Fuel Allocation Procedures Are Listed

Farmer, Supplier Urged To Solve Problems

Clarification of procedures for farmers and ranchers to use in filing forms for fuel allocations were made Friday by Mr. M. Fowlie of Dallas, Regional Administrator for the Southwest Region of the Federal Energy Office (FEO).

"First of all I want to emphasize that the farmer should make every effort to solve his problem through his individual supplier," Fowlie said.

The address of the regional FEO office is: Federal Energy Office, P.O. Box 2263, Dallas, Texas 75211.

"The farmer or rancher is entitled to 100 percent of his current requirements, and his supplier should see to it that his product is delivered," Fowlie continued.

"But I also want to emphasize this does not exempt the farmer or rancher from using conservation measures like everyone else," Fowlie noted.

There are two instances where a person involved in agricultural production would apply directly to the FEO regional office, using FEO Form 20.

1. If he qualifies as a wholesale purchaser (he buys 20,000 gallons or more annually) and none of the suppliers he has contacted are willing to accept him as a new customer, he should be encouraged to do under the regulations, he has the desired supplier fill out block 12 on the FEO Form 17 and sends the Form 17 application to the Dallas or other appropriate regional FEO office asking him to be assigned to a supplier.

2. If he qualifies as a wholesale purchaser, and his supplier cannot agree on the base period allocation volumes to be provided, he should fill out block 12 on the Form 17 and sends the Form 17 application to the Dallas or other appropriate regional FEO office for resolution.

There are two instances

when a person involved in agricultural production would apply directly to his state allocation office. If he encounters either of the two situations described above, but is not a farmer or rancher or qualify as a wholesale purchaser, he would apply to the state office on FEO Form 20 for assignment or adjustment, rather than to the regional office.

Of these situations relate to former term holders. In the short term, the farmer or rancher is out of fuel and is a hardship case, he contacts his state allocation office and makes application.

It is necessary for the farmer or rancher who does not qualify as a wholesale purchaser to submit any form unless he finds himself in one of the situations described above. If his supplier or supplier asks for a certificate of this kind, an ordinary letter should suffice.

The address of the regional FEO office is: Federal Energy Office, P.O. Box 2263, Dallas, Texas 75211.

(within 3 months of your visit to Social Security), you should take her with you and she should be prepared to tell them her number, when she married you, her married name, how much she earned in the previous year, how much she will earn this year, and if she was married previously furnish the dates of all previous marriages, who she married, and where and how long she was married.

Prinds will be glad to see that Mrs. Little Schilling is at home after spending a few days in the Eagle Lake hospital. We hope she continues to improve.

The Social Security number is important because your record of earnings is on file according to your number. No one else is supposed to have that number.

If you have children that are under 18 or 18 to 22 and unmarried, you can qualify for pay if you do. Social Security will be glad to know the names and addresses and all other dates of birth and their correct full names.

You should take your documents you plan to use to prove when you were born. If you were baptized before age 18, Social Security will want to see the baptismal record and make a copy of it. Or if you had a birth record recorded publicly before you were age 5 they will want to see that. They don't keep the records. They make a copy.

Many people plan to apply for Social Security some time this year or may want to see the people at the office to find out about it. They don't keep the records. They make a copy.
