SATURDAY, AUGUST 30, 1913

The first umbrella appeared in

the last one disappeared

about forty minutes after we

bought it.

After the next general election

when it will be "Congressman J.

J. Mansfield," how would "Judge

Quin" sound?

Our congratulations are offered

Editor Lon Davis of the Sealy

News on his appointment as

postmaster at Sealy.

As evidence that these are lively

times we mention the fact that

no body had even missed Roose-

velt until he bobbed up this week

at a snake dance.

Eagle Lake needs a civic club

organized among the women of

the town to make some of our

people wake up to the fact that

Eagle Lake needs a sewerage

system.

John Land, the president's en-

voy to Mexico, has only one arm.

Well, however, we were going

to Mexico I would rather have

an arm missing than a leg. —Judd

Lewis in Houston Post.

Some of our subscribers have

the habit of bringing long clip-

pings for us "to fill up on." If

they would substitute a big, red

juicy watermelon, or a head of

cabbage, we could make a better

job of it.

"I owe my success to the news-

papers, and to them I freely

give a certain profit of my yearly

business." —John Wanamaker.

And still you will occasionally

hear some little two by four mer-

chant contending "Advertising

don't pay."

Chewing tobacco and spitting

around on streets and against

the walls of the buildings is a

nasty, filthy habit and absolutely

useless. —Bonham News.

Rigidly enforce the spitting

ordinance, and it won't be long

before the tobacco hogs, with

their high power amber squirt

guns, will learn to lower the

sight.

What the city of Eagle Lake

needs is a wagon and team

and two men employed regularly

to work and care for the streets.

In the long run it wouldn't cost

a cent more than paying out a

few hundred dollars every now

and then for work, which if not

kept up, amounts to nothing.

Every business man in Eagle

Lake should carry an advertise-

Remarks the Philadelphia Re-
cord: "And yet Sulger wore his
old clothes to his inauguration
and called the executive mansion
the people's house."

The Galveston News says it
doesn't make any difference how
plausible the lady lobbyist is, if
she wears an X-ray skirt you
can see through her.

So far as we have been able to
learn there is not a man in Eagle
Lake who has shown any inclina-
tion to be Governor of Texas,
though they are springing up
from every town and section.

A clergyman, discussing moral-
ity and dress, remarks the Nor-
folk Virginian, says: "What a
woman wears shows what she is,"
and it must be admitted that, as
the fashions now are, it is not in-
frequently does.

"Tango dances are said to pro-
duce zanyed feet. Wonder if
any of our dancers are zanyed."

See it as they really dance it,
and you'll come to the conclusion
it can produce many things—but
nothing good.

The Shiner Enterprise is re-
sponsible for the following: "A
funny old bird is the pelican; his
bill can hold more than his bel-
ican. He can take in his beak,
enough food for a week, but we
don't understand how the heli-
can."

Formal notices have been is-
sued in Waco that the modern
dances will not be permitted at
the big ball to be given in that
city by the Central Labor Council
next Monday night. The word
on the program reads: "No new-
fangled dances will be tolerated
at this ball."

Are you in favor of Eagle Lake's
school or are you against it?
That is the leading topic of con-
versation here this week. At
any rate it is to be hoped that
Eagle Lake does not vote against
the school tax like Schulenburg
did, when the people are given
an opportunity to vote on the question.

This hot, dry weather calls to
mind that Eagle Lake needs a
sewerage system. "I would be
mighty willing to pay an addi-
tional tax for sewerage," re-
marked one of Eagle Lake's
prominent citizens. "This town
certainly does need a sewerage
system, but it looks like our peo-
ple are perfectly blind to the sub-
ject."

If all cotton stalks are burned
as soon as the cotton is all pick-
ed there may not be a sign of a
boll-weevil in Texas next sum-
mer. —San Antonio Express.

It has been proved in this sec-
tion of the country that burning
the stalks is a great help in ex-
terminating the boll weevils, but
where one man burned his stalks
but the owner of the adjoining
field would not, then not much
benefit was visible.

Governor Colquitt not only
shaved the appropriation bill,
but he seems to have shaved it
three years under the skin. —
Houston Post.

This paper has never been a
supporter of Governor Colquitt,
but it believes in the doctrine:
"Render unto Caesar the things
that are Caesar's." Colquitt has
done some mighty good things
since he has been governor of
Texas, and had he not been har-
assed at every turn by the legis-
lature, he would have done more.
We firmly believe that he could,
by pretending he was strongly
opposed to it, get any bill through
the legislature. A beautiful
state of affairs, that.

While prospective candidates
for governor can be heard from
in almost all directions of Texas,
Hon. Horace Chilton of Dallas,
former United States Senator,
is being urged by his friends
over the state to become a candi-
date for the office. Horace Chil-
ton is thoroughly qualified for
the office of governor. He is a
broad-minded statesman; he
knows no faction, and he would
be a governor of the people and
for the people.

tained with a "promenade party"

Paint Better
Better isn't enough; paint best.
A man bought "cheap" paint;
saved 20c or 30 or 40 or 50c a
gallon, didn't he?

Yes, and bought 40 or 50 or 60
or 80 percent more gallons; how
much did he make on his paint?
And he paid for painting those
gallons—a fair day's work—is a
gallon—how much did he make
on the labor part of his job?
He lost a quarter of third of his
money.

How long will it last? not his
money, the paint?
Perhaps not as long as Devoe.
How long will his money last, if
he buys other stuff as he bought
that paint?

Better buy the best paint; it
makes the least bill and least
often.

E. A. TOLIVER
DEVOE
sells it.
