AN EDITORIAL EVERY ONE NEEDS A HOBBY

No matter your age or economic status, you should have a hobby, an interest that has nothing to do with school or school activities.

Hobbies come in all sizes, shapes, and varieties, but no matter. Authorities agree that a student's hobby should be completely divorced from the way he spends most of his time.

If you already have a hobby, that is fine.

If you are looking for a hobby or want to change your present hobby, here are some suggestions:

Do something that can be

admitted by others and give you a feeling of pride.

Determine that whatever you do is in keeping with your skills and abilities.

Engage in something that does not interfere with school.

Choose an activity that fits your age and circumstances.

Work on something that does not disturb your family.

Make sure that it remains your servant and not your master.

Ask yourself whether or not your hobby can grow as you grow and still continue to interest you.

Ready to begin your hobby? Good. Have fun.

Rice Seniors Visit With Counselors

(By Laurel Anderson)

Last week, September 5-6, the seniors of Rice High School met with their counselors to discuss the outlook of their future.

The counselors first showed the seniors their transcript of all the high school work that they had done including up to the present day. This transcript was shown to the seniors for two main purposes.

One is to check for any error that might have been made on the record and the second is to be sure that each student is meeting all requirements for graduation.

Also, the counselors asked the seniors if they planned to go to college and if so, they got an application form for SAT or ACT tests that are required for college entrance. The students who are not planning to go to college were encouraged to explore job possibilities after graduation.

Mr. Carpenter, one of Rice High School's counselors, concluded: "Our primary purpose is to encourage our seniors to begin making plans for what they want to do after their high school education is completed—be it work or further educational endeavors."

FFA Chapter Has Very First Female Member

(By Larry Bowen)

When Sandy Tate goes to her first period class this year one thing she doesn't have to worry about is not having a boy to talk to. There are over twenty boys to choose from.

Sandy Tate is a senior at Rice and she is the first girl ever to be enrolled in a Production Ag class. She takes Ag I and is doing as well as, or better than, most of the boys in the class.

Sandy is raising a calf for the Rice FFA Show and has a registered Brahma heifer that she plans to take to the Houston Livestock Show.

She said that taking Ag was fun and interesting and I imagine that all the boys in the first period Ag class would agree.

Rice Has New Photographers

Pirtle, Alvarado, Hagedorn in Photo Room

(By Laurel Anderson)

Rice High School has three new photographers this year. The students tackling the job are Leroy Alvarado, Wayne Pirtle, and Leland Hagedorn. These new photographers are having their up

and downs in this new field, but Mr. Graham, annual staff advisor, guaranteed the annual will be a great success.

These photographers will be taking pictures for the 1974-75 school year annual.

School Is Worth Your Effort

(By Mike Armstrong)

Men who have completed college have average annual earnings from two to three times higher than men with only grade school education. Over a lifetime, men with some level of postgraduate work will earn an average of \$300,000, compared with less than \$100,000 for those who have fewer than eight years of schooling.

So if you think college is a waste of time and not worth the money, it could mean a difference of \$200,000 in a lifetime earnings.

Navy Retiree Is New Ass't.

Flying airplanes and multi-engine transports and being a rear seat gunner in dive bombers was once routine work for the 31-year Navy veteran Ed Parham.

He is no longer air-borne but he has his feet firmly planted on the ground after his naval retirement. This Southern gentleman from Elberton, Georgia, is now employed as assistant to the maintenance director on the Rice campus. His last years in the Navy were served as a maintenance chief.

Mr. Parham's naval career took him to many foreign lands: the West Pacific, Japan, Korea, Viet Nam, China, Taiwan, Okinawa, Philippines, and Guam.

His wife, Kathryn, who is a tutorial aide at the Sheridan School, accompanied him to the Rice campus.

Their son, John, a graduate of the University of Houston, is a hit and run investigator with the Houston Police Department.

In his leisure time, Mr. Parham enjoys recapturing events in history.

Finding his work here different and challenging, Mr. Parham looks forward to assisting the students and staff on the campus.

Student Council Elects Officers

(By Trace Hartfield)

Rice Student Council elected officers from representatives elected by the students. The results were as such: reporter, Shirley Fajkus; recording secretary, Beryl Shorter; Carol Schoolmann; historian, Sharon Stupleton; and treasurer, Daryl Hunt. The president, Donna Dink, lefts, and vice-president, Jim Walker, were elected last year by a direct vote of the students.

The Council is also making plans for a homecoming dance following the homecoming game.
