COULD THIS BE A WINNER? The Texas Department of Agriculture inaugurated its Family Land Heritage Program July 1 to recognize Texas farmers and ranchers whose families have been involved in a century or more of agricultural production on the same land. Those who qualify by Aug. 31 will be honored in a special ceremony at the State Fair.

OWNERS OF LAND IN COUNTY SINCE 1874 TO BE HONORED

Farmers and ranchers in Colorado County whose families have been involved in a century or more of agricultural production on the same land will be honored in a special ceremony at the State Fair this year and short history of their family and land heritage directory.

The program, which will be initiated July 1, will "pay tribute to those families who have proved their respect for and dedication to the land," White said.

"This county has some of the oldest establishments in the state, with a long history of dedicated service to the agricultural community and those who have lived on the land," White said.

Any family who is certified by Judge Lester J. Crank will qualify for the honor. An applicant need only show a continuous family relationship between the founder of the homestead and the present owner.

The land must have been in use for agriculture by the family since 1874 or before. Those who do qualify by August 31 will be recognized in a special ceremony at the State Fair this year and short history of their family and land heritage directory.

Christian Conversion

(By Richard B. Douglas) Jim has completely changed. He is a new man. He is a Christian. He is a member of the church. He is a good man. He is a happy man. He is a successful man. He is a man who is loved by all who know him.

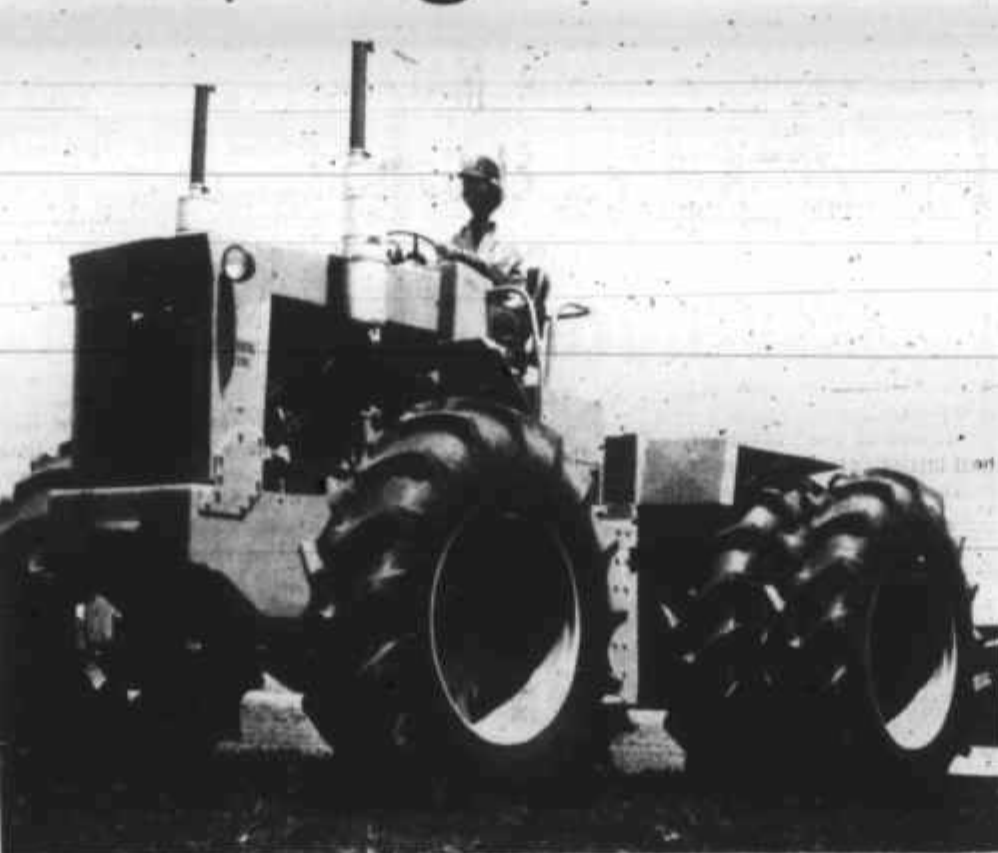

Jim's conversion was a dramatic event. It was a turning point in his life. It was a moment when he decided to follow Jesus Christ. It was a moment when he chose to live a life of faith and love.

Jim's conversion was not a sudden event. It was a process. It was a journey. It was a path that led him from a life of sin and darkness to a life of light and hope.

Jim's conversion was a gift from God. It was a blessing that he did not deserve. It was a grace that he could not earn. It was a love that he could not understand.

Jim's conversion was a miracle. It was a sign of God's power and love. It was a testament to the truth of the Gospel. It was a witness to the world of the power of the Holy Spirit.

Results To Be Slow In Mallard Release Program

It may take several years for Texas Parks and Wildlife Department biologists to determine the success of a mallard duck release program now in progress.

The program, sponsored in part by a \$10,000 donation from the Pearl Brewing Company, involves pen-rearing 20,000 mallard ducks until they are about three weeks old and releasing them in various parts of the state.

Objectives of the program are to establish a free-living local nesting population of mallard ducks in Texas. Parks and Wildlife Department officials say the success of the program will be determined by the number of nesting birds in the release areas next year.
