3 COWS and a DE LAVAL CREAM SEPARATOR

will make more money for their owner than four cows with "gravity setting."

Thousands upon thousands of cow owners have already proved this statement for themselves; any experienced dairyman will verify it for you.

With such a big saving it is hard to understand why any cow owner should try to get along without a De Laval Cream Separator.

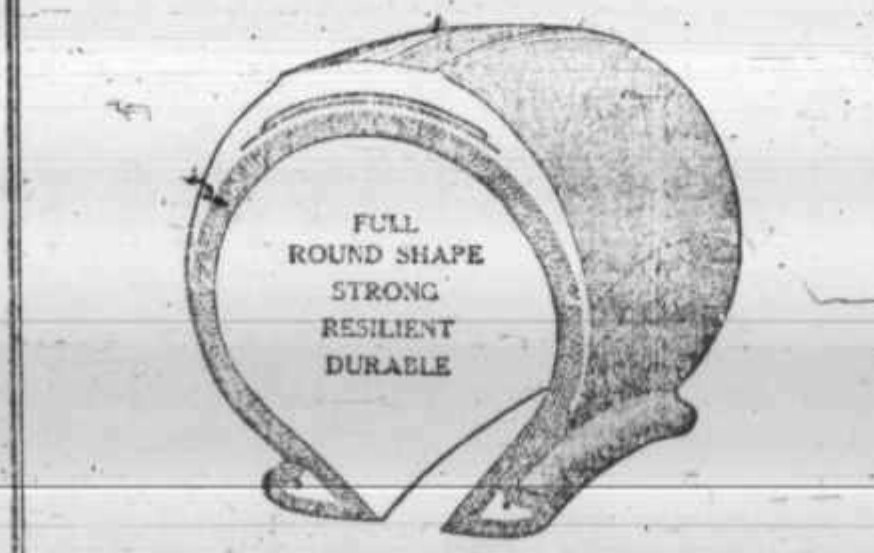

If you are selling cream or making butter, and have no separator, or else an inferior machine, we know if we could put a De Laval on your place we would be doing you a personal favor.

If you haven't a separator don't make the mistake of starting with a "cheap" or inferior machine. When you do buy a separator—buy a De Laval. Remember that you can't make money by trying to save money in the purchase of a cream separator. A De Laval only costs a little more than the cheapest and will save you twice as much and last five to ten times as long as other separators.

Before you buy a Cream Separator be sure to SEE AND TRY A DE LAVAL
