## Raiders Review

The RAIDERS REVIEW is published by the journalism classes of Rice High School. The opinions reflected are those of the students and not the administration, unless stated.

### GOOD REASONS TO STAY IN SCHOOL

Last month meant the opening of school again. But how many will start and never finish? Unfortunately, the answer is too many.

The quitter gives many reasons for leaving school, reasons that range from ill health and poor grades to quarrels with a teacher, gang pressure, and social discouragement, and poor sportsmanship. Sometimes, the quitter doesn't know why he drops out. He simply does because it's the easy way to go, which hardly is a reason at all.

None are good reasons because doing your thing in school until you graduate provides these common sense benefits.

A diploma is recognized by business, industry, and government agencies. Without that little piece of paper, too many doors to employment are locked.

The chance to grow mentally, socially, physically means participating in class, doing homework, feeling comfortable at a party or on a dance floor, keeping in good condition by exercising regularly.

Here is the opportunity to make new friends and to keep old ones.

This is the time to learn about art, music, literature, little things that become tremendous when it comes to enjoying life to its fullest.

It is time to experiment with your mind and hands and to learn whether or not you would rather be a mechanic, a baseball player, or a teacher.

There is the chance to communicate with a clerk or a corporation president and be respected for the way you handle yourself in conversation or in a letter.

There are many, many more reasons for staying in school. Think about them. Consider your future. Don't be a quitter!

Learn to make the most out of your life.

**SPRIT PLAYS A BIG PART**  
(By Larry Bowen)

Spirit counts when you're down by two touchdowns in the fourth quarter. Spirit counts when you're behind by four in the bottom of the ninth. Spirit counts when you're in U.I.L. competition. It also counts when you're on top of the world.

The spirit at Rice High School has been dwindling of late and unless there is an about change of face it will soon reach a new low ebb. This gradual downhill slide in attendance and participation should be realized and coped with.

With a concerted effort we can all get behind the people who represent us. If every one tries hard school spirit will jump and the results will show favorably. After all, spirit counts.

**Two Students Win Contests**  
(By Laurel Anderson)

Donna Danklefs and Dana Wiese, both from Rice High School, won coveted honors this summer.

Donna received the title of International Flying Farmer Teen Farmerette on June 7, 1974. She told of her family having been members of this organization for 25 years and the fun for both young and old.

Donna entered the contest because she was pushed into it by some of her fellow teen members of the organization. She felt very excited about winning the title because she knew Texas was supposed to host the International Convention in August, and knew that she would act as hostess for some 200 teens to arrive.

Donna really enjoyed the contest because she got to meet new people and had tours of exciting places in old San Antonio. There was also a dance that was sponsored for the teens which was also fun.

Dana won the title of Farm Bureau Junior on July 13, 1974. She entered the contest to simply have fun and to meet new friends.

Dana won the title of Farm Bureau Junior on July 13, 1974. She entered the contest to simply have fun and to meet new friends.

**Where Are Our Valedictorians?**  
(By Joe Garcia)

Rice High School's valedictorians during the past four years are still being studied and sought toward their various majors.

Rossie Janish (70-71) will graduate this year from the University of Texas and is presently at John Sealy Hospital working with medical records. Rossie is from Nada and is the daughter of Mrs. Tillis Janish.

John Moore (71-72) will be a junior at the U.S. Naval Academy in Annapolis, Maryland this fall. John is from Eagle Lake and is the son of Mr. and Mrs. Elmer Moore.

Thomas Janish (72-73) will be attending Wharton (Covey Junior College) in Utah and Accounting. It will be his second year at WJC. Thomas is a brother of Rossie and both are sons and daughter of Mrs. Tillis Janish of Nada.

Denise Rees (73-74) will be a freshman this fall at Wharton County Junior College and will work toward her goal to become a Registered Nurse. Denise is the daughter of Mr. and Mrs. Boyd Rees of Woodward.

We salute each of these valedictorians and wish them the best of success through their studies.

**Mrs. Tomchesson Enjoys Working At Snack Bar**  
(By Joe Garcia)

Beginning her first year working at the snack bar here at Rice, Mrs. Hazel Tomchesson enjoys the new surroundings in which she works.

"I enjoy working here at Rice because it's a new challenge and most of all I like to serve the students," said Mrs. Tomchesson.

She is the mother of four children and resides in Eagle Lake with her husband, who is employed in farming.

Mrs. Tomchesson has hobbies such as sewing, fishing, and hunting but likes gardening most of all.

**P.V. Student To Teach H.E.**  
(By Rick McDonald)

There will be a new student teacher at Rice this semester, Barbara Ann Walker is a student at Prairie View. She arrived on campus on Tuesday, September 3. Her teaching assignment will be done in home economics.

**Enrollment At Rice Increases By Two**  
(By Mike Armstrong)

Total enrollment of students at Rice this year is 564 students with 285 boys and 279 girls. The senior class has the lowest number of students with 68 girls and 61 boys. Next in line is the junior class with 73 boys and 64 girls. Then the sophomore class has tied for the largest number of students with 80 boys and 72 girls. Also, the freshman class has 81 girls and 71 boys. We have increased enrollment by a total of two students since the 73-74 school year.

**Rookies Paint Marching Lines**  
(By Laurel Anderson)

The freshmen managed somehow to paint themselves. This really wasn't too surprising, since everyone knows how freshmen are these days.

