Cross-Eyed Justice

The late Wilbur Sanders, of Montana, once United States senator from that state, rode into a Montana mining town one afternoon and found the entire population about to lynch a man who had been stealing ore.

Sanders pushed his way into the crowd.

"Stop this!" he thundered. "Stop this! I protest! There has been too much of this sort of thing in Montana. We must break up this habit we have of hanging men without a trial by law. You must not hang him now. Let us give him a fair and impartial trial as prescribed by law, and then hang him!"

Studebaker Automobiles Are Best Suited For Use in the Country, Because

FIRST: They are fully guaranteed for one year by a concern which has been noted for its square dealing for more than 60 years. Most other guarantees run 90 or 100 days.

SECOND: A full line of repair parts is carried in Dallas, Houston, San Antonio, Austin, Eagle Lake, and in several other places. Owners of most other cars are forced to send back to Detroit.

THIRD: Repair parts are sold at a reasonable price. Many others hold you up.

FOURTH: The Tread of these cars is 60 inches (the same as our wagons and buggies). In the North where automobiles were first made, the standard tread is 50 inches, and 75 per cent of all automobiles are made the same way. 25 per cent of the automobiles are made the same way in the South.

FIFTH: Studebaker Cars "stand up." Write Mr. J. R. Wooten, Columbus, who owns one four years old.

DE LAVAL CREAM SEPARATORS SAVE MOST IN SUMMER

THE De Laval Cream Separator effects a greater saving in quantity and quality of product over gravity setting during the hot weather than at any other time and its saving over other separators in time, labor, quantity and quality of product is also greatest at this season.

There is every reason why every cow owner, even if he has the milk of only 2 or 3 cows to separate, should put a stop to his cream waste by installing a De Laval at once.

We can easily demonstrate to you that the money you will save, even if you have only 2 or 3 cows, or whether you have no separator or an inferior one, will be sufficient to more than pay for the machine. Come in and ask to have the reason why 98% of the world's creameries use the De Laval exclusively explained to you.
