Farm Telephone Saved Child's Life

One of the Children fell into a water tank and was rescued unconscious and apparently lifeless.

The frantic mother telephoned to the doctor, six miles away, and he started at once. In the meantime his assistant telephoned instructions and the mother restored the child to consciousness before the doctor arrived.

The telephone service saved the child's life. THE SOUTHWESTERN Telegraph and Telephone Co.

Mr. J. W. McCarty left Saturday night for Beaumont.

Mrs. E. Middleton and sons, Errol, Wayne and James, left last Saturday for a six week's visit to their old home in Illinois.

Hon. John Matthews has added two rooms and a large sleeping porch to his pretty home on Prairie Street.

Chesterville News

A small child of Mr. Joe Semora swallowed some quick silver and medical aid had to be summoned.

Mr. George Saladay, accompanied by his mother and Mrs. Kellison were in Eagle Lake Wednesday.

The rice in the Chesterville section is said to be doing very good.

Mr. R. White of Lissie was a Chesterville visitor Wednesday night.

The Holiness meeting still continues with good success, new members being added almost daily. The meeting will continue the balance of this week and probably longer.

Mrs. Desidia Galbreath, who has been visiting at the home of Mr. F. A. Bruhl, has returned to her home in Kansas.

Mr. Charlie Delano of Lissie was in Chesterville Wednesday night.

Several of our farmers have hauled large loads of watermelons to Eagle Lake recently.

To the Public:
The firm of Putney & Wilson, insurance agents, have sold their general insurance business to the firm of Westmoreland & Walker.

We thank our policy holders for the past business given us, and we assure them that their business was appreciated very much, and for many reasons we can no longer write your insurance for you.

The firm of Westmoreland & Walker have all of our fire insurance companies. They will write your business as it expires as we have heretofore, and they will appreciate any new business that you may give them, and we are sure that they will try to do the right thing.

The insurance business to them is not a new business. Mr. R. E. Walker is an old experienced fire insurance man, and is considered one of the best in South Texas.

Again thanking you for the past given us, we are,
Yours very truly,
PUTNEY & WILSON.

Mrs. E. A. Spencer of Beaumont, who has been a guest at home of her daughter, Mrs. Ed. Ragland, left last Friday for her home. She was accompanied by her little grand-daughter, little Miss Lois Ragland, who will visit relatives in Beaumont for some time.

One Man's Guide.

A few months past in the wilds of Canada a young man, but recently graduated from Cornell met a sudden and untimely end. There was a pathetic side to this life that must appeal to every human heart. In the morning of his youth, aided by gracious friends who foresaw the possibilities ahead of him he was able to work his way through college and acquire himself with honors. After a few short months of usefulness he was cut down with but little opportunity to utilize his talent. He left no name behind him for great things accomplished, but among his effects after his demise was found a paper in his own handwriting, which bore the caption "My Guide." Stop but a moment, young man, and ponder what a splendid life this young man had lived.

template what possessions were clipped short by this untimely end.

After all, if he had lived for years up to his "Guide" and accomplished nothing more it were well worth his while. We heartily commend the following to our readers' notice:

"MY GUIDE"

"It shall be my aim to respect my country, my profession and myself. To be honest and fair with my fellow men, as I expect them to be honest and square with me. To be a loyal citizen of the U. S. A. To speak of it with praise and to act always as a trustworthy custodian of its good name. To be a man whose name carries weight with it wherever it goes.

"To base my expectation of reward on a solid foundation of service rendered; to be willing to pay the price of success in honest effort; to look upon my work as an opportunity to be seized with joy and made the most of and not as a painful drudgery to be reluctantly endured.

"To remember that success lies within myself, and my own brain, my own ambition, my own courage and determination to expect difficulties and force my way through them; to turn hard experiences into capital for future struggles.

"To believe in my proposition, heart and soul; to carry an air of optimism in the presence of those I meet; to dispel ill-temper with cheerfulness; kill doubt with a strong conviction and reduce active friction with an agreeable personality.

"To make a study of my business, to know my profession in every detail; to mix brains with my efforts and use system and method in my work; to find time to do every needful thing by never letting time find me doing nothing; to hoard days as a miser hoards dollars; to make every hour bring me dividends, increased knowledge or healthful recreation.

