bizzell of the College of Industrial Arts, Dean Charles Puryear of the Agricultural and Mechanical College, President S. E. Mezes of the University of Texas, President R. B. Cousins of the West Texas State Normal College, President S. P. Brooks of Baylor University, and Lee Clark, General Agent of the Conference for Education in Texas, has published a bulletin on "The State Institutions of Higher Education in Texas, Their Past Services, Future Possibilities and Present Financial Condition."

The bulletin shows what the people may reasonably expect of the State institutions of higher education, what these schools are now doing, and what they could do under the more favorable conditions of proper financial support; and discusses the needs of the State's institutions of higher education.

Our institutions of higher education should prepare men and women for the most useful citizenship, for efficiency in the various occupations, industrial and otherwise; they should apply technical learning to the various resources of business and philanthropy; they should contribute to the sum of human knowledge, offering advantages to all people of the State through extension lectures and correspondence courses.

To accommodate the needs of

the student body, which exceeds 3,000 annually in all departments, and to serve Texas in the largest and most useful way, the University should have a larger teaching force, more buildings, better equipment, and additional courses of instruction. It is conservatively estimated that an increase of 50 per cent in the University's income would increase many times the efficiency of the institution, extending its benefits to increased numbers of loyal Texans.

Texas needs, in the Agricultural and Mechanical College, where the number of students has increased from 500 to 1126 within the past five years, several new buildings and additional instructors, in order that efficiency may be increased along technological lines and that the institution may perform its duty to the people.

Likewise the College of Industrial Arts should be provided with additional buildings, new departments, more teachers, additional dormitory, and laboratory facilities to meet present demands.

It is also shown that the private, endowed and denominational schools have rendered invaluable service to the State, and that they are rightly entitled to adequate support.

The discussion closes with diagrams and tables of statistics of the following fourteen leading States with respect to their institutions of higher education: Texas, Illinois, Ohio, Missouri, Michigan, Indiana, California, Wisconsin, Iowa, Minnesota, Kansas, Nebraska, Colorado and North Dakota. Of these fourteen States, Texas ranks third in population; but in the financial support of higher education, the following interesting comparisons indicate the rank of Texas: Total income, 13th; income per inhabitant, 14th; income per \$1000 property, 12th; income per student, 14th; income from State tax and appropriation, 10th; income from other sources, including tuition fees, 9th; teachers per 100 students, 14th; value of buildings, 5th. Our institutions of higher education should be made as good as the best.—Contributed.

The Danger After Grip
lies often in a run-down system. Weakness, nervousness, lack of appetite, energy and ambition, with disordered liver and kidneys often follow an attack of this dreaded disease. The greatest need then is Electric Bitters, the glorious tonic, blood purifier and regulator of stomach, liver and kidneys. Thousands have proved that they wonderfully strengthen the nerves, build up the system and restore to health and good spirits after an attack of Grip. If suffering try them. Sold and perfect satisfaction guaranteed by Mont G. Calvert.

Weimar.—Pritchett Trimble, colored, called Louis Goodman, also colored, to his front door and fired upon him with a single-barreled shotgun loaded with No. 6 shot. One of Goodman's eyes was put out and he received other injuries which may result in his death. Trimble made an effort to fire upon him again, but before he could reload Goodman had run into his home. Trimble is in the city jail awaiting an examining trial. Family troubles caused the shooting.

When your child has whooping cough be careful to keep the cough loose and expectoration easy by giving Chamberlain's Cough Remedy as required. This remedy will also liquify the tough mucus and make it easier to expectorate. It has been used successfully in many epidemics and is safe and sure. For sale by all druggists.

Mrs. John Tatters and children arrived in Eagle Lake last week from San Antonio and will make their future home here. They are now occupying their pretty new home on Postoffice Street, near Mr. Welford's residence.

NOTICE—Look out for cattle strayed from Eagle Lake, branded mule shoe with other brands. I will pay reward for information leading to their recovery.
M. D. FLOWERS.

Miss Ruthbell Cross returned Sunday morning from Georgetown where she had been to attend the commencement exercises of the Southwestern University.

There is no real need of anyone being troubled with constipation. Chamberlain's Tablets will cause an agreeable movement of the bowels without any unpleasant effect. Give them a trial. For sale by all druggists.

Mrs. M. D. Flowers returned Tuesday morning from Temple where her daughter, Mrs. J. B. Stewart, was operated on at the Scott & White sanitarium for appendicitis last week. Mrs. Stewart is rapidly recovering from the operation, which news will be gladly received by her many friends throughout this section.

A GREAT RECORD.

Hard to Duplicate it in Eagle Lake.

