Our whole system of justice stands on the premise that crime should have a penalty. Most men sense that judgment has been written into the very nature of our world.

Human history and the Bible agree that such a view is mere self-deception. God does judge men and nations. Justice is not blind and God is not an indulgent grandfather.

Vets' Day Officially Nov. 11th

It's official now! Veterans' Day will return to Nov. 11 on the calendar of federal holidays, but it won't be effective until 1978.

President Ford last Sunday signed legislation restoring observance of Veterans' Day to its original date because "commemoration of this day on Nov. 11 is a matter of historic and patriotic significance to a great number of our citizens."

The theme for this year's observance is "Service to the Nation." The observance will be celebrated around the Bicentennial Year according to Jim Campbell, director of Student Activities.

Prudent Fund Use

"Prudent use of the funds in this county has resulted in whatever surplus exists," added the judge. "Criticism that we have a surplus is misdirected since most of the funds in the surplus are earmarked for some future projects. We all know that there is some value in having additional funds available to take care of these projects, rather than to have to issue time warrants or bonds."
