AN EDITORIAL

TIME IS SPENT

The longest year, Leap Year, has 366 days and every day, 24 hours. However, you sleep about eight hours per day, which means a third of your time is spent in bed rather than in school. Therefore, one third of 366, or 122 days, are lost so there are only 244 days remaining for school. But you spend another eight hours each day performing such vital functions as eating, washing, dressing, playing, traveling, watching TV, flirting, visiting, reading the paper, etc., and another third of your possible school time is gone, leaving only 122 days.

TIME FOR REFLECTION

(By Larry Bowen)
The first northern has arrived and at this time always find myself looking back over the past summer and being reflective. Our nation has been through a tremendous amount of strain and suffered considerable inner turmoil over this past summer. Many things have happened to our country that have never been experienced by Americans before and we have pulled through it with a remarkable amount of courage and strength.

Improvement Is For All Ages

Vacation did not begin for everyone on May 26. Fourteen faculty members used part of or all of their summer vacation attending summer school or workshops to increase their skills as teachers and to learn new techniques.

Attending San Antonio State University were Rodney Holder, Floyd Spruett, and Troy Krenk. Mr. Holder earned nine hours in education and physics. Mr. Spruett spent six weeks on the college campus, earning six hours in music education toward his masters of music education degree. Mr. Krenk enrolled in an income tax course taken for personal improvement.

Spending a week in Dallas attending the State In-Service Conference for Vocational Homecoming Teachers were Sarah Mahon, Joyce Davidson, and Diana Woychik. Special emphasis of the conference was on communication between cultures: the language differences of the Black, Mexican-American, and the Anglo, and the culture and history of the Mexican-American.

Attending the week vocational workshop in Austin were Sarah Mahon, Joyce Davidson, and Diana Woychik. Special emphasis of the conference was on communication between cultures: the language differences of the Black, Mexican-American, and the Anglo, and the culture and history of the Mexican-American.

Trophy Case Arrives At Rice

(By Laurel Anderson)
Last Friday, August 30, Rice High School received its new trophy case. The case was brought to Rice at a big rally from Columbus. The men, Mr. Fodge, Mr. Parham, and some senior ag members, had to put the case on steel rollers in order to get it into the Commons area at Rice.

The case really adds a lot of beauty to the school and everyone is proud of the new addition. Presently there are 36 trophies, 5 awards, and 3 plaques which are housed in the new addition and leaving room for the many new trophies to be added in the near future.

The trophy case was made possible by the Student Council and other clubs pledging money to help purchase it.
