Following that, six new members were initiated into that order. After the initiation the members of the order repaired to the Adams restaurant where an excellent banquet of all kinds of good things to eat had been prepared and was in waiting. There were forty at the banquet. The HEADLIGHT editor and force, return thanks to the Odd Fellows for a kind invitation to attend the banquet, and regret that they were not able to do so. All who attended the banquet are loud in their praise of the most tempting manner in which everything was served by Mr. Adams.

moved into their new place of business across the street, and the HEADLIGHT hopes to be able to move into the building vacated by them immediately after next week's issue is printed. We are going to try our best to make the move without missing an issue, and we hope our patrons will help us by sending in all copy just as early next week as possible. We are going to need all the money due us to make the move and put in new improvements and will ask those who have gotten into the habit of putting our bill collector off from month to month to please settle their accounts when the bill collector comes around to you tomorrow. All of our job printing accounts are strictly cash.

Hon. Oliphant Ellis of Lockhart, brother of Mrs. S. O. McCarty of this city, passed through Eagle Lake yesterday en route to Washington to attend the inauguration of President Wilson. Mr. Ellis will stop over here for a few days on his return.

Mr. E. Middleton, manager of the Schuhmacher Co., leaves this afternoon for a business visit to Chicago, Minneapolis and other points in the East. When Mr. Middleton looked up the weather reports in the papers this morning and saw where Minnesota was experiencing some 10 below zero weather just at this time, he promised to send his printer friends in Eagle Lake a real genuine snow ball, but if it is all the same to him, he can wait until he returns and change the menu to a real, genuine high ball.

Hanley Howard, a negro boy who looked to be about twelve years old, was arrested at Eldridge Wednesday on a charge of rape. Sheriff E. B. Mayes of Columbus was in Eagle Lake when the boy was brought to town from Eldridge, the sheriff conveying him to jail in Columbus on the afternoon train, same day.

"I see in the Headlight," remarked Warfield Watts yesterday, "where you fellows say you are going to have a party."

The young men of Eagle Lake will give a dance at Frazar's opera house Monday night complimentary to Mrs. I. V. Duncan's visitors, her two sisters, Misses Flossie and Luella Gardiner of Palestine, and Miss Bess Hybart of Mobile, Alabama.

Mr. R. S. Simmons and family have moved into their fine and handsome new home on Lake Avenue and Prairie Street. Mr. C. S. Durham has purchased the Mrs. Henry Cordz place, formerly occupied by Mr. Simmons' family, moving into same this week.

Miss Kitty Mae Stamps, one of the efficient teachers in the Eagle Lake school has been detained from her school work the past few days on account of illness. Miss Mollie Davidson has charge of the history class in the school.

Crude oil engine makes good in Arkansas rice fields.

The following is copied from the "New Era" of DeWitt, Ark. It sounds like an advertisement, but in reality was inserted by Mr. McKuskey, who is so enthusiastic that he wants all of his neighbors to know of this wonderful engine.

"The above power operator is one of the most successful pumping plants in the county, located on the Walton farm, 2 1/2 miles south of DeWitt. Although only 40 h. p., this machine puts out a full pipe of water 24 hours in the day and every day in the week, caring for 220 acres of rice. The season just closed in a first class manner. It operates on practically half the volume of fuel required by other internal combustion machines and uses a low grade of oil, which costs less than half the price of naphtha. The longest run made during the season just closed was 510 hours without missing an explosion, throwing a continuous stream which varied between 1100 and 1200 gallons per minute, and consuming between 34 and 4 gallons of low grade oil (32 degrees gravity at 4 cents per gallon) per hour.

The machine is very simple in construction and although it has pumped as much water as 50 and 60 horse power machines on neighboring plants, it has gone through the season without any of its working parts being taken apart or one cent expense for repairs."

**Most Simple**  
Because it has no electrical equipment, carburetor, inlet or exhaust valves, gears, no cam shafts to get out of order. Absolutely the only mechanically operated parts are the governor and the fuel pump.

**Most Reliable**  
Because 90 per cent of the source of trouble in the ordinary gasoline engine have been eliminated.

**Most Economical**  
Because it runs on crude oil costing less than 4c per gallon, instead of solar oil at 10c or naphtha at 16 cents.

The saving in fuel will pay for this engine in less than 6 months continuous operation. Give us a chance to prove these statements.

**Masonic Cemetery Going to Ruin**  
Shall we permit our Masonic cemetery to go to rack, ruin and shame for the lack of attention? This is not entirely addressed to the Masons, but to all who may have loved ones buried there. It is not necessary to go into a long description of the needs (and I may say weeds), but the deplorable condition of the cemetery speaks for itself, and we should rise up as one man, and say that we must do something.

The thing that is everybody's business is nobody's business, so I have taken the liberty to hire an experienced man, one who has been employed in one of the largest cemeteries in Houston, to take charge of the cemetery. His employment is to last one month, if I do not receive the encouragement that is due this cause by your liberal subscriptions. He is to take complete control of the cemetery, and plotting of the cemetery, laying off walks, planting shrubbery, etc. He will be glad to look after the planting of any shrubbery that you may furnish, and listen to any suggestion that you may make. If, at the expiration of the month, his services have proved satisfactory, and you are interested, and have shown a willingness to do your part, the work will continue, otherwise it will cease.

Personally, I have stood responsible for the salary of this man for one month.

Yours very truly,
