

Miss Bunny Frick Wins Piano by \$557.60

MISS BUNNY FRICK... \$5,333.55
BAPTIST PHILATHEA... 2,781.95
METHODIST CHURCH... 2,511.50

The above is the result of the final count made this morning in the piano and desk contest which closed last night at 10:30 o'clock in a whirl wind finish. As the hour of closing approached, the interest increased. Calvert's drug store presented a busy appearance last night, many having dropped in to see if a line could be gotten on how their favorite candidates were running. While nothing definite could be learned of the final outcome, until the count made this morning by Mr. Calvert, Dr. Cross, representing the Methodist, O. R. Calvert, for the Baptist Class, and L. Goldsmith, for Bunny Frick, still some of the supporters of Miss Bunny left the ball box last night feeling pretty safe that they had attained a lead that was not likely to be overcome in the short space of time allotted for the contest to run. Much interest has been taken in the contest all the way through and the interest grew to fever heat as the time of closing drew near. Miss Bunny Frick is winner of the first prize, the piano, and the Philathea Class, the desk. One regrettable feature to a contest is that all cannot win, but this is characteristic of all contests. While there were a number of other entries in the contest, it has been known for some weeks that the race was narrowing down to the three on which the above and final vote is given. Miss Bunny Frick, the winner, is one of the sweetest, most polite and most pleasant little ladies of Erie Lake, and now that the contest is over, we feel sure that all the people, regardless of who they supported in the contest, will forget all else and rejoice with her in the thought of how much pleasure the ownership of her brand new piano will give her.

Christian Revival Meeting Continues.

The Jones-Douthett revival at the Christian church continues with much interest being taken in the meeting. A number have united with the church and others are expected to do so ere the meeting closes. The Evangelist is preaching twice a day, in the morning at 10 o'clock and in the evening at 7:30, preaching instructive and soul stirring sermons at each service. The meeting will continue until Monday night and will close with the service on Monday night. The Evangelist extends a cordial invitation to all to attend the services during the remainder of the meeting. Evangelist Jones is a splendid preacher, a thorough Bible scholar, and his sermons are both interesting and instructive. While a number have been added to the church roll, the members have been greatly benefited by the excellent sermons, and the church, as a whole, has been greatly revived. Mr. Jones will preach tonight at the usual hour, his text being, "Darkness in Egypt." The Sunday morning subject will be, "The Love of God." The Evangelist will preach a sermon to men only Sunday afternoon at 3:30 o'clock. All men are invited to hear it. Sunday night his subject will be, "The Judgment," and on Monday night, "Loyalty of Christ."

Dixie Theatre Has Bought Over The New Grand.

A deal was made here today wherein the Dixie Theatre buys over the New Grand. While all of the papers have not yet been fully made out, we have assurance from the managers of both theatres that the deal will be fully closed up today and that the Dixie will assume control of the New Grand tomorrow night. The Dixie will close its present place of business and will move to the New Grand building, retaining its own name, and in future the New Grand will known as the Dixie Theatre. In our opinion this is the best thing that could have been done. While two shows might exist here, we do not believe that two could make any money, and a show must make money to keep up and improve and give the entertainment that the people want. In taking over the New Grand, the Dixie management hopes that any hard feelings, if any such may exist, will pass away, and that it will be their effort to give Eagle Lake one first class show house, which should receive the combined patronage of the show going people of the town.

One-Third Inch Rain Fall Over Potato Section.

A fine rain fell in this section Wednesday. The rain was heavier here in town than in the potato growing section, only about one-third of an inch falling over the potato fields. The rainfall further west was still heavier than here. In the vicinity of Al-leyton it is reported that all the rain that was needed has fallen. While the rain through the bottoms is not all that was needed, what has fallen was badly needed and will be a great help to growing crops of all kinds.

A farmer at Guthrie, Okla., mailed a hen to a customer by parcel post. While in the mails, the hen laid an egg, which the postmaster ate. The customer refused to receive the hen without the egg, claiming the package was mailed to him did not reach him complete. The farmer refused to take back the hen, and has started suit to collect its value. Meanwhile the post-

A temperance lecturer was enthusiastically denouncing the use of all intoxicants, says the Cleveland Leader.

"I wish all the beer, all the wine, all the whisky in the world was at the bottom of the ocean," he said.

Hastily Pat arose to his feet.

"I wish every bit of it was at the bottom of the sea."

As they were leaving the hall the lecturer encountered Pat.

"I certainly am proud of you," he said. "It was a brave thing for you to rise and say what you did. Are you a teetotaler?"

"No, indeed, sorr," answered Pat. "I am a diver. Credit Lost."

We had the pleasure last Saturday of forming the acquaintance of Mr. H. Schultz of Denison, a brother of our old friend, Mr. F. L. Schultz. Mr. Schultz is a musician from the word go.

He understands the construction of almost any kind of musical instrument and has in his possession four violins made out and out by his own hands. These violins are very fine instruments, producing tones that are difficult to obtain from any factory made violin.

