MUCH OF POTATO CROP IS A LOSS

Just what the outcome of the potato crop through the overflowed district will be, yet remains to be seen. Some of the potato men claim their entire crop of potatoes, which was covered by the water, is already a total loss, and practically every potato now in the field is soft and rotten, and where the dirt was washed off leaving the potatoes exposed they are rotten and worthless. Mr. W. J. Magee reports that his entire crop is practically ruined. Mr. John Helmer says the potatoes in the overflow district through the Bonus and Nedra sections are ruined, and ten percent of the crop will not be saved. Messrs. Brisbois & Terrell report that they are of the opinion that they will yet be able to market about half of their crop. Dr. P. T. Gordon states that practically every potato in this place is rotten and worthless. It is safe to say that on those fields where the water stood for any length of time the potatoes are ruined, but those lands which were in potatoes and were quickly drained, it is believed by the farmers that a good percent of the crop will yet dig out in good condition.

Croup and Cough Remedy. Croup is a terrible disease, it attacks children so suddenly they are very apt to choke unless given the proper remedy at once. There is nothing better in the world than Dr. King's New Discovery. Lewis Chamberlain, of Manchester, Ohio, writes about his children: "Sometimes in severe attacks we were afraid they would die, but since we proved what a certain remedy Dr. King's New Discovery is, we have no fear. We rely on it for croup, coughs and colds." So can you. 50c and \$1.00. A bottle should be in every home. At all Druggists. H. E. Buckner & Co., Dallas, Texas.

Mr. Ike Rosenstein of Hearne is in the city today. He is a former Eagle Lake citizen, his father having been in business here many years ago. The family moved from here to Hearne in 1890 and this is Ike's first visit back to Eagle Lake since that time. He is now the largest merchant and owns the largest and most handsome dry goods store in Hearne. He is meeting many old friends here today and says so many changes have taken place in Eagle Lake since he left here that he scarcely recognized the town.

Prof. A. P. Bolton of Chesterville was here on business last Saturday and paid the Headlight office a pleasant call. This paper stated in a recent issue that Prof. Bolton had given out that he would be a candidate for county school superintendent but he says it is his intention to become a candidate if the present incumbent, Prof. Quin, offers for re-election, but in the event that Mr. Quin is not a candidate, then Mr. Bolton says he will offer his name to the voters of the county as a candidate for that office.
