passenger cars. In establishing the rate, the loard, for the first time in history, took into consiration insurance compan income from investments and all other sources, But it backed off from the "net worth concept" which would have produced still higher rates. Staff members of the state regulatory agency last November recommended an average hike of 23.4 per cent. Industry actually asked 27.7 per cent, and reportedly is disappointed at the end result, since it got only about half of what it wanted.-

Board membersestaunchly fended their findings as adequate, however, and said rates will allow after-taxprofit of 5.1 per cent on total assets, or 7.2 per cent be-