Scores of representative citizens of Eagle Lake are testifying for Doan's Kidney Pills. Such a record of local endorsement is unequalled in modern times. This public statement made by a citizen is but one of the many that have preceded it and the hundreds that will follow. Read it:

J. C. Cooper, retired farmer, Cemetery Ave., Eagle Lake, Texas says: "I can substantiate every word of the testimonial a member of my family gave three years ago, concerning my case. I will say for the benefit of other kidney sufferers that Doan's Kidney Pills have permanently cured me, of kidney complaint. The kidney secretions were badly disordered and bothered me at night. My back ached and when stooping and lifting the pains became sharp and went directly into my head. I took several boxes of Doan's Kidney Pills and I soon felt like a different person. This remedy removed all the aches and pains and corrected the kidney disorder. This happened three years ago and since then I have used Doan's Kidney Pills off and on a preventive with excellent results." For sale by all dealers. Price 50 cents. The Chapter Masons will confer the first degree on three candidates next Tuesday night. The Columbus Lodge will bring its efficient team down to assist in putting on the work. All Chapter Masons are requested to be present. The local Masons met last Monday night in the handsome new Masonic Temple which has just been completed. The new Masonic quarters are handsomely fitted up and all of the furniture is of the latest design in mahogany. It is safe to say that there is not a Masonic order in the state whose quarters are any better furnished than the Eagle Lake lodge. The traveling man who sold the furniture to the local lodge stated that he had sold more furniture to lodges but he had sold none of them furniture that was more costly.

HAVE YOU EVER
TAKEN CALOMEL?

Next Time Don't Do It. It's Dangerous. Try Dodson's Liver-Tone Instead—It's Safe.

You ought to know what a dangerous and uncertain drug the chemical, calomel, is. Perhaps you know several people who have been salivated by what they thought was a light dose of calomel.

Next time you have an attack of biliousness, or when your liver has gotten sluggish, come to Calvert's drug store and ask for a bottle of Dodson's Liver-Tone. You will find it a pleasant-tasted liquid and a perfect substitute for calomel in every respect and without the dangerous after effects of calomel.

Dodson's Liver-Tone gives the liver just the amount of gentle stimulation it needs to induce it to do its work properly and thoroughly. Calvert's drug store will give you your money back any time Dodson's Liver-Tone fails to prove itself as a perfect substitute for calomel.

Stomach Troubles.
Many remarkable cures of stomach troubles may have been effected by Chamberlain's Stomach and Liver Tablets. One man who had spent over two thousand dollars for medicine and treatment was cured by a few boxes of these tablets. Price, 25 cts. Sold by all druggists.

Paint Now
If your property needs it; don't wait for the price to come down.

There are two parts of a job; the paint and the work; the work is more than the paint; and it never comes down.

The cost of paint is about two-fifths; the work three-fifths. Paint is up \$5 an average job, and won't come down in a hurry; too many jobs put off.

Men are waiting for \$2 or \$3; they don't know it; they think they are waiting for \$20 or \$25. Why don't men use their heads?

Notice to Confederate Veterans.
We hereby notify all veterans, who wish to obtain Crosses of Honor from the Shropshire-Upton Chapter, Texas Division, U. D. C., they will find blank certificates of eligibility at Miss Willie Garner's millinery store in Columbus, Texas. By filling these with proper dates of enlistment, discharge, etc., and returning to Miss Garner, the Chapter will receive them and send as speedily as possible to the Custodian of Crosses. This should receive immediate attention, as crosses will be provided and distributed until November 1st, 1912. There is necessarily some delay about getting off these orders and probably where great numbers are going in, an order of ours might not receive immediate attention, therefore the application should be filed at once so as to allow for such hindrance.

Master Roensch Roberts is visiting Mrs. O. Green in Bay City.

The small town boy had been sent to a farmer, uncle's to remain for three months; but at the end of the second week he showed up at home, much to the disapproval of his father.

"Why, Willie, what have you come back here for?" the parent inquired in no pleasant tone. "I sent you to your uncle's for long stay."

"I know you did," Willie replied; "but you see, it was this way. The first week they killed a sheen, and we et that; the next week they killed a hog, and we et that; and yesterday the hired man died, and I thought it was about time to come home."

Generosity, like beauty is a matter of individual opinion, according to Otis Harlan.

"My mother's awful generous," said the new boy. "She knows I hate to take my cod liver oil, so she gives me a nickel every time I take it."

"How often do you take it?" queried the other boy.

"Three times a day."

"Gee!" sighed the other in hopeless envy at such wealth. "Fifteen cents a day! How do you spend it all?"

"I don't. She takes care of it for me. And when there are enough nickles to make up a dollar, she—"

"Hands it over to you?"

"No. She buys me another \$1 bottle of cod liver oil."—Young's Magazine.
