The council unanimously approved the amended form of the waste disposal ordinance when the proposed rate for commercial collection was changed from a minimum of $20.00 a maximum of $30.00 per month; to a minimum of $3.00 to a maximum of $30.00. The council opened four bids for oil and gas and mineral leases on the 96.65 acres of land May 11th but referred the bids to a four member committee for a final recommendation to the council Tuesday night.

Bidders were Hanover Petroleum Corp. of Houston; Energex Corp. of Houston; Gordon L. Saathoff of Bellaire; and Larry R. Hutchinson of Houston. LETTERS TO EDITOR

Cooperation Of Local Golf Association Praised

Dear Mr. Frnka:

Our country seems to be alive with controversy. This, that, or the other seems to be wrong, under fire, or subject to great criticism.

In light of all this controversy, I would like to confuse the issue by passing along a little praise. Three years ago I took on the job of golf coach at Rice High School. Last year Mike Stansifer, Garwood Junior High Coach, began helping me by working with the junior high golf program.

Coach Stansifer and I got our heads together and decided that the people of this school district need to know how much encouragement and cooperation we get from the Eagle Lake Golf Association. As we go around to different tournaments we hear lots of coaches complaining about how the local golf association makes it hard on their golf program.

Coach Stansifer and I

Rice District To Implement Right-To-Read

The Rice School District, by commitment of the board of education, accepted the invitation of the Texas Education Agency to implement a Right-to-Read Program beginning with the 1976-77 school year.

Right-to-Read was launched by the U. S. Office of Education in 1970. The concept was endorsed by the Texas Education Agency and was made a priority in the Goals of Education for the State. Beginning in 1974, selected schools were invited to participate on the local level. The program is mandatory for all schools by 1980.

The first step was to declare reading as a priority area by the Board of Education. Implementation of the process includes analyzing the present Reading Program for strengths and weaknesses. An appointed advisory council consisting of administrators, faculty and concerned citizens will determine what Reading improvements are needed. The task force will plan the Organization for the Right-to-Read Program, make a Needs Assessment, establish Priorities, develop a Plan of Action, develop evaluation procedures and provide liaison with the school and community.

The goals of Right-to-Read are a national thrust to insure that 99 percent of all school age children under 16 years of age and 90 percent of all people over 16 will possess and use literary skills.

"Rice District will receive consultant assistance from the Texas Education Agency and Region III to insure that the district is moving in its plan to improve the teaching of reading," noted Rice CISD curriculum director Charles W. DeShazo. "Support will be provided in staff development and the introduction of special instructional techniques into the classroom. Basically the program will be a comprehensive effort to insure that each child is well grounded in reading which is basic to a free society. Community involvement will insure support through participation of non-teaching personnel from the public at the local level."

$5000 Damages Asked In Car-Train Collision

A total of $5000 in damages is asked as the result of a car and traincollision on a private road in this county on Oct. 25, 1975.

The suit was filed by Hazel Jo Chance, individually and as next friend to Timothy Randall Chance, a minor. Mrs. Chance alleges in the petition, filed in district court Monday, that her son was driving on a private road which was crossed by a railroad track maintained by Southern Pacific Transportation Co. and the vehicle, driven by the boy and a train engine operated by Floyd B. Kieschnick, collided.

The petition alleges that T. M. Horton was supposed to be the engineer on the train and that the company was negligent in allowing the latter to operate the engine.