"To keep my fortune unmortgaged with debt; to save as well as earn; to cut out expensive amusements until I can afford them; to guard my health and body and peace of mind as a most precious stock in trade.

"Finally, to take a good grip on the joys of life, to play the game like a man; to fight against nothing so hard as against my own weaknesses and endeavor to grow in strength a gentleman—a Christian.

"So I may be courteous to men; faithful to friends, true to my God, a fragrance in the path I tread." —Office Force.

Mrs. L. P. Bunge and daughter of Altair are guests at the J. C. Westmoreland home.

"MAIL ORDER" Cream Separators

When you buy a cream separator you want the best machine you can get for the money, don't you?

Well, then, just listen to this proposition: Before you order a "mail order" separator write to the concern and tell them that you want to try their machine out against a De Laval, with the privilege of sending their machine back if you decide that the De Laval is better worth what we ask you for it than their machine is worth what they ask.

That's absolutely fair, isn't it?

We'll be glad to furnish you a De Laval for such a trial any time you like and let you be the judge. We are glad to make this offer because we know that the De Laval will give you better service and cost you less in the long run than any other machine you can buy, no matter what the price.

If you already have a mail order separator, or any other for that matter, we have an exchange offer that we believe will interest you.

Before you buy a Cream Separator see and try a DE LAVAL

LET'S

Let's be more earnest, beginning today; Earnest in labor and earnest in play; Earnest in action and earnest in thought; Doing and thinking the things that we ought; Let's each be earnestly honest with each; Let's be sincere and well meaning in speech; Let's know so very much worth while and clean; We'll never talk about anything mean.

Let's be so busy we'll never have time For deeds that belittle, tales that begrime; On our own tasks let's be so intent There'll be no moment unworthily spent. Let's find so much that's uplifting and kind, Wise and constructive to busy the mind, That thoughts suspicious, unfriendly and wrong Can not have lodgment and can not belong.

Now, each one of us has some duties to do— Can't do them and these of other folks, too; So let's do our own, and with all our might, And while we're doing them let's do them right.

Let's be consistent and not criticize. True, there be many afflicted with flaws; But let's not judge them, because—well, because.

James Ravenscroft.

Practice of True Economy. Without economy, writes Nathaniel C. Fowler, Jr., in his book on "How to Save Money," permanent progress is impossible, and no work worth while can be accomplished. Economy is the world's preservative. Without it everything is spoiled.

Economy and saving are closely allied, because without the former the latter could not exist. Saving is the result of economy, although the principle of economy underlies saving.

The practice of true economy results in proper accumulation—not too large and not too little, for economy has no sympathy with the miser and no mercy for the spendthrift.

The difference between success and failure may be found in the analysis of economy and extravagance.

Progress itself is founded upon economy, even upon strict economy, because of the power it has over the character of the people.

Hoarding is not economy. The miser is but a storehouse. He receives, but does not distribute.

Economy in business and in everything else accumulates that it may direct and meet the exigencies of famine. It does not obtain for the sake of keeping; it saves in the present that it may properly protect the future.

The practice of economy is due to an appreciation of the necessity of self-preservation combined with the desire to progress properly and to build a suitable foundation.

Nobody ever amounted to anything, either in business or out of business, in the profession or in any other walk in life, from the framing of law to the making of shoes, unless he was a successful economist, as able to save as to spend. I am not referring wholly to financial saving, but to economy in the broadest sense; for one can be a sort of economist, and successful in a way, if he is not able to make or to save money.

It is a fact that financial success or business accomplishment is utterly impossible without basic, systematic and persistent saving, the continuous practice of financial economy, without more than an occasional appearance of extravagance, until one has amassed a fortune.

I am aware that it is extremely difficult at times for some people to save, but any one can avoid extravagance, if he will.

A man of small income, with a large and growing family, may find it well-nigh impossible to do more than make both ends meet; but, if the right kind of stuff is in him, whatever be his walk in life or his responsibilities, he has no excuse for not trying, for not making every effort to save, even though he may not save anything.

The very determination to save, in itself, coupled with a willingness to make reasonable sacrifices to save, may lead to ultimate success.

What we try to do we may not always do, but what we do not try to do we never do.

The practice of the principle of saving, as much as the value of amount actually put away, contributes to accomplishment, to safety, to protection and to probable success.—Office Force.
