BRAZIL TO EXCEED 1934 COTTON CROP 32 PER CENT

Those who have been harping on the "short crop" in the cotton States, might do well to read this from Rio De Janeiro, Brazil, appearing in the daily newspapers under date of July 13.

Brazil this year is expected to exceed by more than 32 per cent her 1934 record cotton crop of approximately 1,233,477 United States bales. It was officially stated today.

Figures confirmed by the ministry of agriculture showed an estimated total crop of 370,500,000 kilograms in 1935, equivalent in United States terms to 1,633,900 bales.

If all that cotton is immediately useful there will be for the first time more than 1,000,000 bales available for export. Brazil's infant textile and by-product manufacturers have hitherto used not more than 500,000 bales.

This "youngster"—who probably is the oldest individual in Colorado County—celebrated his 102nd birthday last week. Standing immediately back of the birthday cake is his wife, who is 89. Mr. Kainer, who has been a resident of the Weimar area for 63 years, was born in Weis Kirchen, Moravia, Czechoslovakia, July 8, 1833. His wife was born also in Moravia. At present the couple live in the Sedan section, five miles northwest of Weimar.

GOV. ALLRED WILL ATTEND RODEO HERE

The Governor And His Young Son Will Be Guests During Their Stay Here Of Mr. And Mrs. Howard Fitzgerald.

Governor James V. Allred has written W. A. Barnett and H. C. Fitzgerald that he will be in attendance at the Duncan Ranch rodeo Sunday. The Governor, accompanied by his small son, expects to reach Eagle Lake Saturday afternoon, August 3rd. However, he writes that he might not get here in time for the Saturday afternoon rodeo performance.

The Governor is expected to lead the rodeo parade on Sunday afternoon. He and his son will be guests of Mr. and Mrs. H. C. Fitzgerald during his stay in Eagle Lake. The Fitzgerald family, were neighbors of the Allred family when Mr. Fitzgerald lived in Wichita Falls and was a member of that baseball team.

Mr. Duncan has also invited two all-American football players, Harrison Stafford of Princeton, and William Wallace of Rice, an Eagle Lake boy, to take part in the parade. Both have written Mr. Duncan that it is their intention to be here.

Two thousand seats rented from the Christy Bros. Circus at Houston, together with seats already on the grounds, will provide three thousand seats for spectators at the Duncan Ranch rodeo, four miles south of Eagle Lake, on August 3rd. and 4th.

A canopy has also been rented from the Christy Bros. shows, which will cover and furnish a shade for practically all of the seats. This will be probably the first big rodeo ever held in this section furnishing the spectators with covered seats at no extra cost.

A section of eighty special seats is being set aside exclusively for the old-timers who helped settle this section of the country and who have made it what it is today. No extra charge will be made for these seats.

From all indications and the vast arrangements going forward this is going to be the biggest and best rodeo ever held on the Duncan ranch. There will be a big days of riding, roping and decorating.

This steer decorating is a new rodeo stunt, which has been used in California and has been received with much favor there.

Two other feature events will be the bronc riding, in which the famous D-Cross broncs will perform, and the girl's riding contest. In the latter contest the best girl riders in this section of the country will try their figure eight against time.

Two other events which always bring plenty of excitement are the Brahma bull riding contest and the steer riding events. Both boy's Brahma steer riding events. Both of these events are plenty wild. The roping contests will include the break-aways, which attract ropers from a little of everywhere, and the tie-downs, which always furnish plenty of thrills.

The rodeo programs will be rounded out with two novelty events which originated at Duncan Ranch rodeos, the night saw race and the calf wrestling contest.

The big cowboy dance, an event that always draws the largest dancing crowd of the year, will be held at Riverside Park at East Bernard, on Saturday night, August 3rd.

William Kreuger's famous cowboy orchestra will furnish the music and cowboys and cowgirls galore are expected to be there. Souvenirs will be given for the best cowboy and cowgirl costumes, both modern and those representing the gay nineties. However, Mr. Duncan advises, it will not be necessary to be in costume in order to attend the dance. An added attraction for the dance, will be Walter Jenkins of Houston, internationally known Rotary singer, who will sing cowboy songs during intermission.

