

The Muncie

Crude oil engine makes
good in Arkansas
rice fields.

The following is copied from
the "New Era" of DeWitt, Ark.
It sounds like an advertisement,
but it is not. It is a true story
of a man who is so enthusias-
tic about the Muncie engine that
he wants to know of this wonderful
engine.

"The above power operator is
one of the most successful pump-
ing plants in the county, located
on the Walton farm, 24 miles
south of DeWitt. Although only
40 h. p. this machine puts out a
full pipe of water 24 hours in the
day and every day in the week,
caring for 200 acres of rice. The
season just closed in a first class
manner. It operates on practi-
cally half the volume of fuel re-
quired by other internal combus-
tion machines and uses a low
grade of oil, which costs less
than half the price of naphtha.
The longest run made during
the season just closed was 516
hours without missing an explo-
sion, throwing a continuous
stream which varied between
1100 and 1200 gallons per minute,
and consuming between 3/4 and
4 gallons of low grade oil (32
degrees gravity at 4 cents per
gallon) per hour.
The machine is very simple in
construction and although it has
pumped as much water as 50
and 60 horse power machines on
neighboring plants, it has gone
through the season without any
of its working parts being taken
apart or one cent expense for
repairs."

The Muncie is the most simple,
most reliable and most economi-
cal engine built today.

Most Simple

Because it has no clerical
equipment, carburetor, inlet or
exhaust valves, gears, no ac-
shafts to get out of order. Ab-
solutely the only mechanically
operated parts are the governor
and the fuel pump.

Most Reliable

Because 90 per cent of the
source of trouble in the ordi-
nary gasoline engine have been
eliminated.

Most Economical

Because it runs on crude oil
costing less than 4c per gallon,
instead of solar oil at 10c or
naphtha at 16 cents.

The saving in fuel will pay for
this engine in less than 6 months
continuous operation. Give us a
chance to prove these statements.

A Washington debutante has
sprung the "soul gown" on
Washington society. Sometimes,
it looks to us as if some of the
gowns now in vogue would fall
even to cover one's soul.

It was his first morning in
London "apartments". His land-
lady came up with the breakfast
and as he began the meal, she
opened a slight conversation.
"It looks like rain," she said.
"It does," replied the Ameri-
can, "but it smells rather like
coffee."

FOR SALE—128-egg incuba-
tor, value \$15; will consider trade;
make offer.

Dressed in the latest and most
improved motor cycling costume,
with goggles all complete, the
motor cyclist gayly toot-tooted
his way toward the Zoo. Sud-
denly he slackened, dismounted
and said to a small, grubby urchin:

"I say, my boy, am I right for
the Zoo?"
The boy gasped at so strange
a sight and thought it must be
some new animal for the garden.

"You may be all right if they
have a spare cage," he said,
doubtfully, when he could find
his tongue, "but you'd stand a
better chance if you'd only had a
tail!"

FOR SALE—500 bushels good
corn, at my place at Bonus.
