Pearce Street Journal -

Plug For Ad Boys

We're always either making fun of or bragging on the Front Page Boys (depending on what they've done to us or for us lately) and it might be appropriate to let the ad boys sit at an advertised desk and write their advertised copy, and write with an advertised pen.

"He will ride to work in an advertised car, sit at an advertised desk, write with advertised copy, and write with an advertised pen."

"The ad boys were borrowed from Fred Hartman and appeared in a recent issue of the Baytown paper."

"He will bathe in an adver-

tised tub, wash with adver-

tised soap, shave with an adver-

tised razor, drink adver-

tised juice, cereal and toast

(toasted in his advertised

toaster), put on advertised

clothes, and an advertised hat.

"He will ride to work in an adver-

tised car, sit at an adver-

ted desk, write with an adver-

ted pen."

So here is our purposed

tribute to newspaper adver-

"A man wakes up in the

morning after sleeping on an

advertised mattress, under an

advertised blanket, in adver-

tised pajamas,

"He will bathe in an adver-

tised tub, wash with adver-

tised soap, shave with an adver-

tised razor, drink adver-

tised juice, cereal and toast

(toasted in his advertised

toaster), put on advertised

clothes, and an advertised hat.

"He will ride to work in an adver-

tised car, sit at an adver-

ted desk, write with an adver-

ted pen."

This is brought out in the

list of the top 100 of public em-

ployment, according to the

Department of Commerce, as

entitled "Compendium of Public Employment."

Such studies are made every five

years.

The figures for localities

recently released, include all

persons on the payrolls of

counties, townships, munici-

palities, school districts and

special districts. Federal and

state employees are excluded.

Special interest attaches to

the first 100 of public em-

ployment, at all levels, but

is playing an ever-increas-

ing role in the economy, due

to its growth and its rising cost.

The report lists a total of

445 full-time workers or their

equivalent on local payroll

at the state and local levels.

The Federal job force has

not changed significantly.

The total number of govern-

ment employees rose from

9.7 million to 14.1 million in

the ten years. More than half

of the rise was in the field

of education.

According to reports from

the Department of Labor and

the Census Bureau, public em-

ployment has been zooming in

the United States in the last

ten years. Most of it has been

**Last Rites  
For Raymond  
Jochetz Wed.**

By Ward深深 in the community. He was deeply saddened to learn Monday of the death of Raymond Jochetz, 87, a long-time rice producer in this community. Mr. Jochetz passed away at 2:30 p.m. Mon., Mar. 13, in the hospital following a stroke and an illness of more than six years. Up to the time of his stroke he was active in rice farming and was one of the earliest rice producers in this area.

Last rites for Mr. Jochetz were held from the chapel of the First Baptist Church in the First Baptist House at 10 a.m. Wed., Mar. 13th, 1975 with the Rev. Father Edward Geiser, pastor of Our Lady of Perpetual Help Catholic Church officiating. He was placed to a final rest in the Lakeside Cemetery. Services in the pallbearers were conducted by Major Charles David Jochetz, Johnny Kaluzs, Jim Laughlin, Jim B. Jochetz and Michael Jochetz.

Raymond was recited in the chapel of Mill-Bauer funeral home at 8:00 p.m. Tuesday with Father Geiser leading in the prayers.

Mr. Jochetz was born on November 21, 1887 in Flinoma, Texas the son of Paul Jochetz and Rose Jochetz. He came to the Eagle Lake area at approximately age 18 and one of the pioneer rice farmers in this area. He and Miss Genevieve Foltik were united in marriage in the Nottawa community on Oct. 17, 1909.

Surviving are his wife, Mrs. Raymond Jochetz, Jr., of Huntsville, and James Jochetz of Dallas. Also surviving are sixteen grandchildren and thirteen great-grandchildren, and many other relatives and friends.

Mr. Jochetz was listed in the New Encyclopedia of Texas as "one of the best known citizens of Eagle Lake and a substantial and progressive rice farmer."

He began farming some 200 acres in 1910 and through the years more than 1000 acres of land acreage and continued to produce some of the best rice.

He attended public school but was a self-educated self-made man and attained a considerable degree of success in his chosen industry by hard work and constant attention to every detail of the business of growing rice.

Mr. Jochetz always maintained an interest in the educational and civic affairs of the community and was an active member of the Eagle Lake division of the American Rice Growers Cooperative Association for many years.

He was a man of great character and shared with his family and friends an abiding love and devotion. He shall be missed dearly by his loved ones and friends.

According to reports from

the Department of Labor and

the Census Bureau, public em-

ployment has been zooming in

the United States in the last

ten years. Most of it has been

in the state and local levels.

The Federal job force has

not changed significantly.

The total number of govern-

ment employees rose from

9.7 million to 14.1 million in

the ten years. More than half

of the rise was in the field

of education.
