**ACTS ON THE LIVER**  
Dodson's Liver Tone Livers Up the Liver—Is More Than a Mere Laxative.

Calomel was for years the only known medicine that would stimulate the liver. But calomel is often dangerous, and people are not to be blamed for being afraid of it.

Within the last few years many medicines have been put out to be used instead of calomel, but their effect is on the bowels—not on the liver. Calvert's drug store says that the only real liver medicine to actually take the place of calomel is Dodson's Liver Tone, a mild, harmless, vegetable liquid that Calvert's drug store recommended to take the place of calomel and which gives prompt relief from constipation, biliousness and sluggish liver.

So, Calvert's drug store that they give their personal guarantee with every 50-cent bottle of Dodson's Liver Tone. You can be sure that you are getting Dodson's by asking at this store if they are giving you the medicine they personally guarantee to refund money on if unsatisfactory.—Adv.
