An Irishman with one jaw swollen from a tooth he wished to have pulled entered a dentist's office. When the sufferer was put into the chair and saw the gleaming forceps approaching his face he positively refused to open his mouth. Being a man of resource, the dentist quietly instructed the assistant to push a pin into the patient's leg, so that when the Irishman opened his mouth to yell the dentist could get at the refractory molar. When it was all over the dentist smilingly asked: "It didn't hurt as much as you expected, did it?"

"Well, no," reluctantly admitted the patient, "but," he added as he ran his hand over the place into which the assistant entered the pin, "little did I think that roots went that far down."

Today and Tomorrow.

It is easy to grow weary of war, politics, society, religion, escapes and all the troublous things that figure in what is known as the news of the day, and often this fatigue sinks into pessimism. It is then the citizen should walk around the block and use his understanding. He will find attractive homes occupied by good people who are well fed. The streets are better paved and cleaner. There are fewer saloons and handsomer churches than formerly. The public utilities that furnish transportation and communication are more efficiently managed and their charges are usually moderate. The children look healthier. The evidence of material gain is general. Whether one lives in a town or city, there is revealed an overwhelming margin of progress and profit.

With the other advantages there is more courtesy in life, and we are becoming realists that development which Burke outlined. "Our manners, our civilization in this world of ours depended for ages upon two principles—I mean the spirit of a gentleman and the spirit of religion." Today is good, and tomorrow will be better.—Philadelphia Ledger.

WOMAN DROWNED IN COLORADO RIVER

An old negro woman of Columbus, blind and about 70 years of age, wife of Frank Disovia, was drowned in Columbus Tuesday. Just how the accident happened no one knows. Disovia, so we are informed, missed the woman. He reported to Sheriff Bruce Mayes that the woman could not be found and that he had tracked her to the bank of the Colorado river and he believed she had been drowned. The woman's body was found at Garwood yesterday floating in the river.

Its Human to Kick.

Just to show how easy it is to kick, and how many kicks there are coming to the people, let us consider the dog question at Jefferson City, Mo., the state capitol. The dogs made a practice of knowing the shins of pedestrians and the pedestrians kicked. The council then passed a law to impound the dogs, at which the dog owners kicked. The pound was built close to the Governor's mansion and the Governor of the state kicked. The council then changed the location and put the pound close to the mayor and the mayor kicked. The officers were instructed to catch the dogs and the officers kicked. When the dogs were caught they of course kicked against going to the pound. When the dogs were impounded they set up a yell at night and everybody in town kicked. The kicks were so vigorous that the council finally repealed the impounding law, and then all who had been bitten and all who feared dogs kicked again. Finally the council in its desperation ordered all dogs killed, and the people armed themselves for real war. In order to prevent bloodshed the council repealed the dog killing law, and now the town has the same fellows kicking it started out with. Yet some people believe the council, school board and other bodies can so act as to silence all kickers. Kicking is the great American prerogative and must go on forever.—Honey Grove Signal.

The Presbyterian people have let the contract to Geo. W. Keith for the erection of their house of worship in Eagle Lake. Mr. Keith was to begin getting the ground in shape this week, but owing to the very inclement weather, will not begin now until next week. The building will be erected on State Street, between the residences of Miss Andrew Chittenden and Mr. W. Keith. This is the former Mrs. H. Burg lot. The building will be of brick veneer, 30x48 feet and will cost about \$2700. We are informed that Mr. Frank Stephens, of the Frank Stephens Company, is the most liberal donor to the building fund, he

having subscribed \$800. It was at first decided by the Presbyterians to erect just a modest little building, but when they received this handsome donation, they decided to erect a better building. Rev. Mr. Storey deserves much praise for the active work he has taken in the building arrangement work.

In trying to get the bucket containing the tar off the stove the burning tar boiled over on his hand. The whole hand was abraded, and the injury is very painful to him.

There is more Catarrh in this section of the country than all other diseases put together, and it is incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

He says down here we have had just about one third the rain that Weimar has.