Poor Father.

Mayor Turnbull of Canton was talking about a statement, made all unconsciously by a Titanic officer, that had been a terrible black eye for the Titanic administration.

"This statement," he said, "reminds me of a little Canton boy."

"Tommy, why are you so unkind to your nurse? Why don't you love her? his mother once asked him."

"Because I don't," the infant terrible replied. "I just hate her! I could pinch her cheeks like papa does!"

Not a Real Throw.

Joseph H. Choate, at the Three Arts Club benefit at the Republic theatre in New York, told, after his witty speech, a story about a pair of sweethearts.

"Two young girls," he said, "were drinking tea at Sherry's when a young man passed. As he passed, the first girl blushed, displayed a beautiful ring on her white hand, and murmured:

"Well, Jack and I are to be married Easter week."

"But," said the other girl, "I thought you had thrown Jack over!"

"Oh, so I did," the first replied, "but—but you know how a girl throws!"

Didn't know What It Was.

At a dinner in Jacksonville Senator Dunca U. Fletcher was condemning an orange grower who had failed.

"The man failed," he said, "through ignorance. He lays the blame on other things, but his ignorance alone is at fault. He is as ignorant of orange farming as the tramp was of industry."

"You've heard of that tramp, haven't you?" he asked, "he was as big a sneer of derision and scorn."

"Work!" he said. "Work! What is it—a herb?"

The Grip of Habit

A Cleveland man who makes a practice of choosing his words with care, a practice which he has endeavored to instill into the family circle, made a memorandum of the misused words uttered by his son and daughter during a recent breakfast. Here is the result:

Elegant, nineteen times.

Awful, eleven times.

Dandy, six times.

Fierce, four times.

Great, two times.

When the meal was over the head of the household called the family around him in the library and gravely read the totals to them. "Gee, that's fierce," said the son.

"Isn't it awful?" said the daughter.—The Cleveland Plain Dealer.

A Compliment.

In describing his own wedding, W. A. Butler in "A Retrospect of Forty Years," records the remark of a guest, of which he well says: "For genuine Quaker wit, this will be found hard to match."

I must relate a striking salutation that the bride couple received from a Quaker client of mine, a shrewd dry-goods merchant.

Presented by an usher he had never seen before, and then, with the utmost deliberation, proceeded to say:

"William, I think thy bride has shown more judgement in her choice than thee has."

Fortunately before I could turn to resent this strange salutation, he continued as follows:

"Because it takes some penetration to discover thy good qualities, but hers can be seen at a glance."

Do Not Envy.

Don't envy the other fellow, but emulate him, if you believe him worthy. No two people have the same qualities of heart and mind, and, therefore, no two persons can do exactly the same thing in the same way. It is a fallacy to believe that any one can accomplish anything anybody else can; for there are limitations and there is fitness and there is inclination produced by certain hereditary traits to contend with. All of us who want to do the best we can should study our own mental equipment, our bodily capacity, and our innate qualities for a certain walk in life and then do our very best in the particular line chosen. We should not envy any one who is able to do more than we can, for envy is a canker eating into our souls and unfitting us for best effort. When we have done the very best we can, we should be satisfied, for the angels could do no more. But there are very few of us who really do the very best that we can in any given work, for because of the multiplicity of demands upon us, we are inclined to distribute our energies, thus lessening our work in our business or profession. Every life work, though primarily, it has for its purpose the decent support of ourselves and those dependent upon us should have for its broad purpose the happiness of humanity. We are approaching a more ideal view point in our business institutions, and men engaged in big business are learning that it pays them both in coin and contentment to be helpful to their employees, and give full value for every dollar spent with them. The successful men are generous, but they are careful students of their own forces and are also students of economics. Emulate more or less.—J. R. Ransome, Jr., Cleburne Enterprise.

In spite of appeals from pulpit and press, in spite of the admonitions of eminent medical men and learned scientists, the American people are becoming more strongly joined to their bad habits as the years roll on. Appeals have been thundered at from every direction depicting the horrors of strong drink and the use of the filthy weed, but in response to the appeals we drink more, smoke more and chew more, according to the latest tax returns to Commissioner of Internal Revenue Gabell. From July until this February the nation has consumed ninety-four million gallons of whiskey, an increase of five million gallons over the same period of last year; eight billion, five hundred million cigarettes, an increase of two billion, two hundred and fifty million; four billion, five hundred million cigars, an increase of two hundred and fifty million; and two hundred and fifty million pounds of smoking and chewing tobacco, an increase of twelve million pounds. In addition beer drinkers are resuming their stride. During the 1912 fiscal year beer consumed fell off materially, but for the first seven months of the current fiscal year the people of the United States have drunk 38,864,000 barrels, an increase of 1,850,000 barrels over last year. Drinkers, smokers and chewers are thus enriching the federal government. Internal revenue taxes from July 1 to date are \$12,500,000 greater than for any previous similar period.—Ex.
