A pecan tour scheduled for September 4 will show varieties, crops, equipment for spraying and harvesting, plus

# Grain Boycott "Stab In Back" Says FB Head

Boycott of grain shipments to Russia by U. S. maritime unions is a "self-serving gesture that stabs American farmers in the back," the president of the state's largest farm organization said.

Carroll Chaloupka, head of the 170,000 member Texas Farm Bureau, said the unions are not as concerned about protecting the American consumer as they are with forcing exporters to use American ships and sailors.

"U. S. grain exports to Russia over the past four years averaged only 3.2 percent of all U. S. farm exports," he said. "The 1972 sales, which triggered the export dispute, amounted to only 7 per cent of total farm exports this year," he added.

"Farmers must export to stay in business," the Farm Bureau leader said. "In the past year, we exported about two-thirds of our wheat and corn, more than a third of our cotton, and about one-fourth of our feed grains."

"Farmers must export to stay in business," the Farm Bureau leader said. "In the past year, we exported about two-thirds of our wheat and corn, more than a third of our cotton, and about one-fourth of our feed grains."

## Time At Hand For Fall Gardens

Although it's the middle of summer, that's the time to start getting things in shape for your fall vegetable garden.

Spring gardens generally do well in most parts of Colorado County although adverse weather conditions reduced some yields.

Now the fall gardening season is approaching, and that means getting land prepared and getting transplants started as soon as possible.

Many popular vegetables such as tomatoes, peppers, eggplants, pole beans, potatoes, okra, cucumbers, and squash can be planted during August.

What are the so-called "winning" vegetables? Cucumbers, eggplants, parsley and carrots can be planted in mid to late August for early harvesting.

Later plantings of these cold-hardy crops will supply fresh vegetables well into winter.

Some of the most important aspects of fall gardening are:

First of all, get the land into good shape. If a garden was planted this spring and fertilizer was applied, little if any additional fertilizer will be needed before fall planting.

For new gardens, apply two to three pounds of a complete fertilizer such as 10-20-10 per 100 square feet and work

residual spots of open boxes or cartons.

If stores aren't adjacent to the camping site, concentrate on canned foods and dry staples, and remember remote stores probably carry basic staples and may not have all the family favorites.

As a final reminder, campers shouldn't drink water unless its safety is known. If it has to be used, boil it.

# Raiders Host Bastrop Fri. For Final Scrimmage

Raiders Show Great Improvement In 1st Scrimmage

The Rice High School Raiders showed vast improvement in their first practice scrimmage of the 1975 season last Friday night at Raider Stadium.

Coach Dee Mackey was pleased with the general performance of the Raiders and especially with the high attitude that exists among the Raider squad.

Despite the fact that the Raiders gave up 2 touchdowns while they failed to penetrate the Bluejay goal line, they moved the ball well and were hurt by numerous penalties and fumbles.

Defense was exceptionally good, commented Coach Mackey. The coach said that Neville coaches were hard hitting and that the Raider defense was a real test for the Raiders.

In the Raider JV workout with Neville, the JV also impressed the coaches with some good offense and a tough defense.

Clayton Smith and Russell Scott alternated at quarterback and did a good job of running the Raider offense.

Improvement over last year's scrimmages. Some of the bright spots found in the Raider JV workout were:

Ronnie Glover, the hard hitting defensive line led by Darrell Cartson who recorded a dozen tackles and a defensive back Charles Powell who led the Raiders with 13 tackles.

Powell at quarterback, Kenneth Dawson at fullback and Darrell Dancy at tailback and quarterback.

Coach Mackey said that the Raiders will probably start the scrimmage at quarterback and tailback. Kenneth Dawson will be at quarterback and he and Darrell Dancy will be alternating at quarterback and tailback.

Keneth Dawson will be at quarterback and he and Darrell Dancy will be alternating at quarterback and tailback.

Keneth Dawson will be at quarterback and he and Darrell Dancy will be alternating at quarterback and tailback.

Keneth Dawson will be at quarterback and he and Darrell Dancy will be alternating at quarterback and tailback.

# Whitewing Doves Raider Football Schedules

Scarce For Opening Tues.

Whitewing dove hunters are hoping for a change for the better, but whitewings which arrived in record numbers in the Rio Grande Valley during late spring have all but disappeared.

Texas Parks and Wildlife Department white-winged dove project leader Gary Waggoner said that the birds could return in time for the Sept. 1 opening day of hunting season and that plenty of food and water is available for them.

Waggoner said that the birds could return in time for the Sept. 1 opening day of hunting season and that plenty of food and water is available for them.
