SYLVESTER SMITH WAS BITTEN BY APOL CAT

Pole Cat Attacks - Him - While Asleep
Near Garwood Saturday Morning;
Taking Treatment at Austin.

Mr. Sylvester ("Konto") Smith son of Mr. and Mrs. W. B. Smith was bitten three times by a pole cat early last Saturday morning. Accompanied by his mother, the young man left last Sunday night for Austin to take the Pasteur treatment. Sylvester and another young man, Wallace McGlothin, were down on the Pin Oak, eight miles from Garwood, so many people in Eagle Lake breaking up some land. At night who want to see the show, he they slept on quilts on the floor has decided to show here of an old house in that vicinity again before leaving. He will About four o'clock Saturday give one exhibition on the Konto lot, across from the Aransas Pass depot next Monday night, February 22nd. It was Mr. Newton's intention to load the show on cars and ship to San Antonio from here the first of the week, but since so many people have requested him to show again, he has decided to show on the date above mentioned. He at first decided to show on Saturday, but a number of the business men of the town informed him that it would be impossible for them to

make their home with their mother, Mrs. Jones of Goose Creek. Mr. Watson was in Eagle Lake only about a week before his death. He has many friends here who sincerely regretted to learn of his death, and who sympathize with the bereaved ones. The following account of Mr. Watson's death is taken from Monday's Houston Post:

"While in Houston to attend the funeral of a relative, G. S. Watson of Eagle Lake was suddenly

stricken in Mike Gignor's White Kitchen No. 2 Sunday afternoon at 2 o'clock and died in Westheimer's ambulance before St. Joseph's infirmary was reached.

Mr. Watson, in company with his brother-in-law, G. R. Wilson, and daughter of Sugarland, with whom he had been visiting, came to Houston Sunday morning to attend the funeral of Mr. Wilson's niece, Mrs. Gertie Cluny, who was to have been buried at 4 o'clock in the afternoon. Mr. Watson had been complaining of feeling bad during the morning and remarked to Mr. Wilson that his breath was short.

When he was first noticed in the restaurant he began screaming. W. A. Cather, an attorney, heard him and ran to his side. Mr. Watson dropped and Westheimer's ambulance was called. A hurry up run to the infirmary was made and before they had gone more than a short distance Mr. Watson began to foam at the mouth. While within a few blocks of the hospital he suddenly stiffened out in the arms of Mr. Cather, who went in the ambulance with him, and died. He was about 48 years of age.

Justice Ray was called to hold an inquest and returned a verdict of death from natural causes. Mr. Watson is survived by his mother, Mrs. N. S. Watson, and a sister, Miss Anna Watson, both of Sugarland, one daughter, Miss Isabell Watson of Eagle Lake, and four sons, Raymond, Lawrence, Clement and Pierce, all of Eagle Lake.

The remains will be shipped to Eagle Lake by the Sid Westheimer Undertaking company Sunday night.

The remains were brought to Eagle Lake on the two-thirty Southern Pacific Monday afternoon, the funeral taking place from the Southern Pacific station immediately after the arrival of Mr. W. B. Hale, of Omaha, Neb.

Interment was made in the Masonic cemetery, Rev. J. E. Pyle, the Methodist pastor, conducting the services at the grave.

Word was received here Sunday afternoon of the sudden death in Houston of Mr. G. S. Watson of Weatherford, formerly of Eagle Lake. For many years Mr. Watson made Eagle Lake his home, but at the present time he was on the road and made his headquarters at Weatherford, though three of his sons, Raymond, Lawrence and Clement, continued to make their home here. His daughter, Miss Isabell, and youngest son, Pierce, made their home with their mother, Mrs. Jones of Goose Creek. Mr. Watson was in Eagle Lake only about a week before his death. FIRE GUTTED COLUMBUS HIGH SCHOOL BUILDING

THIRTY-FIVE HUNDRED DOLLARS DAMAGE DONE TO BUILDING LAST FRIDAY NIGHT; ORIGIN UNKNOWN.

The high school building at Columbus was damaged by fire last Friday night to the extent of about \$3,500. The lower and upper south rooms and the two east rooms suffered principally, the fire destroying the ceilings and window casings. All the other rooms were damaged by water which severely injured the plastering. The fire started five hours after school turned out in the afternoon and no fires had been built in the stoves that day.

No solution is offered for the origin of the fire. Several of the volunteer firemen risked their lives heroically in climbing into burning upstairs windows and the building was saved by their efforts. The building cost ten thousand dollars twenty-one years ago. Teaching is continued at the Stafford Opera House and the old Baptist church while repairs are being made to the school building, which will probably require a month.

Mrs. Wm. Roos, Mr. and Mrs. Mentor Northington, Will Northington, Mr. and Mrs. Bowie Duncan and Donald Duncan of Egypt were here last Friday night to attend the firemen's mask ball.

FINE WEATHER PREVAILS AND FARMERS ARE BUSY

With Bright Weather And Farm Work Progressing Things Generally Are Opening and Brightening Up.

Farmers generally throughout this community have been taking advantage of the beautiful weather of the past ten days, and have been working in the fields from early morning until late in the evening, getting in every minute of time to make up for the delays caused from the continued unfavorable weather. This week will practically see a completion of the potato planting in this section. The Northern seed planted throughout the Eagle Lake section were received in splendid condition, and unlike past seasons, most of the seed potatoes were large stock. It is estimated by conservative potato men that the acreage in potatoes in the Eagle Lake district will be decreased from last year by about one third of last year's acreage. The cotton and corn farmers are going right ahead with their work, and the corn acreage will be increased to a considerable extent over last year, while the cotton acreage, it is estimated, will be decreased fully twenty-five percent. The rice acreage will be materially increased, about 2500 or more acres more put in this season. On the canal of the Lakeside Irrigation Company.