There will be a practice roping, which will include both breakaway and tie-downs, Friday afternoon, August 2nd, at the Duncan ranch. All ropers and spectators are invited. No admission will be charged for the practice events.

CITY PLANS FOURTEEN THOUSAND DOLLARS ADDED STREET WORK

When Citizens Plead For Additional Improvement, City Plans Larger Program To Give All Streets Curb And Gutter.

Following Wednesday night's meeting of the city council, when a number of citizens appeared before the body asking for additional street improvement, the council planned for $14,000 additional street improvement in the present program.

Citizens before the council pleaded for curb and gutter on various streets of the city, in which the improvement program did not include curb and gutter.

The additional street work to be undertaken by the city includes curb and gutter on all paved residential streets in the city, the opening of Stockbridge Street through the stretch in front of the S. O. and Bruce McCarty homes to connect with Strickland Avenue and the paving of Beakes Avenue from the highway to the Eagle Lake Rice Mill. The new program included curb and gutter for all paved streets in the city except Beakes Avenue which will have a twenty-foot pavement with a three-foot stretch of treated gravel on both sides.

The enlarged street program will necessitate an increase of 10c on the hundred dollars valuation in city taxes, the Headlight is informed.

The city's plan is to borrow $8000, or $9000 from the First National Bank on warrants on which amount 45 per cent grant from the PWA will be secured.

Citizens of the city entered strong protests at the meeting Wednesday night, that some streets should be paved with curb and gutter and other streets paved without the curb and gutter. To satisfy all citizens entering protests and in order to add curb and gutter to all residence streets now being paved, the city council decided as stated above, which it considers the only feasible plan to accomplish the work.

FRELSBURG WELL HAS SHUT DOWN AT 3765

The Walter Keeble, also known as the Trent-State well, the No. 1 Frank Washum, 10 miles north of Columbus near Frelsburg, is shut down at 3765 feet.

The Creighton Company well, also known as Trans-State, the No. 1 Wilie, near Bernardo, eleven miles north of Eagle Lake, has not resumed activity since setting surface casing at 362 early in July.

Though one of the Houston papers in its Wednesday issue stated that the Coyle-Concord well, the No. 1 J. L. Rossington, in the Garwood area, was drilling at 1000 feet, the well has not resumed drilling since the Hardin-Jones crew left there weeks ago. The well set casing at 798 feet and shut down to await arrival of Joe Hartmangruber, driller, who is on a contract job in the border section. Mr. Coyle did not expect to resume activity under thirty to forty days, the time necessary to complete a drilling contract before Hartmangruber is able to get on the job.

STOCKBRIDGE STREET TO EXTEND TO STRICKLAND

Street Will Be Opened Through To Strickland Avenue, And Beakes Avenue Will Be Paved From Highway To Rice Mill.

Following Wednesday night's meeting of the city council, when a number of citizens appeared before the body asking for additional street improvement, the council planned for $14,000 additional street improvement in the present program.

Citizens before the council pleaded for curb and gutter on various streets of the city, in which the improvement program did not include curb and gutter.

COLORADO COUNTY GETS SEVENTY-TWO THOUSAND DOLLARS FOR ROAD WORK

Houston Office Grants Appropriation, And County's Work Program Expected To Begin August 15th.

Colorado County has been granted $72,900 under the Government's big work program for grading and graveling country roads.

The county had made application for $180,000 for this work, but when the matter came before the Houston office for final o. k. this week, the county found itself handicapped and the small number of people on the relief rolls June first, the amount being cut to 40 per cent for the present, or $72,000.00. The county had only 212 men on the relief rolls June 1st. Other money will be available for city and school improvements, the Headlight is told.

Since the $72,000.00 grant is made to Colorado County by the Houston office, of which John S. Bonner is the head, the matter now goes to Washington for final o. k.

County Commissioner H. L. Reading is in Houston today working out final details for the work. This sum of money for county road improvement is practically assured, and Mr. Reading expects that the county will have the money here and that this new work program will get under way by August 15th. In this grant to Colorado County, this county gets the first active project in Texas in the Government's four hundred million dollar appropriation.

