

GIVES MIDNIGHT ALARM

Farmer Stout was awakened from a sound sleep by the ringing of his telephone bell. The barn of his neighbor, three miles down the turnpike, had been broken into and a driving horse stolen.

The horse thieves were headed toward the Stout farm. Calling his hands he armed his forces, lined them upon the turnpike, captured the thieves and held them until the arrival of the Sheriff.

It Is a Public Nuisance.

There's a S&P freight train that passes through Eagle Lake going west at night whose constant whistling should be condemned by the city council as a public nuisance. One night the past week the engineer, who is evidently proud of his loud and shrill whistle, gave just forty-one deafening, shrill shrieks within the city limits, while the train was passing from the Eagle Lake rice mill to the curve west of town. The whistle of this one train, which is entirely unnecessary, is a greater nuisance to the people of Eagle Lake than every automobile out in town working at the same time.

Monthly Salary for Work at Home.

With the aid of a telephone and a little spare time you can earn a regular salary from our two very popular publications, Women's Home Companion and The American Magazine.

These Magazines have a number of readers in Eagle Lake whose subscription are about to expire. We are about to appoint a local representative to accept for us the renewals of these subscriptions and to tell a few friends about the special prices our local representatives can offer on these magazines.

Write for full particulars today, before someone has been appointed. You obligate yourself to nothing.

Mrs. P. H. Cawthon left yesterday afternoon for her home in Trinity after a visit of two weeks to her parents, Mr. and Mrs. W. E. Davis.

E. B. Sledge, wife and four children of Matthews near Eagle Lake came up Saturday and stopped over a few hours with the writer. Mr. Sledge is working 180 acres this year, and next year he is going to put in 200. He has already gathered 22 bales of cotton and said he thought he would get 10 or 12 more; has in 50 acres of corn and will make between 7000 and 8000 bushels. He is the same old Edwin that he was when he lived here. He says that his face gets longer and longer all the time; that he has to put a rubber band on so he knows how far to wash his face. —Weimar Mercury.

Mrs. Odum Returned Home.

Mrs. J. D. Odum has returned from an extended stay at Manitou, Colorado. While there Mrs. Odum rented a large and newly built house and took boarders during the summer months.

Saves Leg Of Boy.

"It seemed that my 14-year old boy would have to lose his leg, on account of an ugly ulcer, caused by a bad bruise," wrote D. F. Howard, Aquone, N. C. "All remedies and doctors treatment failed till I tried Bucklen's Arnica Salve, and cured him with one box." Cures burns, boils, skin eruptions, 25c at Calvert's Drug Store.

Mrs. Sam H. Little and baby returned yesterday from a visit to relatives in Schenectady.

Mr. Frank Halliday, a popular young man of Bay City, was a Sunday visitor in the city.

Warm Floors and Healthy Children Make Happy Homes

There is no better way for you to avoid worry and expense than by insuring your children's health.

Warm floors in the home, which is the children's play house in winter, are assured when using Cole's Original Hot Blast Heater.

The steel base and body construction allows the heat to be radiated to the floor keeping it warm during the coldest weather.

Cole's Original Hot Blast Heater

The Cleanest—Easiest to Care For

Burns Soft Coal, Lignite, Hard Coal, Crushed Coke, Wood and Cobs.

Users of coal must remember that the ordinary heater is a big care to operate. That its smoke and ashes entail dusting, curtain washing and carpet sweeping. Think then of the ease of operation and the cleanliness of Cole's Hot Blast.

Cole's Hot Blast has a guaranteed smoke-proof feed door—open the feed door and the current of air draws the smoke directly across the top of stove to the stove pipe—away from the opening. Contrast this simple, cleanly feed with the side door in an ordinary heater. The side door used on other stoves permits escape of dirty smoke, unpleasant gas and accumulated soot drops from it. If you overflow a side door stove, coal falls to the floor. And note this, you cannot make a side door heater air-tight—an everlasting advantage in favor of Cole's Hot Blast which is air-tight and guaranteed to remain so always.

No fires to build—the fire is never out in this remarkable heater from fall until taken down in the spring.

Better select one today—surely it is the heater you need—

Art Exhibit.

Prof. J. H. Morgan has secured the Horace K. Turner Free Traveling Art exhibit and will have the same on exhibition at the school building from October 30th to November 2nd inclusive. This is without doubt the finest art exhibit to be seen outside of our great art centers. It consists of 200 photographs and photographs of famous paintings both ancient and modern and covers over 1400 square feet of space. Being produced directly from the originals by the most scientific methods of reproduction, and being illustrative of objects of world wide interest they are of great educational value. By inculcating an interest in art in the minds of the children they become familiar with the work of masters and absorb, unconsciously, what is true and good and beautiful. Arrangements will be made whereby the public may enjoy these great pictures and also assist in placing some of them upon the walls of our school rooms and in our beautiful homes.

A Hallowe'en Entertainment will be given by the school on Friday night, Nov. 1, in connection with the Art Exhibit.
