Rep. John Wilson Reports

Constitution Change To Affect Local Govts.

(By Rep. John Wilson)
 Each week a different part of the proposed Texas Constitution is highlighted in this weekly article. On Tuesday, November 4, 1975, the voters of Texas will decide whether to adopt these proposals. There are eight separate parts on the ballot, and they are arranged such that any one, none, or all of them can be approved to become effective. This week, the Local Government proposal will be discussed.
 First, the compactness of their county lines are continued as they are today; however, a two-third vote of approval by the voters of those counties affected may move to combine two or more counties and relocate county seats. Under the present Constitution, changes in county boundaries and county seats are allowed in the same way. Similarly, all present county officials are to continue to be elected by the voters -- county judges, four county commissioners, a sheriff, treasurer, county attorney, tax assessor-collector, county clerk, and two constables -- but their terms are to be four years long.
 Under a new provision in the proposed Constitution, county voters by a majority vote may create additional offices, eliminate unwanted offices, or combine the duties and functions of various county offices. This idea is totally new in the proposed constitution. Additionally, the proposed constitution will require that the county commissioners' precincts be approximately equal in number of voters, rather than equal geographic size.
 One major change the proposed constitution will make is to allow voters to give and/or take away ordinance-making powers from county government. In other words, the county like a city, may enact county ordinances, create zoning requirements, and provide for county road speed limits in the parts of the county outside of cities. Speaking of cities, the proposed constitution will lower the population requirements from the present 5000 population minimum to 1500 for cities that want to adopt home-rule charters.
 Regarding the creation of so-called "special districts and authorities" -- water districts, hospital districts, river authorities, etc. -- the proposed Constitution would allow the Legislature to create and authorize the creation of local or general law. Additionally, cities and counties would be able to establish these special districts within their own boundaries. Presently, some of these "special districts" require constitutional amendment for creation. However, the proposed Constitution continues to require voter approval before the special district or authority can be created for operation or issue bonds for capital improvements.
 The proposed Constitution establishes a maximum \$2.00 per \$100 valuation annual ad valorem tax for city or town operating expenses, and a \$1.25 per \$100 valuation annual ad valorem maximum for county operations. The Legislature will set a maximum tax rate that school districts, cities, counties, and other special districts are authorized to levy such additional ad valorem taxes as are necessary to service bond debt requirements.
 In the present Constitution, maximum ad valorem tax rates of \$2.50 per \$100 valuation to fire departments for fighting rural fires on farm Bureau insured property. Recent payments have gone to the Columbus, Garwood, Rock Island, El Campo and Eagle Lake Volunteer Fire Departments.
 In addition to these programs, county Farm Bureaus sponsor a graphic 45-minute fire prevention demonstration. Some 1,600 fire safety programs have been presented in 200 different counties, before schools, civic clubs and other groups by the Texas Farm Bureau Safety Department staff during the past 12 years.

Garden Club To Meet

Oct. 13

The Eagle Lake Garden Club will hold the October meeting in the home of Mrs. Harrison Walker on Monday, October 13, with Mrs. Cleo Jones, Mrs. R. H. Reese and Mrs. Cecil Austin as hostesses.
 This is a change from the regular meeting date. All members are reminded to note the change and to attend.
 New potatoes are better than mature potatoes in most frozen dishes. Mature potatoes tend to disintegrate or become watery when boiled and then frozen.

Farm Bureau Emphasizes Fire Prevention

The Colorado County Farm Bureau in conjunction with all fire departments in the county are working together to emphasize fire prevention and protection throughout the county, year-round but especially during Fire Prevention Week, October 9-11.
 Fire Prevention Week is always the Sunday-through-Saturday period in which falls October 9th, date of The Great Chicago Fire of 1871. The Chicago disaster killed 250 persons and destroyed 17,450 buildings at a cost of \$185 million.
 The county Farm Bureau sponsored the National Fire Protection Association fire losses as annually, 12,000 people die; another 300,000 seriously hurt; 1,000,000 buildings burned; and total