The county commissioners and the members of Colorado county's Planning and Co-ordinating Board deserve a great deal of credit for the fine work they have put in this matter for their county's interest.

The $72,000.00 appropriation for Colorado county will be divided among the commissioner's precincts, approximately, $24,000.00 to Eagle Lake; $24,000.00 to Weimar; $12,000.00 to Columbus and $12,000.00 to Bernardo.

The county Planning board met at the Rotary Hall in Eagle Lake last night with John Walker, Henry Brasher and M. Lauterstein of Weimar, and H. L. Reading, E. O. Boothe, L. W. Stiles and O. J. Wintermann, present. All projects at work under this program must come through the County Planning Board.

GARWOOD TELEPHONE EXCHANGE OWNER IS KILLED ON HIGHWAY

J. L. Young, Prominent Garwood Citizen, Died In Doctor's Office Late Tuesday Shortly After Being Struck By Passing Truck.

J. L. Young, 61, owner of the Garwood Telephone Exchange, prominent and well known citizen of Garwood, died in Columbus late Tuesday from injuries received in a highway accident.

He, with Leo Schilling, was making repairs to the telephone line near Vox Populi, a few miles west of Garwood, on Highway 71. Their car was parked at the roadside opposite the home of Ben Malek.

While working aboard around the parked car to pick up a wire, extending from a high pole across the highway, he was struck by the trailer on a truck driven by David Lundquist, who was accompanied in the truck by his son, Kermit, en route to Columbus.

Immediately following the accident, Mr. Young was taken by automobile to a doctor's office in Columbus, where he died about thirty minutes after reaching the physician's office.

The Messrs. Lundquist were making a shipment of about ten head of cattle, which were loaded in the trailer. The trailer overturned shortly following the accident, killing one of the bulls.

The deplorable accident occurred shortly before 6 o'clock in the afternoon. While, from all accounts, the accident was unavoidable, Mr. Lundquist has taken it hard, a doctor having had to be with him.

The tragic death of Mr. Young, one of Garwood's fine gentlemen and splendid citizens, has cast sorrow over the entire community.

Mr. Young moved to Garwood seven years ago from Oklahoma, and had been prominently connected with Garwood's business and social life since that time.

He is survived by his wife and his mother, Mrs. H. J. Young, who recently passed her 93th birthday, two sons, Fred Young of Conroe and Roy Young of Refugio, and seven daughters, Mrs. Lula McMillan, El Campo; Mrs. Opal Green, Ganado; Mrs. Mabel Werlin, Rosenberg; Mrs. Hazel Mathis, Wharton; Mrs. Beulah Shoop, Garwood, and Misses Grace and Edna Young of Garwood. Another son died at the age of three years, twenty-one years ago. He is also survived by a sister, Mrs. P. P. Boyer of Nowata, Oklahoma, and a brother, P. P. Young, of Bartlettsville, Oklahoma, who was in attendance at the funeral. Another brother of Mr. Young recently died at Conway, Iowa.

The people of the entire Garwood section extend deepest sympathy to the sorrowing members of the family in their great sorrow.

DENSON MAKING FARM SURVEY AROUND GARWOOD

Farm surveys are being made in the Garwood area by T. J. Denson, the new vocational agriculture teacher for the Garwood school. He hopes to have the preliminary work complete by the first of September.

The purpose of the surveys is to determine the real farm problems of the community and facts as a basis for setting up a teaching plan in vocational agriculture.

A course in agriculture to be worth while in any community, Mr. Denson says, must be based on actual farming practices already existing in the community.

The best method of obtaining this information, he says, is through the farm survey, the teacher of vocational agriculture in a community man as well as a high school teacher. His duties carry this responsibility. If at any time his services are needed by any one in the community, he will be glad to give his assistance.

Mr. Denson can usually be found in the vocational agriculture building at the Garwood school or at the Brady Hotel.

After the busy season is over, adult farmers will be given an opportunity to attend evening classes conducted by the teacher and other agriculture leaders. The classes will take up certain farm problems common to the section.

Mr. Denson is thankful to Superintendent E. G. Marshall, to the members of the Garwood school board and to the farmers of the Garwood district for the fine cooperation they are giving him.