Just to show you that strange things do happen to freshmen, another incident was that while a boy was simply tying his shoe, he somehow lost his balance and found himself lying on the asphalt parking lot. Don't worry freshmen, we're still counting on you!

**Teachers, 100 Years Ago**  
(By Trace Hartfield)

One hundred years ago teachers were expected to do many things that are not required of the teachers today. It seems the good old days were not as good as we are always being told. In 1872 there was a set of rules that teachers were supposed to follow and they were as such: First, teachers each day would fill lamps, clean chimneys and such teacher would bring a bucket of water and a scuttle of coal for the day's session. Men teachers could take one evening a week for courtship purposes. If they attended church regularly, they would receive something about women teachers' courtship privileges. What did the men teachers court? Ah yes, here's something to explain that. The women teachers were married or engaged in an unassuming conduct (like permitting themselves to be courted) would be dismissed. Any teacher who smoked, used liquor in any form, frequented pool or public halls, or got around in a "cabaret" would lose good standing. Teachers were expected to be good, honest, and lastly, the teacher who performed his job faithfully and with out fault for five years would be given an increase of 25 cents per week in his pay. So as you can see, the good old days weren't always as good. Right teachers?

**Students Have First Assembly**  
(By Rick McDonald)

Students attended the first assembly of the school year held last Monday, August 26 in the gym.

Principal Fred Gramham welcomed students and wished them a fruitful year.

Some of the subjects touched upon by the principal were the dress code, grades, absences and U.I.L. participation. Boys were told to keep hair of a reasonable length and girls were reminded that it is not in appropriate attire if any bare skin shows at any time.

Grades were stressed and honor roll eligibility was explained at the assembly.

Moore except in sick or emergency situations were explained to be unexcused.

In closing, Mr. Gramham wished all the students a successful school year.

**Raiders Have A New Look**  
(By Mike Armstrong)

This fall, the Rice Raiders have a young and eager team. With their offense being run off the I formation, this is a balanced offense with a passing and running attack. The defense will be the 4-3. The team has four seniors and a herd of juniors and sophomores heading the team. Their toughest opposition should be Wharton and West Columbia, which are in Rice's zone.

Coach Mackey says that once we get started and get down our offense and defense in pre-zone, that by zone, if we get some breaks, we should do well.

**Typing II Is Available Again At Rice HS.**  
(By Laurel Anderson)

Typing II has been reinstated in the curriculum at Rice High School after an absence of three years. Typing II students will render their class periods for the service of teachers in all areas.

Some teachers have already taken advantage of this opportunity, but Mrs. Cooper, Typing II instructor, wants all the teachers to know that these students will gladly type anything for them.

**Sunshine Class Has Family Worship Study**  
Nine members answered roll call at the Sunshine Class meeting Wednesday, August 28 in the home of Nellie Larson. After the business meeting, Opalita Rabe gave the fifth unit of the group's study. This unit dealt with family worship at home and worship in the church. It told the things a family should do as contributions to the church as Christians.

Those in attendance signed several "get well" cards to send to those who are ill to let them know that they are in the class' thoughts and prayers. The meeting closed with the Class Benediction. Nellie served delicious refreshments of sandwiches, cookies, nuts and line sheet punch to the nine members present.

Nellie Shell will be hostess for the September meeting.

**Rice FFA Show Barn Gets Check**  
Lions president W. C. Dupre presents a check for \$206 to Principal Fred Gramham for use in the new Rice FFA Show Barn Projects. The funds were proceeds from a recent ice cream and cake sale sponsored by the Lions.

**Highway 59 Loop At Wharton Open**  
The new 7.2 miles of U.S. four-lane expressway around Wharton is open to traffic. Several items of work are still in progress since the opening to traffic so motorists should exercise caution in the work areas. Ample signs and pavement markings are in place to keep the driver informed.

**NEW SUBSCRIBERS**  
Added to the Eagle Lake Headlight's subscription list during the past week were: The Rev. Otha Hawkins of Houston; Mrs. D. D. McDonald, city; Doris Kasmirsky of San Antonio; Jeff Ware of Houston; Kay Beth Brunner in San Antonio; and college students, Randy Hunter, Jerral Higgins, Jeff Franks, Jacalyn Bauer, Ann Sunderman, Kurt Thomas of Southeast Texas University; Bud and John Seasholtz of Sam Houston State; Griff and Russell Thomas of Texas University; Dr. Charles Kallina III in Charleston, South Carolina; Carol Wick in Sam Houston in Huntsville.

with Elsie Beane conducting the study.

**Automatic GAS Heating**  
the most comfortable winter warmth anyone can have

**AND!**  
It's completely reliable. Hardly ever needs service... doesn't let you down at the times you need it most.  
It's so inexpensive to use that you can keep your entire home at a uniform, healthful temperature. No need for little-used rooms to stay cold to avoid sky-high operating costs.  
It's so clean and safe, you can be sure and secure. America's most famous museums rely on gas heating to protect their priceless art treasures. The leading manufacturers of precision instruments, such as computers and space flight controls, trust their assembly of the most delicate components to the cleanliness of gas heat. And gas heats the greenhouses of the nation's largest commercial flower-growers.  
When in need of a new heating system, you can put your full confidence in GAS. That's why just about everyone who knows the difference, uses it.
